Mathew Ralidak and Veronika Goodnight:

As Elora Goodnight-Ralidak's treating therapist and her therapist's supervisor, we are writing this letter after reviewing the current domestic violence protection order, family parenting plan, and supplemental findings. It appears that, despite the protection order that is in place, Elora's mother still has joint medical decision-making rights for Elora. We temporarily suspended Elora's therapeutic treatment per her mother's request while we researched this issue.

It should also be noted that therapeutic records were released based on Elora's father's request to release them, which was in compliance with Washington State law.

After consulting with the Quality Department at Compass Health, we received the following response: It is consistent with Compass Health values/previous decision making, and with state laws that we continue to treat Elora. Per the Washington state health law manual, "If a health care provider has notice, however, that the parents are in conflict regarding either the terms of the parenting plan or divorce decree, or the giving of consent to specific health care, the provider should obtain a copy of the parenting plan or divorce decree for interpretation. If the authority or custody is deemed to be mutual or joint or not allocated, and the parents continue to be unable to resolve their differences, they should be told to either reach an agreement or to obtain a court order authorizing the treatment or non-treatment. If treatment, such as ongoing counseling sessions or a medication regime or a surgical procedure, has been started at the time of receipt of notice of opposition to it by the other parent, it should be brought to a clinically appropriate conclusion and not interrupted to the detriment of the patient."

Because we believe that disruption in Elora's therapy will be detrimental to her, we are choosing to continue Elora's treatment with Compass Health at this time. Elora has utilized therapeutic treatment very well thus far. She has benefitted from her time in therapy and has seen a decrease in the following symptoms: episodes of emotional dysregulation, anxious thoughts, and feelings of anger. We expect that Elora's father will continue to will continue to work to resolve this conflict between Elora's parents related to her mental health treatment through family court.

Sincerely,

Anjali D'Souza

Veronika Goodnight and Mathew Ralidak:

As Elora Goodnight-Ralidak's treating therapist, I am writing this letter to clarify my clinical recommendations about her safety and ongoing therapeutic treatment.

Elora currently continues to attend the same church as another child (Makayla). Problematic sexual behaviors allegedly occurred between the two children. However, if the current safety plan is in place at church and Elora feels safe attending, I do not have concerns about this plan. I also recognize the benefits of Elora continuing to attend church, including social enrichment.

Said safety plan consists of consistent adult supervision at church, and that Elora and Makayla are separated throughout their time there. Additionally, Elora and I have spent time in therapy defining her "safety circle" of trusted adults that she can go to, both within and outside of the church, should something unsafe occur in any aspect of her life.

It is also recommended that Elora continue to attend weekly trauma-focused therapy sessions to keep progressing and developing effective coping skills, as she has been. These recommendations are in place to support Elora's wellbeing and overall safety.

Sincerely,

Anjali D'Souza MA, LMHCA, MHP

CHILDREN'S THERAPY NOTES

Duvall, WA 98019

DATE: 4.21.2025

To Whom It May Concern:

Please accept this letter as a summary of services for Raina Goodnight-Ralidak (6/3/2018). I am an associate licensed mental health counselor (MC61294206) under the supervision of Jessica Milian (LF61102102). I have been providing treatment for Raina for (F43.25) Adjustment Disorder, with mixed disturbance of emotions and conduct following significant changes to family structure. I have been working with Raina from 10/14/2024 to present.

Diagnosis: (F43.25) Adjustment Disorder, with mixed disturbance of emotions and conduct

Treatment Goals:

- Raina will be able to process and identify emotions in a safe environment.
- Raina will be supported in developing self-soothing and coping strategies to help her manage and regulate intense emotions more effectively.
- Raina will be provided with consistent structure and stability by both parents to support her emotional and behavioral development.
- Parents will be mindful of their language and content which Raina is exposed to. Raina will not be burdened with adult concerns and is only exposed to age-appropriate conversations, media, and environments to support her emotional well-being and healthy development.
- Therapy will serve as a safe and supportive environment for Raina, providing consistency and emotional security given the instability she may be experiencing in other areas of her life.

Overview of Treatment:

- 22 sessions total
- Raina, Veronika Goodnight (mom), Matthew Ralidak (father), Monica Ralidak (stepmom), Collin Derieg (mom's partner) have all attended at various points.

Overview of Significant Session Content:

- **Emotional safety:**
 - Raina reported on 1/20/2025 that mom yelled at her for biting brother.
 - Raina reported on 1/20/2025 that mom and Collin fight "all the time."

- o Raina reported on 1/20/2025 that mom told her that Stepmom is bad and took Dad from her.
- o Raina reported on 2/5/2025 that she misses dad so much but is worried she won't ever see him again. The clinician asked why she was feeling this way and Raina reported she couldn't tell me.
- o Raina reported on 2/13/2025 that mom yells at her and tells her she is bad.
- o Raina asked on 2/17/2025 to not tell mom what she tells the clinician over fear of getting in trouble.
- o Raina reported on 2/17/2025 that she doesn't want to ever leave dad's house and all mom does is yell at her and won't play with her. Raina asked the clinician directly why she has to leave dad's house.
- o Raina reported on 3/3/2025 that mom doesn't play with her the way clinician does, "she never has played with me."
- o Raina reported on 3/17/2025 that she doesn't like Collin but likes Monica, but has to pretend she doesn't when she is with mom.
- o Raina reported on 3/27/2025 that mom had a TV show on that was "scary." Raina asked for her to turn it off because it was scary. Raina stated that "mom ignored me."
- o Raina reported on 4/14/2025 that she misses mom after not being able to see her.
- o Raina reported on 4/14/2025 that she doesn't want to share things in fear it will make mom mad.
- **Physical safety:**
 - o Raina reported on 1/20/2025 that mom grabbed her for biting her brother.
 - o Matthew reported on 1/6/2025 safety concerns that Collin's children had threatened to throw Raina off their balcony.
 - o Raina reported on 2/13/2025 that mom's partner Collin yells at her, tells her to turn around, and spansks her repeatedly.
 - o Raina asked on 2/17/2025 to not tell mom what she tells clinician over fear of getting in trouble.
 - o Raina reported on 3/3/2025 that mom spansks her regularly and spanked her the night before.
 - o Raina reported on 3/17/2025 that again mom spansks her regularly but Collin does not.
 - o On 3/27/2025 Raina had a scheduled appointment that Dad/Stepmom were bringing her to. Upon arrival Raina noticed her mother's car parked in front of the Clinician's office. Raina became emotionally dysregulated and wouldn't come inside the office if mom was present. Raina stated that she was scared to go inside if mom was there. The clinician had to promise mom wasn't in the building, and lock all doors after Raina entered the office.

- o Raina reported on 3/27/2025 that mom is getting an RV with a man that she has to call grandpa. Raina reported that the man tries to hug her but that she doesn't want to be hugged. Raina reported he is "creepy" and "gross." Raina stated the man has tried to kiss her on the lips but told him no. Raina reported he doesn't listen. Raina asked the clinician to not share with mom, because she would get mad.
- o Raina reported on 4/7/2025 that mom had spanked her multiple times and slapped her across the face when wouldn't go to bed.
- **Behaviors of concern:**
 - o Raina on 11/11/2024 during imaginary play asked Clinician to tie her up and kidnap her.
 - o Matthew reported on 1/6/2025 that Raina had made inappropriate and sexually suggestive poses.
 - o Matthew reported on 2/11/2025 that Raina had used a red sharpie to draw blood all over her underwear.
 - o On 3/3/2025 Clinician was approached by mom in the lobby. Mom shared that Raina is sleeping well and repeatedly said she is lying in front of Raina. Raina came into the clinician's office and repeatedly said "All I do is lie," "I am a liar," and "I am not good."
 - o Raina reported on 3/3/2025 that she lied to the clinician about Collin spanking her. Raina reported that it is mom who spanks her regularly. Raina stated that she lied to not make mom mad.

Interventions With Parents:

- Encouraged parents to provide increased stability and structure for Raina through the establishment of consistent routines. This includes implementing a regular bedtime schedule, a morning routine before school, ensuring timely arrival at school, and creating consistent transition routines. It was recommended that both parents support daily communication by allowing Raina to call the other parent each evening.
 - o Both parents throughout the clinician's time spent with Raina, have remained adamant that they provide this for their child.
 - o Both parents have reported that the other parent does not let Raina make nightly calls.
- Encouraged parents to consistently uphold appropriate boundaries when addressing Raina's unwanted behaviors. Parents were encouraged to enforce these boundaries without resorting to yelling, corporal punishment, or other fear-based disciplinary methods. Encouraged parents to model calm, composed, and controlled responses to guide and support Raina effectively.

- Raina reported on numerous occasions that mom and Collin “always yell” at her.
- Raina reported in 4 sessions that mom used corporal punishment by spanking, grabbing, and slapping her across the face.
- Mom reported directly to the therapist on 4/16/2025 that she had used corporal punishment as a method to get desired behavior. Mom reported that she screamed at Raina that night “to get the fuck out”.
- Encouraged parents to limit Raina’s access to adult related content by filtering adult topics and also by not discussing the other parent in negative or derogatory ways directly with or in the presence of the children.
 - Raina reported she was scared she wouldn’t see her dad again. Raina wouldn’t share with the Clinician why she thought this.
 - Raina reported that she has to pretend to not like Monica to not make her mom mad.
 - The clinician observed mom talk in front of Raina numerous times that Raina was dysregulated and behaving badly “because of her father.”
- Encouraged parents to eliminate access to unsupervised media content.
 - Observed in remote session access through television as Raina put on YouTube with no parental settings. Raina was able to watch any video of her choosing.
 - Raina shared on 3/27/2025 that Mom was watching a scary show called Wednesday. Raina shared she asked mom to turn it off but was ignored.
- Encouraged both parents to take evidence based Positive Parenting Program to support consistency in parenting practices between homes and increase positive parental intervention tools. Course information was provided to both parents by email 2/20/2025.

Overall Response to Parental Interventions:

- Mom expressed disagreement with the suggested reasoning behind Raina’s behavior. Mom denies any parental challenges while the children are within her care. She reports that she already is providing the recommended support and structure at home. She reports that Raina gets undivided time and connection with her despite Raina’s reports. She reports that she never speaks bad about the father.
- Dad expressed consistent concern and verbal agreement with the need for clinical intervention to support stability between homes. He reports that he actively attempts to make recommended changes in parenting strategies. He reports not speaking negatively about mom in front of the child.

Interventions with Raina:

- Implemented a structured transition plan when therapy was ending. A consistent routine.
 - Positive
- Implemented increased structure in sessions.
 - Positive
- Implemented a “she chooses, I choose” approach. This gives Raina a choice during a shared activity, followed by the clinician making a choice.
 - Positive
- Implementation of undivided distraction free-time with Raina without the presence of phones or other interruptions.
 - Positive
- These intervention strategies were shared with both parents on 2/18/2025 and encouraged to implement as home due to positive response in therapy.
 - Dad responded by phone and agreed to and verbalized willingness to implement interventions.
 - Mother responded by email and disagreed with the clinical assessment and verbalized a lack of need and willingness to implement interventions.

Clinical Assessment:

- It is my professional observation that Raina appears to be experiencing significant instability and confusion. The ongoing instability between the home environments seems to be creating a sense of emotional chaos. The reported use of corporal punishment and yelling by her mother might be contributing to her fear and hesitation to express her real feelings. Raina’s behavioral challenges may be a reflection of her deep need for connections and emotional security. Overall, it appears Raina is struggling with feelings of fear, and does not consistently feel safe.

Prognosis:

- Without improvements in stability and structure across both home environments there is a significant risk that Raina’s maladaptive behaviors will continue to escalate.
- It is my professional assessment that the most effective course of action to improve Raina’s prognosis involves providing her with consistency and stability across both homes. This includes setting and maintaining clear boundaries without the use of fear-based disciplinary practices. It is also essential to Raina that both parents prioritize quality connection time, creating a safe and supportive space where she feels comfortable expressing her true thoughts and emotions. Additionally, careful monitoring of age-appropriate content and ensuring she is surrounded by trusted individuals who contribute to her sense of safety are critical to her overall wellbeing.

I declare that the foregoing is true and correct to the best of my knowledge. It is important to note the scope of my practice is limited to therapeutic assessment and intervention. Investigative or evaluative roles are outside of my scope of practice. Any need for investigation and evaluation has been deferred to DCYF as WA state mandated reporting laws outline. Any information provided in this letter is an objective statement of what has been reported or a therapeutic assessment of the child (or families systems) developmental and mental health support needs.

To Whom It May Concern:

Please accept this letter as a summary of services for Aidan Goodnight-Ralidak (08/16/2016). I am a licensed Marriage and Family Therapist (LF61611623). I have been providing treatment for Aidan for (F43.25) Adjustment Disorder, with mixed disturbance of emotions and conduct following significant changes to the family structure, and has shown signs of excessive emotional outbursts and problematic school behaviors. I have been working with Aidan from 10/14/2024 to the present.

Diagnosis: (F43.25) Adjustment Disorder, with mixed disturbance of emotions and conduct

Treatment Goals:

- Be better at listening to instructions from teachers at school and parents at home
- Learn better ways to manage stress

Overview of Treatment:

- 16 sessions total
- Aidan, Veronika Goodnight (mom), Matthew Ralidak (father), and Monica Ralidak (stepmom) have all attended at various points.

Overview of Significant Session Content:

Emotional and Physical Safety:

- Aidan reported on 03/03/2025 that he has been struggling to get much sleep in his room at night because his sister (Raina) keeps him awake.
- Aidan reported on 03/25/2025 that he was struggling with some things at home and not wanting to talk about them for fear of "mom finding out" and getting in trouble. He did share that he was feeling "sad and confused that mom and Collin fight so much" and experiencing some despair and anxiety about being at mom's house, but he did not want to elaborate. Dad also brought him in for therapy.
- Aidan reported on 04/14/2025 that he was sad that he couldn't visit his mom because of the protection order and that he missed her snuggles, but that he did not miss

when she uses her body (pushes or slaps him and his sisters, gets in their physical space/intimidates) or when she says mean things like saying “fuck you” and pointing the middle finger at him and his sisters when she is upset (but she will later try to tell him that she didn't mean it) or telling them when they are crying “don't be a fucking bitch” (which is typically followed by her walking away).

Clinical Assessment:

- It is my professional observation that Aidan appears to be experiencing significant emotional and cognitive confusion as a result of an inconsistent home life and observations shared by his mother (as reported by Aidan in multiple sessions, where he identifies being “confused” often about promises made by his mom, and how his mother has changed the way she describes the people in his life). The reported use of corporal punishment and escalated emotional responses had created significant hesitations for Aidan to be willing to express himself or discuss his concerns with others, including professionals. Overall, it appears that Aidan is experiencing emotional distress and doesn't feel consistently secure.

Prognosis:

- Without changes to how parenting is approached and without improvements in stability and structure across both home environments, Aidan will continue to escalate the emotional and cognitive insecurity and distress.
- It is my professional assessment that the most effective course of action would include a more consistent home environment and setting healthy boundaries with parents and siblings regarding expressing needs and dealing with conflict. Aidan needs to feel safe expressing his thoughts and emotions with his parents.

I declare that the foregoing is true and correct to the best of my knowledge. It is important to note that the scope of my practice is limited to therapeutic assessment and intervention. Investigative or evaluative roles are outside of my scope of practice. Any need for investigation and evaluation has been deferred to DCYF, as WA state-mandated reporting laws outline. Any information provided in this letter is an objective statement of what has been reported or a therapeutic assessment of the child's (or family systems) developmental and mental health support needs.

Sincerely,

Client's mother attended session individually via telehealth and shared that "There is no food scarcity at my home for the kids (client and her siblings)." Client's mother reported that CPS had come to her home over the previous week due to food scarcity concerns that were reported to CPS. Therapist had reported said concerns to CPS, and discussed report and special occurrence details with client's mother. Therapist then reviewed continued clinical safety recommendation that client's food and caloric intake should not be restricted in any way. Client's mother appeared to understand and agree with recommendations.

ASSESSMENT: Assessment can be completed like a mini Mental Status Exam, can include level of engagement, the client's presentation today, etc. May include both provider and client/family perspective on progress.
Client's mother reported her home "being a source of consistency, support, and no food scarcity for my children (client and her siblings)."

PLAN: Plan for the next session (e.g. client homework, continue strategy, issues to address next session, review/update treatment and/or crisis plan next session)
Continue parent sessions as needed.

DATA: Subjective and objective information, content of the session (e.g. include progress toward goals, client quotations, incidents/changes in clients life, referrals, case management activities (Include additional attendees)

During a teletherapy session via phone on 12/20/24, client's father and stepmother reported that the client's mother "has stopped feeding the kids (client and client's two younger siblings) any food at her (client's mother) house and only allows them to drink Purium meal-replacement shakes." Per client's father, on 12/20/24 client had stated that she and her siblings are left alone for dinnertime at client's mother's house. Client's father stated, "Elora (client) is responsible for feeding herself and her siblings, but all she knows how to make is scrambled eggs."

Client's father stated he believes the alleged food restriction at the client's mother's home is not financially related "because I pay her \$1800 per month for child support, but we're pretty sure that money is going directly towards an MLM (multilevel marketing endeavor) that she (client's mother) is involved in." It should be noted that client's father and stepmother have historically expressed some concerns about food scarcity at client's mother's house. Client's father and stepmother state that they currently have concerns with client bingeing and hoarding food when the client is at their home, reporting that these behaviors appear to be heightened when the client has recently returned from her mother's. Client's father also reported that earlier in the week, client's mother "snuck into the kids' (client and her siblings') school cafeteria and berated a lunch lady, trying to limit the foods that are fed to the kids while they're at school."

Therapist spoke with client individually. Client stated, "We just eat a lot of healthy stuff at my mom's house, like cereal." Client was unable to think of any other foods she eats when she is at her mother's home. Client reported her mother continuing to utilize a phone application that "tells us which foods are healthy to eat, so now we can barely eat anything when I'm at my mom's." Client reported feeling "hungry almost every day when I'm there (client's mother's home)."

ASSESSMENT: Assessment can be completed like a mini Mental Status Exam, can include level of engagement, the client's presentation today, etc. May include both provider and client/family perspective on progress.

Client, client's father, and client's stepmother reported some concerns around food scarcity at client's mother's home.

During a telehealth parent session on 8/2/24, client's father reported that on 7/31/24 client said that River Muggli (client's same-age family friend who engaged in inappropriate sexual behaviors per client's disclosure made on 7/30/24) had been sending the client "really mean, nasty text messages." Client's father also disclosed that client said some of the text messages from River said, "Why did you tell someone our secret? I hate you. We will never be friends again." Client's father reported that client has a cell phone she uses when she is at her mother's house and that the client's mother "lets her (client) use it however she wants."

It should be noted that in May of 2024, the client's father reported that River had been kissing the client "with tongue on multiple occasions." Therapist met with client's mother after this disclosure was made in May, and client's mother expressed doubt that these incidents had occurred because the client "never told me (client's mother) anything about it." At this time, therapist made a recommendation that client and River take a break from contact with each other.

Additionally, at the end of an individual therapy session on 7/30/24, therapist met with client's mother one-on-one to tell her about the client's disclosure during session that day. Therapist reiterated recommendation (originally made in May of 2024) that client does not have contact with River. Client's mother appeared to understand and agree with the recommendation.

Therapist will put clinical recommendation, including detailed stipulations, into a written letter to be sent to both of the client's biological parents.

During the same parent session on 8/2/24, client's father reported that in December of 2023 "Elora (client) said that she was in the car with her mother when an argument broke out between her and her little sister. Elora said that Veronika (client's mother) pulled the car over and smacked Elora across the face." Client's father stated that client reported once they arrived home from this incident, client's mother "went straight into the bathroom, filled up the bathtub, and refused to come out until Elora (client) wrote her (client's mother) a note apologizing for being a bad person." Client's father was unsure whether client's mother allegedly slapping the client left any physical marks or bruises. Clinician made a report to CPS and will send information to law enforcement.

REPORT FROM SCHOOL:

CUT AND PASTED NARRATIVE FROM REPORT C25010391

On April 4, 2025, I was dispatched at 1445 hours for a reported DV threats call at Carnation Elementary School, 4950 Tolt Ave.

RP-1 Matthew Ralidak and S-1 Veronika Goodnight are divorced. Ralidak and Goodnight have three children in common, V-1 Raina [REDACTED], O-2 Elora [REDACTED] O-3 Aidan [REDACTED]

O-4 Colin Derieg and Goodnight are currently dating.

O-6 Monica Galarneau and Ralidak are currently married.

O-5 Michelle Frank is the current principal for Carnation Elementary.

Ralidak informed me of the following:

He currently has a tense relationship with Goodnight. They currently share their children 50/50 according to their parenting plan. Ralidak informed me that there is an open CPS case involving Goodnight, a man she is living with, and RGR. Ralidak stated that according to RGR, Goodnight was making her kiss this man. Ralidak did not have any other information about this CPS case.

While waiting, in his car, in line to pick up his children from school. At approximately 1358 hours Goodnight approached Ralidak's car and started yelling at him. Goodnight was accusing Ralidak of calling CPS on her. Goodnight continued yelling and asking Ralidak questions about the children and Goodnight's new living arrangements. At some point Ralidak noticed Derieg standing beside his car staring at him. Goodnight then went into the school office and back out toward Ralidak's car. During this time Ralidak had called into the school's office and told the principal, Frank, and another administrator about the odd behavior and scene Goodnight was making.

Frank then came outside to speak with Goodnight. At approximately 1412 hours Goodnight and Derieg got into a maroon Chevy Silverado and left the school parking lot. Ralidak clarified that no threats were ever made by Goodnight or Derieg. Ralidak stated he felt intimidated by Derieg standing outside his car staring at him. While sharing the details of this incident Ralidak seemed visibly shaken and needed to take breaks, while talking with me, to hold back tears. All three children were not present during this incident.

As I was leaving Ralidak showed me a text from Galarneau, who currently had all three children. Galarneau said that all three children had told her that Goodnight had slapped RGR and slammed her against a wall. Ralidak thought this might be retaliation because RGR had planned to tell Goodnight she no longer wanted to live with her. Ralidak did not mention any marks or bruises on RGR when he had seen her at the school pickup. The text from Galarneau did not describe any injuries on RGR. Ralidak and Galarneau have all three children over the weekend. Ralidak said he is worried for his children's safety and wasn't sure what to do. I gave Ralidak the case number and informed him that he should get in touch with a lawyer and ask about getting a protection order if he is feeling this way.

Frank had informed me of the following:

The office had received a call from Ralidak, so Frank and another administrator had gone outside to see what was going on. Frank spoke with Goodnight and told her "This isn't the place", in reference to not handling parenting issues on school grounds. Frank stated this is not the first time that Goodnight has caused a commotion or interrupted the children's learning process.

Frank then informed me that RGR had told her 1 grade teacher that her mother, Goodnight, had slapped her so hard she was thrown into the wall. Frank stated [REDACTED] was in the process of reporting this incident to CPS.

I reviewed footage taken by Ralidak and the school security footage. The footage showed Goodnight approaching Ralidak's car. Then it looked like Goodnight had started yelling at Ralidak. It then showed Derieg standing a few feet away from the vehicle, staring inside. It did not appear that Derieg or Goodnight made any

threatening gestures. Ralidak remained in his car during the entire incident. There was no audio to the footage.

I sent Ralidak an evidence.com link to upload the footage he has and a screenshot of texts about the slapping incident. Ralidak is also in the process of obtaining the school's security camera footage.

Sequence of Events: Describe the surrounding circumstances that led to the family assessment.

PER MO: MO reported that she does feed her children (showed SW during home walk through food, and doctor's notes to confirm this) and that her children eat 'healthy foods' and that she provides enough food for them along with following doctor's orders (uploaded on famlink). MO reported that all children are up to date on PCP and have been seen at the doctor as they all eat certain foods while they spend time with MO. MO reported that she does not know what they eat when they are with their father (every other week) but that she denies restricting the children's food intake.

SW Pearson contacted MO via phone per additional concerns regarding the children reporting to be uncomfortable with new living situation in a trailer and that their 'grandpa' is making Raina uncomfortable/trying to kiss her on the mouth. SW Pearson explained to MO that these were the concerns along with the unsteady living environment for the children as SW Pearson was told by MO that when MO has the children, they are staying at Collin's home in which SW did a HWT along with interview with no safety concerns. MO reported that she was upset that these allegations were being called in and reported that she was at the school, saying goodbye to her children. MO reported that her bestfriend and another close family friend are where MO is planning on staying with eventually as the commute to the children's school from Collin's home in Monroe is difficult. SW observed that MO was speaking to Collin in the background and SW observed that MO was becoming upset as she reported to have seen FO in the parking line. MO reported to Collin that she may go over there to insist that FO stops calling reports in. SW asked MO who she was speaking to, MO confirmed that it was Collin, and MO reported that she was extremely upset. MO then reported that she knows that FO called in a report and SW Pearson explained that the reporter will remain confidential but if MO is able to provide name/address of where she is living, SW can complete safety assessment to address the concerns. MO reported that she will do this. Then the phone call ended.

PER FO: FO reported that MO does not feed the children and has them on strict diets despite FO taking them to the doctor reporting that there is not a need for a specific diet.

SW Pearson spoke to FO on the phone regarding new concerns about MO having the children stay in a trailer with an unknown person and FO provided their names as 'Jim Solberg and Nathan 'Kanis' Solberg. FO reported that Raina specifically has voiced that these men have tried to kiss her on the mouth and make Raina uncomfortable. FO did not have more information regarding the whereabouts of the Trailer and reported that MO's previous partner, Collin have broken up therefore leading FO to not know where the children are located when the children are in MO's care.

PER COLLIN: Collin reported that the children are on 'special diets' per doctor's orders but that Collin does not have any concerns regarding what the children are eating. Collin reported that MO has these doctor's orders for the children to eat certain foods and then the children go to their FO's home where there are 'no regulations and that Collin reports that there might be a hard time transitioning from households.

PER MONICA: Monica reported that all children have reported that when 'mommy gets out of control' the children must calm there mom down and that they are worried about what will happen when mom gets mad. Monica reported that all children have reported that they get spanked, cursed at, and smacked across the face. Monica reported that Raina therapists have disclosed that MO's now ex-fianc had 'laid hands on the children's. Monica reported that the children have reported that mom and Collin are no longer together. Monica reported that FO had tried to get full custody of the children but that the judge reported that MO is a 'beautiful young woman' which led to 50-50 custody. Monica reported that she is extremely frustrated with the system because FO needs to have at least 50-50 custody and that as of now, Monica and FO are working to document everything to get full-custody of the children.

UNMET NEEDS: Monica reported that the children do not have consistent housing due to MO posting this on social media, and that food has been taken away from the children as punishment. Monica reported that MO

needs MH care/support. Monica reported that MO is not working at this time.

PER CHILDREN:

RAINA (6): Raina reported that she gets fed more at her dad's than with her mom.

AIDEN (8): Aiden reported that he feels safe with MO but that he doesn't get as much food with MO as he does with dad because MO says that some foods are not good for him.

ELORA (10): Sometimes Elora reported that she has to cook her own food when she's at her moms, Elora reported that sometimes that she has enough food but sometimes he doesn't.

PER CHILDREN FOR MOST RECENT INTAKE:

Aiden reported that MO did hurt Raina (6) but that he didn't want to talk about it. Aiden reported that SW should as Raina.

Elora reported that MO wants to move into an RV and that it is too small. Elora reported that the other adult around but not in the RV with the family is 'Uncle Canny' who is MO's best friend. Elora reported that the RV is on a farm.

SW observed that Raina was not willing to speak with SW as Raina was hiding under her bed and behind Monica and/or FO when SW asked her to speak with her. Raina reported that she only would speak to SW if FO could come with her. SW observed that FO was willing to be with Raina while speaking with SW. SW, FO and Raina went into Raina's room and FO sat on the bed with Raina. SW attempted to ask Raina questions, but she did not want to speak with SW. SW was able to do a body check to see that Raina was free of marks/bruising. Raina did show SW a mark on her chest that was the size of a pencil mark and reported that MO scratched me. Raina was hiding under the covers thus not allowing a full interview to be completed.

CONVERSATION WITH FO/Monica PER RECENT INTAKE:

SW spoke to FO outside the home. FO reported that he was upset post Friday (documented in famlink) as MO and Dr. Collin harassed him at school. FO showed SW Pearson the video of Collin making a gun symbol at FO at the school and FO reported to have his legal rep on the phone when SW Pearson arrived as FO is working to document all of this. FO reported that he understands that SW Pearson is separate from family court. FO reported thanked SW Pearson for being receptive and reported that he will keep SW updated. SW Pearson reported that she spoke to her SUP and that SW Pearson will keep FO updated once the case is closed so he can have further documentation of this period per multiple intakes. Monica then came out of the home as SW was leaving to report to SW that Raina is having a tantrum now and that she is reporting that she is scared because MO told all of the children not to speak to CPS. FO thanked SW Pearson again and SW left the home.

FAMILY DEVELOPMENTAL STAGES AND TASKS

MO and Collin are living together.

FO and Monica are married/parenting together.

Describe the everyday life task(s) that contribute to the situation.

Referrer reports the parents have split custody and the kids had been with Mom all week, but they are now with Dad. When Raina came to school today, she was falling asleep in class and complained of a headache and said Mom slapped her pocket and her cheek and when she slapped her she pushed her into the hall. Ref asked Raina what she hit her head on and she said the floor. Raina said her Mom checked her head and said there was no bump and she needed to go to sleep.

Describe what the family has done to keep the child(ren) safe and healthy in the past and the resources used.

PER both MO AND FO: Both parents have the children attend school regularly and are up to date on PCP.

Parenting Practices

Describe how each parent disciplines the child(ren).

PER MO: MO reported that the children and herself implement the '5 to 1' ratio meaning that 1 wrongdoing means you have to do 5 good things. MO reported that MO and her children work together to understand that they do not have control over the outside world but that they do have control over their own actions. MO reported that she does EFT tapping with the children to regulate their emotions. MO reported that she believes her discipline is impactful. MO reported that she denies any physical form of discipline.

PER FO:

SW Pearson spoke to FO on the phone regarding new concerns about MO having the children stay in a trailer with an unknown person and FO provided their names as 'Jim Solberg and Nathan 'Kanis' Solberg. FO reported that Raina specifically has voiced that these men have tried to kiss her on the mouth and make Raina uncomfortable. FO did not have more information regarding the whereabouts of the Trailer and reported that MO's previous partner, Collin have broken up therefore leading FO to not know where the children are located when the children are in MO's care.

SW spoke to FO outside the home. FO reported that he was upset post Friday (documented in famlink) as MO and Dr. Collin harassed him at school. FO showed SW Pearson the video of Collin making a gun symbol at FO at the school and FO reported to have his legal rep on the phone when SW Pearson arrived as FO is working to document all of this. SW Pearson reported that she spoke to her SUP and that SW Pearson will keep FO updated once the case is closed so he can have further documentation of this period per multiple intakes. Monica then came out of the home as SW was leaving to report to SW that Raina is having a tantrum now and that she is reporting that she is scared because MO told all of the children not to speak to CPS. FO thanked SW Pearson again and SW left the home.

PER MONICA: Monica reported that when the children are with FO and Monica, the children can eat whatever they want, and that they can eat when they are hungry. Monica reported that in working with the children's therapist, FO and Monica have been working with the children to eat some junk food as they are allowed to be children. Monica reported that MO has had children on certain diets and sometimes not. Monica reported that she is confused about why/what the diets are for the children when they are with MO. Monica reported that there have been arguments with the school due to diagnosis's ODD leading to dietary restrictions. Monica reported that MO is 'Yucka' app that shows if the 'food is good or bad'. Monica reported that MO will take food

away as punishment.

PER COLLIN: Collin reported that MO will put the children in time outs, Collin denies any form of physical discipline, and that the children are expected to do their homework and to eat healthy if they are going to have any sweets, they need to finish their food first.

PER CHILDREN:

ELORA: FO: Elora reported that when she is with her dad, she has to be respectful and if she says a bad word she might be sent to her room but that doesn't happen often.

MO: Elora reported that MO wants Elora and her siblings to comfort MO when she is upset, be respectful and that MO slaps/spanks the kids when they don't follow the rules. Elora reported that she doesn't like when MO slaps/spanks her, but that Raina (6) usually gets slaps the most.

RAINA: SW observed that Raina was not willing to speak with SW as Raina was hiding under her bed and behind Monica and/or FO when SW asked her to speak with her. Raina reported that she only would speak to SW if FO could come with her. SW observed that FO was willing to be with Raina while speaking with SW. SW, FO and Raina went into Raina's room and FO sat on the bed with Raina. SW attempted to ask Raina questions, but she did not want to speak with SW. SW was able to do a body check to see that Raina was free of marks/bruising. Raina did show SW a mark on her chest that was the size of a pencil mark and reported that MO scratched me. Raina was hiding under the covers thus not allowing a full interview to be completed.

AIDEN: FO: Aiden reported that at dad's house he has a certain bedtime routine and that he needs to be respectful. Aiden reported that if he doesn't follow the rules at dad's home, he goes to his room but that this does not happen often.

MO: Aiden reported that MO expects him and his sisters to be respectful and to not fight. Aiden reported that MO does slap his sister's more than him and that MO spansks them on the butt when they do not follow the rules. Aiden showed SW Pearson and open hand to give a visual for SW Pearson when MO disciplines him and Aiden's sisters.

ASSESSMENT RECOMMENDATIONS

Assessment Summary:

INITIAL CONCERN: First intake was regarding food restrictions via mom. Second intake was regarding MO spanking Raina and that MO was living in an RV with concerns of inconsistent housing. Referrer reports the parents have split custody and the kids had been with Mom all week, but they are now with Dad. When Raina came to school today, she was falling asleep in class and complained of a headache and said Mom slapped her pocket and her cheek and when she slapped her she pushed her into the hall. Ref asked Raina what she hit her head on and she said the floor. Raina said her Mom checked her head and said there was no bump and she needed to go to sleep. Concern: Referrer reports the parents have split custody and the kids had been with Mom all week, but they are now with Dad. When Raina came to school today, she was falling asleep in class and complained of a headache and said Mom slapped her pocket and her cheek and when she slapped her she pushed her into the hall. Ref asked Raina what she hit her head on and she said the floor. Raina said her Mom checked her head and said there was no bump and she needed to go to sleep. Raina said she couldn't go to sleep and this morning, Mom said they didn't have time for breakfast, so she came without eating. Ref stated she has come without breakfast previously when she is with Mom. She complained of a headache all day and saw the School Nurse who noted no signs of concussion. Ref did not observe any marks or bruising.

PARENTS: PER MO: MO reported that the children and herself implement the '5 to 1' ratio meaning that 1 wrongdoing means you have to do 5 good things. MO reported that MO and her children work together to understand that they do not have control over the outside world but that they do have control over their own actions. MO reported that she does EFT tapping with the children to regulate their emotions. MO reported that she believes her discipline is impactful. MO reported that she denies any physical form of discipline.

PER FO: SW Pearson spoke to FO on the phone regarding new concerns about MO having the children stay in a trailer with an unknown person and FO provided their names as 'Jim Solberg and Nathan 'Kanis' Solberg. FO reported that Raina specifically has voiced that these men have tried to kiss her on the mouth and make Raina uncomfortable. FO did not have more information regarding the whereabouts of the Trailer and reported that MO's previous partner, Collin have broken up therefore leading FO to not know where the children are located when the children are in MO's care. SW spoke to FO outside the home. FO reported that he was upset post Friday (documented in famlink) as MO and Dr. Collin harassed him at school. FO showed SW Pearson the video of Collin making a gun symbol at FO at the school and FO reported to have his legal rep on the phone when SW Pearson arrived as FO is working to document all of this. FO reported that he understands that SW Pearson is separate from family court. FO reported thanked SW Pearson for being receptive and reported that he will keep SW updated. SW Pearson reported that she spoke to her SUP and that SW Pearson will keep FO updated once the case is closed so he can have further documentation of this period per multiple intakes. Monica then came out of the home as SW was leaving to report to SW that Raina is having a tantrum now and that she is reporting that she is scared because MO told all of the children not to speak to CPS. FO thanked SW Pearson again and SW left the home.

PER MONICA: Monica reported that when the children are with FO and Monica, the children can eat whatever they want, and that they can eat when they are hungry. Monica reported that in working with the children's therapist, FO and Monica have been working with the children to eat some junk food as they are allowed to be children. Monica reported that MO has had children on certain diets and sometimes not. Monica reported that she is confused about why/what the diets are for the children when they are with MO. Monica reported that there have been arguments with the school due to diagnosis's ODD leading to dietary restrictions. Monica reported that MO is 'Yucka' app that shows if the 'food is good or bad'. Monica reported that MO will take food away as punishment.

PER COLLIN: Collin reported that MO will put the children in time outs, Collin denies any form of physical discipline, and that the children are expected to do their homework and to eat healthy if they are going to have any sweets, they need to finish their food first.

PER CHILDREN: Elora reported that when she is with her dad, she has to be respectful and if she says a bad word she might be sent to her room but that doesn't happen often. MO: Elora reported that MO wants Elora and her siblings to comfort MO when she is upset, be respectful and that MO slaps/spanks the kids when they don't follow the rules. Elora reported that she doesn't like when MO slaps/spanks her, but that Raina (6) usually gets slaps the most.

RAINA: SW observed that Raina was not willing to speak with SW as Raina was hiding under her bed and behind Monica and/or FO when SW asked her to speak with her. Raina reported that she only would speak to SW if FO could come with her. SW observed that FO was willing to be with Raina while speaking with SW. SW, FO and Raina went into Raina's room and FO sat on the bed with Raina. SW attempted to ask Raina questions, but she did not want to speak with SW. SW was able to do a body check to see that Raina was free of marks/bruising. Raina did show SW a mark on her chest that was the size of a pencil mark and reported that MO scratched me. Raina was hiding under the covers thus not allowing a full interview to be completed.

AIDEN: Aiden reported that at dad's house he has a certain bedtime routine and that he needs to be respectful. Aiden reported that if he doesn't follow the rules at dad's home, he goes to his room but that this does not happen often. MO: Aiden reported that MO expects him and his sisters to be respectful and to not fight. Aiden reported that MO does slap his sister's more than him and that MO spansks them on the butt when they do not follow the rules. Aiden showed SW Pearson and open hand to give a visual for SW Pearson when MO disciplines him and Aiden's sisters.

COLLAT: REPORT FROM SCHOOL: CUT AND PASTED NARRATIVE FROM REPORT C25010391 On April 4, 2025, I was dispatched at 1445 hours for a reported DV threats call at Carnation Elementary School, 4950 Tolt Ave. RP-1 Matthew Ralidak and S-1 Veronika Goodnight are divorced. Ralidak and Goodnight have three children in common, V-1 Raina Goodnight-Ralidak (6 yrs old), O-2 Elora Goodnight-Ralidak (8 yrs old), O-3 Aidan Goodnight-Ralidak (10 yrs old). O-4 Colin Derieg and Goodnight are currently dating. O-6 Monica Galarneau and Ralidak are currently married. O-5 Michelle Frank is the current principal for Carnation Elementary. Ralidak informed me of the following: He currently has a tense relationship with Goodnight. They currently share their children 50/50 according to their parenting plan. Ralidak informed me that there is an open CPS case involving Goodnight, a man she is living with, and RGR. Ralidak stated that according to RGR, Goodnight was making her kiss this man. Ralidak did not have any other information about this CPS case. While waiting, in his car, in line to pick up his children from school. At approximately 1358 hours Goodnight approached Ralidak's car and started yelling at him. Goodnight was accusing Ralidak of calling CPS on her. Goodnight continued yelling and asking Ralidak questions about the children and Goodnight's new living arrangements. At some point Ralidak noticed Derieg standing beside his car staring at him. Goodnight then went into the school office and back out toward Ralidak's car. During this time Ralidak had called into the school's office and told the principal, Frank, and another administrator about the odd behavior and scene Goodnight was making. Frank then came outside to speak with Goodnight. At approximately 1412 hours Goodnight and Derieg got into a maroon Chevy Silverado and left the school parking lot. Ralidak clarified that no threats were ever made by Goodnight or Derieg. Ralidak stated he felt intimidated by Derieg standing outside his car staring at him. While sharing the details of this incident Ralidak seemed visibly shaken and needed to take breaks, while talking with me, to hold back tears. All three children were not present during this incident. As I was leaving Ralidak showed me a text from Galarneau, who currently had all three children. Galarneau said that all three children had told her that Goodnight had slapped RGR and slammed her against a wall. Ralidak thought this might be retaliation because RGR had planned to tell Goodnight she no longer wanted to live with her. Ralidak did not mention any marks or bruises on RGR when he had seen her at the school pickup. The text from Galarneau did not describe any injuries on RGR. Ralidak and Galarneau have all three children over the weekend. Ralidak said he is worried about his children's safety and wasn't sure what to do. I gave Ralidak the case number and informed him that he should get in touch with a lawyer and ask about getting a protection order if he is feeling this way. Frank had informed me of the following: The office had received a call from Ralidak, so Frank and another administrator had gone outside to see what was going on. Frank spoke Goodnight and told her "This isn't the place", in reference to not handling parenting issues on school grounds. Frank stated this is not the first time that Goodnight has caused a commotion or interrupted the children's learning process.

Primary Incident Report

NARRATIVE

On April 4, 2025, I was dispatched at 1445 hours for a reported DV threats call at Carnation Elementary School, 4950 Told Ave.

RP-1 Matthew Ralidak and S-1 Veronika Goodnight are divorced. Ralidak and Goodnight have three children in common, V-1 Raina Goodnight-Ralidak [REDACTED] O-2 Elora Goodnight-Ralidak [REDACTED] O-3 Aidan Goodnight-Ralidak [REDACTED]

O-4 Colin Derieg and Goodnight are currently dating.

O-6 Monica Galarneau and Ralidak are currently married.

O-5 Michelle Frank is the current principal for Carnation Elementary.

Ralidak informed me of the following:

He currently has a tense relationship with Goodnight. They currently share their children 50/50 according to their parenting plan. Ralidak informed me that there is an open CPS case involving Goodnight, a man she is living with, and RGR. Ralidak stated that according to RGR, Goodnight was making her kiss this man. Ralidak did not have any other information about this CPS case.

While waiting, in his car, in line to pick up his children from school. At approximately 1358 hours Goodnight approached Ralidak's car and started yelling at him. Goodnight was accusing Ralidak of calling CPS on her. Goodnight continued yelling and asking Ralidak questions about the children and Goodnight's new living arrangements. At some point Ralidak noticed Derieg standing beside his car staring at him. Goodnight then went into the school office and back out toward Ralidak's car. During this time Ralidak had called into the school's office and told the principal, Frank, and another administrator about the odd behavior and scene Goodnight was making.

Frank then came outside to speak with Goodnight. At approximately 1412 hours Goodnight and Derieg got into a maroon Chevy Silverado and left the school parking lot. Ralidak clarified that no threats were ever made by Goodnight or Derieg. Ralidak stated he felt intimidated by Derieg standing outside his car staring at him. While sharing the details of this incident Ralidak seemed visibly shaken and needed to take breaks, while talking with me, to hold back tears. All three children were not present during this incident.

As I was leaving Ralidak showed me a text from Galarneau, who currently had all three children. Galarneau said that all three children had told her that Goodnight had slapped RGR and slammed her against a wall. Ralidak thought this might be retaliation because RGR had planned to tell Goodnight she no longer wanted to live with her.

Ralidak did not mention any marks or bruises on RGR when he had seen her at the school pickup. The text from Galarneau did not describe any injuries on RGR. Ralidak and Galarneau have all three children over the weekend.

Ralidak said he is worried for his children's safety and wasn't sure what to do. I gave Ralidak the case number and informed him that he should get in touch with a lawyer and ask about getting a protection order if he is feeling this way.

Frank had informed me of the following:

The office had received a call from Ralidak, so Frank and another administrator had gone outside to see what was going on. Frank spoke with Goodnight and told her "This isn't the place", in reference to not handling parenting issues on school grounds. Frank stated this is not the first time that Goodnight has caused a commotion or interrupted the children's learning process.

Frank then informed me that RGR had told her 1st grade teacher that her mother, Goodnight, had slapped her so hard she was thrown into the wall. Frank stated the teacher was in the process of reporting this incident to CPS.

I reviewed footage taken by Ralidak and the school security footage. The footage showed Goodnight approaching Ralidak’s car. Then it looked like Goodnight had started yelling at Ralidak. It then showed Derieg standing a few feet away from the vehicle, staring inside. It did not appear that Derieg or Goodnight made any threatening gestures. Ralidak remained in his car during the entire incident. There was no audio to the footage.

I sent Ralidak an evidence.com link to upload the footage he has and a screenshot of texts about the slapping incident. Ralidak is also in the process of obtaining the school's security camera footage.

Body worn camera was activated and footage uploaded to evidence.com.

I determined there was no crime that occurred between Ralidak and Goodnight.

CPS has been forwarded the case.

NARRATIVE

My Axon body camera was active, and footage will be uploaded to Evidence.com. During this incident, there might be times where the camera was turned off and then back on (since the mute function has been disabled) for tactical reasons, long breaks in contact, or non-law enforcement discussions. The following is a synopsis of the events, details, and statements; made without review of the body-worn camera video. For exact verbiage of any witness, suspect/arrestee, or victim statements, please see video footage.

On 04/08/2025 at 1257 hours, I (1C1) was working as a King County Sheriff's Deputy in a fully marked patrol vehicle and uniform. I was dispatched to the Carnation Elementary School addressed at 4950 Tolt Ave, Carnation, WA 98014 for a follow up to this case. Dispatch details informed me the following:

RP WANTS TO GIVE SOME MORE INFO

I contacted Mathew W. Ralidak (DOB:06/12/1986) with my department cell phone, and he informed me that he had more information to add to the disturbance that occurred at the Elementary school (child pick up line) on 04/04. Ralidak said that upon reviewing the videos that he took of Colin M. Derieg (DOB:01/27/1971), he noticed that Derieg made a hand gesture at his waistline. Ralidak believes that this gesture is supposed to resemble a handgun to threaten Ralidak. Ralidak says he now feels more threatened and intimidated by Derieg. Although Derieg did not say anything or point this gesture at Ralidak, Ralidak believes that Derieg will continue to harass Ralidak but is unsure if these threats are viable.

Ralidak just wants this documented at this time. I advised/reminded Ralidak to petition for a protection order.

Nothing further.

[REDACTED] RCW 13.50.100(7)(c). Elora disclosed that 3 weeks ago her mother slapped her sister Reyan (6) across her face. Elora does not remember if marks were left.

Elora states that the mother also will threaten the children by hitting them and punching them.

The REF was told that the younger child Adien (8) asked his father if it's normal to be afraid that his mother would stab them with a knife. The father followed up with Elora and Elora told the father that on one occasion her mother grabbed a knife, and she was squeezing the knife so hard that she was "white knuckling" the knife.

Elora went on to say that she and her siblings had a safety plan in place in case the mother stabbed one of the children. Unknown when this incident happened. There is a no contact order in place that protects the children from the mother.

Describe the nature and extent of the alleged maltreatment or concern:

Referrer is [REDACTED] RCW 13.50.100(7)(c)

Family Composition:

Father - Mathew Ralidak, age 38 years.

Child - Elora Goodnight-Ralidak, age 10 years.

Child - Aidan Goodnight-Ralidak, age 8 years.

Child - Raina Goodnight-Ralidak, age 6 years.

Non-Household Member:

Mother - Veronika Goodnight, age 43 years.

Mother's Partner/Fiance - Colin Derieg, age 54 years.

Per Referrer,

Today, on 04/14/2025, Aidan (8) made a disclosure to Ref. Aidan and Ref were talking about conflicted feelings of missing mom and not being able to see mom for a few weeks. There is a current restraining order preventing Mother, Veronika Goodnight (43), and Mother's Fiance, Colin Derieg (54), from having any contact or being within 1000 feet of Father, Mathew Ralidak (38), and the three children, Elora (10), Aidan (8), and Raina (6). The protection order is in place at this time and will be revisited in court on 04/25/2025. Father currently has all three children in his care until then.

Aidan mention missing snuggles with Mother, but then mentioned not missing mom's anger. Aidan said when she is angry, which he reported happens often, she will get physical. Aidan said this includes occasional pushing, slaps to the face and intimidation (getting in his personal space). Aidan said he has only been slapped once in the past (it was a while ago) this was because he was "being annoying". Aidan said that Mom slapped him and then she walked away when he was crying.

Aidan said Mom will curse at him and his sisters. Mother will make a middle finger gesture to him and his sisters, and she will say "fuck you". Aidan said then later Mother will say "I was just saying it and not to you." Aidan said Mom will say "don't be a fucking bitch" when there is a lot of crying or upset feelings when she is angry. Aidan said sometimes she is very snuggly, but when she is angry this is her response.

Aidan did not mention any bruises, injuries or marks when there has been pushing or he has been slapped by mom. Aidan told Ref, "don't tell mom any of this, this has happened and it makes me sad." Ref reports no further details or information at this time.

Screening Questions:

Are you aware of any Native American ancestry or tribal affiliation within the family? Ref is unsure.

Are you aware of any DV between any adults in the home? Ref stated nothing physical that they are aware of, but that Aidan said Mom and Colin "fight so much" and that there is "a lot of yelling".

Are you aware that anyone in the family has been exposed to or has the COVID-19 Virus (Coronavirus)? Ref is

unsure.

Referrer is the mother and her fiancé was with her during the report.

There is a shared parenting plan in place. Referrer reported that the children are supposed to be with her today, but the father, Mat, refused to bring them. Referrer stated that he filed a Restraining Order (RO) against her and her fiancé, Colin Derieg, for an unknown reason.

Referrer said that the father missed a mental health therapy appointment once. He also reportedly denied referrer's chance to be with her daughter during a medical visit.

Referrer indicated that last Friday, there was a school assembly and the father created a scene saying that Colin had a gun on him which per the referrer and her fiancé is completely false only made up by the father.

Referrer denied known Native American Ancestry or family known to live on tribal lands. Referrer noted concern for pas domestic violence (DV) between the mother Veronika Goodnight and father Mathew Ralidak with Mat as the perpetrator of power and control. Referrer denied knowledge of recent COVID exposure for participants. Parent Child Relationship has been entered into the children's person cards in FamLink. [WHALES verified for child Raina.]</p> <p>Concern: The Referrer is concerned for emotional abuse of 10-year-old Elora Goodnight-Ralidak, 8 yo Aiden Goodnight-Ralidak , and 6 yo Raina Goodnight-Ralidak by their father Mathew "Mat" Ralidak. The Referrer advised the father has manipulated and directly affected the children's well being through the court system, medical appointments, and use of CPS intake reports. The father's ongoing efforts have led the Referrer to have significant concern for parental alienation of the children's mother Veronika Goodnight and the father's persistent actions having a negative impact on the children's wellbeing.</p> <p>The Referrer articulated the mother was a victim of power and control by the father during their relationship which included the father raping the mother in the past. The parents of Elora, Aiden, and Raina have separated with a Parenting Plan in place through King County courts [Cause # 20-3-03830-3 SEA]. The Referrer advised the father does not adhere to the Parenting Plan by not notifying the mother of the children's yearly doctor appointment and the father has notified the mother of appointments outside of their yearly physicals. The Referrer recognizes that is a court or civil issues. The Referrer is concerned that the father has made significant false allegations to medical providers in the past. During the children's past yearly checkup visit with a family nurse practitioner L. Miller at EvergreenHealth, the father told the provider the mother Veronika was deceased. The mother Veronika had to prove she had joint custody and was not dead and active in the children's lives. This week, the father scheduled an appointment for the child Elora without notifying the mother. The mother arrived at the medical appointment to discover on the medical paperwork the father said the mother was a drug addict, with alcoholism and mental health issues. Elora is a 10-year-old child who has become aware of things the father has said and written about the mother. Last week, Elora asked the mother what "mental illness" meant because the father keeps saying the mother has mental illness.</p> <p>The Referrer is concerned the father ignores medical recommendations by the children's established provider Dr. Stacy Bowker. Dr. Bowker recommended Elora not be given food with high fructose. The Referrer advised</p>			

the father continues to feed Elora foods outside of this recommendation. The Referrer advised that Elora has ongoing stomach issues while at the father's home due to this concern. [CISW located FamLink CPS Screen Out Intake 5574590 from 12/19/24, which documented the father advised the mother claims children have food allergies which the father said the pediatrician denies.]

In 2024, the Referrer advised that Elora was molested by a peer. The mother made an appointment at Dawson's Place for Elora to receive counseling. The father Mathew indicated that child on child sexual touching was kids fooling around and Elora did not need counseling and cancelled the appointment. The mother had to remain the appointment which resulted in Elora having to wait another month for treatment and counseling. Elora is still in counseling related to past child on child sexual activity. The Referrer indicated this was previously reported and provided no details as to concern. [CISW located FamLink CPS Third Party LE Screen Out Intake 5494945 from 9/29/24 with concern 9 yrs old child Elora disclosed that a peer got on top of her during a girl scouts camp. CPS Screen Out Intake 5437643 from 8/4/24, and CPS FAR Intake 5435044 from 07/30/24, with concerns that Elora's peer was trying to kiss Elora. Intake 5435044 documents 9-year-old Elora continues to disclose that she is being molested by a friend named "River" who is believed to be of the same age.]

A year and half ago, Aidan was diagnosed with strep throat. The father denied observing any symptoms and refused to provide Aidan his antibiotics prescribed which delayed Aidan's healing process.

The Referrer indicated the children have withdrawn and present as anxious after visits with their father. The father has fabricated stories to the courts, medical providers, and the school. about the mother and the mother's paramour. On Friday [4/4/2025], he indicated concern to the school that the way the mother's paramour was walking and standing at the school appeared he had a gun. The mother is engaged to a Chiropractor Dr. Colin Derieg. The mother and the fiance Colin went to the school due to children having events. The father was in the pickup line and took issue when Colin approached the father's vehicle and stood near while the mother was talking to the father. The Referrer denied Colin had a gun using this as an example of ongoing defamation and fabrication by the father to coerce and control the mother. [CISW located CPS Screen Out Intake ID: 5664768 from 4/5/2025, which documented concern for an incident at the school in which the father stated he felt intimidated by Derieg standing outside his car staring at him. Intake reflects all three children were not present during this incident. Intake documents Carnation Police Department C 25010391 reviewed footage from incident which "showed Goodnight approaching Ralidak's car. Then it looked like Goodnight had started yelling at Ralidak. It then showed Derieg standing a few feet away from the vehicle, staring inside. It did not appear that Derieg or Goodnight made any threatening gestures. Ralidak remained in his car during the entire incident."]

The Referrer is concerned for a pattern of false reports being made to CPS as to allegations against the mother. The Referrer noted last week the mother posted a picture on Facebook of an RV she had purchased. The mother did not move from her current residence or change living situation for the children. The children reside one week with the mother and one week with the father per the parenting plan. The mother received concerns from CPS that the mother had moved to the RV and the home was unsafe.

The Referrer has spoken to the former CPS FAR Social Worker Gracey Pearson, Social Worker Supervisor Jazie Smith, Constituent Relations Pamela Williams and Carnation Police Department as to concerns for the abuse of the child abuse hotline by the father. The Referrer plans to follow up with the courts to additionally address concerns.

FXED REPORT FROM KING COUNTY SHERIFF/CARNATION POLICE DEPARTMENT

CASE:C25010391

RESPONDING OFFICER/DEPUTY: J KELLOGG

CUT AND PASTED NARRATIVE FROM REPORT C25010391

On April 4, 2025, I was dispatched at 1445 hours for a reported DV threats call at Carnation Elementary School, 4950 Tolt Ave.

RP-1 Matthew Ralidak and S-1 Veronika Goodnight are divorced. Ralidak and Goodnight have three children in common, V-1 Raina Goodnight-Ralidak (6 yrs old), O-2 Elora Goodnight-Ralidak (8 yrs old), O-3 Aidan Goodnight-Ralidak (10 yrs old).

O-4 Colin Derieg and Goodnight are currently dating.

O-6 Monica Galarneau and Ralidak are currently married.

O-5 Michelle Frank is the current principal for Carnation Elementary.

Ralidak informed me of the following:

He currently has a tense relationship with Goodnight. They currently share their children 50/50 according to their parenting plan. Ralidak informed me that there is an open CPS case involving Goodnight, a man she is living with, and RGR. Ralidak stated that according to RGR, Goodnight was making her kiss this man. Ralidak did not have any other information about this CPS case.

While waiting, in his car, in line to pick up his children from school. At approximately 1358 hours Goodnight approached Ralidak's car and started yelling at him. Goodnight was accusing Ralidak of calling CPS on her. Goodnight continued yelling and asking Ralidak questions about the children and Goodnight's new living arrangements. At some point Ralidak noticed Derieg standing beside his car staring at him. Goodnight then went into the school office and back out toward Ralidak's car. During this time Ralidak had called into the school's office and told the principal, Frank, and another administrator about the odd behavior and scene Goodnight was making.

Frank then came outside to speak with Goodnight. At approximately 1412 hours Goodnight and Derieg got into a maroon Chevy Silverado and left the school parking lot. Ralidak clarified that no threats were ever made by Goodnight or Derieg. Ralidak stated he felt intimidated by Derieg standing outside his car staring at him. While sharing the details of this incident Ralidak seemed visibly shaken and needed to take breaks, while talking with me, to hold back tears. All three children were not present during this incident.

As I was leaving Ralidak showed me a text from Galarneau, who currently had all three children. Galarneau said that all three children had told her that Goodnight had slapped RGR and slammed her against a wall. Ralidak thought this might be retaliation because RGR had planned to tell Goodnight she no longer wanted to live with her. Ralidak did not mention any marks or bruises on RGR when he had seen her at the school pickup. The text from Galarneau did not describe any injuries on RGR. Ralidak and Galarneau have all three children over the weekend. Ralidak said he is worried for his children's safety and wasn't sure what to do. I gave Ralidak the case number and informed him that he should get in touch with a lawyer and ask about getting a protection order if he is feeling this way.

Frank had informed me of the following:

The office had received a call from Ralidak, so Frank and another administrator had gone outside to see what was going on. Frank spoke with Goodnight and told her "This isn't the place", in reference to not handling parenting issues on school grounds. Frank stated this is not the first time that Goodnight has caused a commotion or interrupted the children's learning process.

Frank then informed me that RGR had told her 1 grade teacher that her mother, Goodnight, had slapped her so hard she was thrown into the wall. Frank stated the teacher was in the process of reporting this incident to CPS.

I reviewed footage taken by Ralidak and the school security footage. The footage showed Goodnight approaching Ralidak's car. Then it looked like Goodnight had started yelling at Ralidak. It then showed Derieg standing a few feet away from the vehicle, staring inside. It did not appear that Derieg or Goodnight made any threatening gestures. Ralidak remained in his car during the entire incident. There was no audio to the footage.

I sent Ralidak an evidence.com link to upload the footage he has and a screenshot of texts about the slapping incident. Ralidak is also in the process of obtaining the school's security camera footage.

Body worn camera was activated and footage uploaded to evidence.com.

I determined there was no crime that occurred between Ralidak and Goodnight.

CPS has been forwarded the case.

Current Open Case #2682764, Assigned to Gracey Pearson, of the King East Office

Referrer is [REDACTED] RCW 13.50.100(7)(c)

Household Composition:

Viktorja Goodnight- 43 - Mother
Elora Goodnight-Ralidak - 10 - Other Child
Aiden Goodnight-Ralidak - 8 - Other Child
Raina Goodnight-Ralidak - 6 - Child Victim

Non-Household Composition:

Mathew Ralidak - 38 - Father

Concern:

Referrer reports the parents have split custody and the kids had been with Mom all week, but they are now with Dad. When Raina came to school today, she was falling asleep in class and complained of a headache and said Mom slapped her pocket and her cheek and when she slapped her she pushed her into the hall. Ref asked Raina what she hit her head on and she said the floor. Raina said her Mom checked her head and said there was no bump and she needed to go to sleep.

Raina said she couldn't go to sleep and this morning, Mom said they didn't have time for breakfast, so she came without eating. Ref stated she has come without breakfast previously when she is with Mom.

She complained of a headache all day and saw the School Nurse who noted no signs of concussion. Ref did not observe any marks or bruising.

The LE report is copied and pasted below:

On 02/14/2025 at approximately 1027 hours, I responded to an abuse call located at 10323 Friar Creek Rd in Monroe WA. The RP, Mathew W. Ralidak (DOB: [REDACTED]/1986) told call takers the previous day, his six-year-old daughter Raina S. Goodnight-Ralidak (DOB: 06/03/2018) had disclosed [REDACTED] that a few weeks prior, her mother's partner had hit her.

I called Mathew and asked him to tell me what happened. He explained he was separated from his ex, Veronika E. Goodnight (DOB: 02/15/1982) and that they have three children in common. Mathew said he and Veronika have a parenting plan and they each have all three kids for a week at a time. He did not know the exact nature of Veronika's current relationship, but he referred to her partner, Colin M. Derieg (DOB: [REDACTED]/1971). The location given was Colin's home.

Mathew said the previous day [REDACTED] had told him [REDACTED] that R.G. disclosed approximately a few weeks prior, Colin had hit her. [REDACTED] utilized puppets to pantomime what R.G. disclosed to her. Mathew described it to me as Colin told R.G. to shut up and turn around. He then hit R.G. in the bottom and the back approximately five times. Mathew described the hit as similar to a spanking. R.G. said that it had hurt more when Colin did it because he's stronger. Mathew did not recall having seen any marks or injuries on R.G. at any point after the kids had stayed with their mother. R.G. did not elaborate on how long the pain she experienced had lasted for.

I asked Mathew if R.G. had said or indicated if the incident had occurred randomly or if it was more of a disciplinary action if R.G. had been misbehaving. He said he did not know. Mathew told me he and Veronika had agreed that physical discipline would not be utilized in how they parent the children, but their parenting plan did not have any language in it regarding discipline.

Mathew said this was the first instance of anything physical occurring that he knew of. He did mention that CPS cases have been opened in the past against Veronika. He said the kids had told him in the past that Veronika would be verbally abuse towards them including flipping them off. Mathew said R.G. had told Veronika about the incident with Colin. Her response had been apparently to call R.G. a liar and say it never happened.

Mathew mentioned that 02/14 was the exchange day. I asked him if he planned on sending the kids to Veronika. He said he was undecided as he did not want her to call about him violating the parenting plan which was issued out of a King County Court. He did mention [REDACTED] had stated her intent to call Veronika. I asked if either himself or [REDACTED] had contacted CPS. He said no.

Mathew told me the location given was Colin's house and that currently, Veronika lived in Carnation WA. Based on the information provided by Mathew and his statements of past CPS investigations against Veronika, this report was forwarded to CPS for review and an intake generated. I am requesting the report be reviewed by SIU as well. ///EOR///

Per intake of 1/6/25 Caller reports the father told them that the mother moved in with a boyfriend. The boyfriend has adult children/young adults. One of the young adults, who is 20, threatened to throw Raina off the home's balcony, sometime during Winter Break. Ref, today, did not provide the name of mother's BF or his children.

RCW 13.50.100(7)(c)

. Ref said parents have 50/50 custody. The children spend a week with each parent. The change takes place on Fridays. The children also have a Wednesday evening visit with the parent in whose home they are not residing, in a given week.

Ref is calling to report that the children are not being fed adequately when they are in their mother's home. According to Elora, the oldest, who was in ref's home last night, they have missed a lot of meals this week and all they have had to eat is eggs and peanut butter, with Elora being the one that cooks the eggs for herself and her siblings. Ref said that when the children come into her home they are always very hungry and are allowed to eat as much as they want, but usually after a meal or 2, they have diarrhea, for about a day, which indicates to ref that their bodies are adjusting to a higher level of food intake. The children also arrive at the home of ref and father in poor condition, described by ref as "filthy." They are usually wearing visibly soiled clothing, with the girls wearing "crusty" underwear. They all have "dark circles" under their eyes, which clear up after a few days in father's home.

Per **RCW 13.50.10** mother has said that she does not have the money to get enough groceries, but she always manages to have champagne for herself.

There are certain foods in the home that the children are forbidden to touch because they belong to mother's BF.

Ref said the children get breakfast and lunch at school.

Mother tried to get the school to discontinue providing meals to the children, contending that they have significant food allergies, but father blocked this by providing the school with documentation from the children's doctor, saying that the children have no such allergies. The children arrived at school on Monday, too late for breakfast and then school was cancelled the rest of the week due to snow.

Ref said that mother is involved with a MLM company known as Purium, which sells various health foods, detox/cleansing products and supplements. Some of what the children eat at mother's home are products from this company, but not clear to ref what Purium products the children have consumed or how often.

Ref had no information about DV

Case still open from intake of 7/30/24, but appears to be pending closure.

Ref is [REDACTED] RCW 13.50.100(7)(c) Ref reports that the father of Elora has expressed concerns about the mother and that she is restricting the children's calories in ways that are harming their health. Ref reports that the children all report being hungry at their mother's and that they can only drink protein shakes. Ref reports that the father has stated that mother has some app where she checks ingredients and food and doesn't let the children eat anything with any food that is concerning in the app.

Elora reports that they eat really healthy at her mom's house, she reports having cereal, eggs and protein shakes and couldn't think of other foods. Elora says she feels hungry at her mother's a lot.

Ref reports that the children do not appear under weight but they just started to do this shake restriction recently. Ref reports that she did talk to the mother about this app and that restricting the children's calories is harmful. She states that the mother overwhelmingly agreed however she may still be doing so.

Ref reports that the parents are separated and have "50/50/ custody" The children visit the parents for 1 week at a time, alternating weekly and also having a visit on Wednesday with the parent they are not with that week.

Recently the school called home to inform the parents that Elora was telling some "big stories". During the conversation with the father he requested to speak with the school about another matter. When they met the father stated that he took the children to a pediatrician and the doctor reported that the children do not have any allergies, contrary to what the mother is reporting.

Ref stated that the mother has requested a special non-dairy, gluten-free, diet for the children and has provided a note from her naturopath/physician. The school has been honoring the mother's request, but also notes that the children do not like their diet and are sometimes requesting snacks from the school nurse.

The father reported to the school that on 12/18/24, he picked the kids up for his weeklong visit. On the ride home, Elora told them that they didn't really eat much, that their mother told them that there is a lot of bad food out there and they only ate boiled eggs. She stated that Aidan doesn't eat eggs so he had some edamame. She stated that she only knows how to cook scrambled eggs and she is worried that Aidan won't eat because he doesn't like eggs.

The father is requesting that the parenting plan be changed and is working to get a note from the children's pediatrician regarding their alleged allergies and any dietary restrictions. The father is also reportedly pursuing a change in who the primary custodian is.

CISW asked if the children appeared unhealthy or had their medical needs go unmet. Ref stated that they looked healthy and that she was not aware of any ongoing medical needs.

Goodnight-Ralidak, Elora L. (103285921)	Goodnight, Veronika E. (103285911)	Negligent Treatment or Maltreatment	

Describe the nature and extent of the alleged maltreatment or concern:

Current Open Case.

The referrer is [REDACTED] RCW 13.50.100(7)(c)

Household Composition:
Mother - Veronika Goodnight
Child - Elora Ralidak (9)
Child - Aidan Ralidak (7)
Child - Raina Ralidak (6)

Non-household Composition:
Father - Matthew Ralidak

Others Involved:
Other Child: River Muggli (10)

Concerns:

The referrer contacted Central Intake to express ongoing concerns that the mother is not ensuring the safety of 9 year-old Elora Ralidak from a peer who has been sexually abusive toward her.

In May, 2024, the referrer first learned that Elora's peer, River [REDACTED], attempted to kiss Elora. The referrer recommended to mother that Elora and River have no contact with each other.

On 07/30/24, the referrer again made this recommendation to the mother after Elora disclosed that she still sees River and that he is still attempting to kiss her.

During a session with the father on 08/02/24, the father reported that on 07/31/24, Elora told him that River had been sending "mean text messages" to her (no date(s) of the text messages was provided and there was no specific information regarding the content of the messages). The father reported that Elora uses a cell phone while at her mother's house and that the mother allows her to use the cell phone without supervision.

Toward the end of 08/02/24 session, the father reported that in December, 2023, Elora and her siblings were in a car with their mother. Elora and her sister were arguing, so the mother pulled the car over and "smacked" Elora across the face. The father reported that Elora did not go to his house until a couple of days after the incident, so he was unsure if there were any injuries. The referrer was asked if Elora reported sustaining injuries, and the referrer stated there were no injuries reported. Elora told her father that the family returned home after the mother slapped her. The mother went into bathroom, got into the bathtub and refused to come out until Elora wrote her a note apologizing for being a bad person.

No known Native American Ancestry.
No reported COVID-19 Exposure or Symptoms.

CONCERNS:

At 1556 hours on 8/1/2024, I was dispatched to a sex offense detail with a listed address of 33219 NE 66TH ST. The following information was displayed on CAD:

" 21-REQUEST RP NOT AT LOC...3RD PERSON REFERRAL FOR SEX ABUSE OF 9YO CHILD, CHILD DISCLOSED WHILE BEING MEDICALLY EVALUATED...UNK WHERE ABUSE OCC'D...THEIR REPORT IS BASED ON CHILD'S HOME ADDR...*RP REFUSED TO PROVIDE THE NAME OF THE CHILD OR THE SUSPECT, WANTS TO TALK TO PATROL OR FAX THEIR INTAKE TO PATROL...
**UNK IF CHILD IN IMMINENT DANGER "

I then contacted RP Virginia Gleason, the Child Advocacy Program Manager of Compass Health, over the phone using my department issued cellphone. Compass Health wanted to contact law enforcement to fax over or email a document from a recent "Special Occurrence" from a mental health appointment. A Special Occurrence refers to a patient disclosing sexual or physical assault to a healthcare professional. The patient from this incident is Elora L. Goodnight - DOB 3/21/2015. Elora lives at 33219 NE 66TH ST. Gleason could not firsthand report the incident to me; however, she sent the document to my work email. The document is summarized as follows:

Elora received a therapy session affiliated with Compass Health on 7/30/2024. While Elora was talking with a mental health professional, she explained an incident which happened approximately two weeks prior to the appointment. Elora explained how River [REDACTED] family friend who is the same age, was kissed by River at River's house. Elora indicated that River and she have kissed multiple times previously, where no other reports of inappropriate touching have been reported by Elora. In this specific incident, Elora was being kissed by River when she told River to stop. River stopped kissing Elora after this incident occurred.

In the Compass Health document, it also discusses how Elora's father reported to health personnel about River kissing Elora "with tongue on multiple occasions" in May of 2024. A therapist recommended that River and Elora should take a break from seeing each other. Elora's mother, Veronika E Goodnight - DOB 2/15/1982, is listed in the document as the best contact for Elora. A therapist also contacted Veronika about the recommendation, where she agreed and understood such input.

As Veronika is listed as the best contact for Elora, I attempted to contact her over the phone two times in attempt to get more information. I was unable to come into contact with Veronika after these attempts.

Due to the above listed information, no crime has taken place. This police report is to be forwarded to CPS, no charges are to be filed at this time.

Anjali D'souza is calling from Compass Health

RCW 13.50.100(7)(c) reporting concerns of parent Anjali going against clinical recommendation for the healthy welfare of 9 yr Elora.

Two weeks ago Elora had indicated that a 9 yr girl River RCW 13.50.100 had kissed her. Therapist has requested that Elora not be around this child River, Parent Veronica agreed but did not follow through.

Today Elora indicated that she meet up with 9 yr River because her Mom Veronica and River's Mom Diana are friends.

Elora stated that River has touched Elora multiple time in the past and this time Elora had told River to stop kissing and touching her, but River did not. River was putting her tongue in Ellora's mouth, while at River's house

Veronica indicated that she doubted that this happened.

Veronica was spoken with RCW 13.50.100(7)(c) today and again explained about the safety of her daughter around this child. Veronica indicated that she would not have them in contact with each other.

RCW 13.50.100(7)(c) concerned about Veronica understanding of the risk to her child and concerned about Veronica following through with protection of Elora.

DV - Mother and father are divorced, but mother disclosed historical sexual and physical violence

Covid19 - None known per REF

REF has only met with Elora once **RCW 13.50.100(7)(c)** REF was sent an email from the mother including screen shots of texts from Elora's father. Some of the things in the texts and disclosures were different than information in Elora's intake. One disclosure was that Elora asked a family friend named Sage to lay on her inappropriately during a play date. The father also reported that Elora had been kissing her peer and friend River with tongue. Father referenced a camping trip that he and his wife and the kids went on two years ago. Elora allegedly kissed another girl at their camp site. Father said Elora is now telling the truth about the camping. Previously she said it was the other girl trying to kiss her. The way the father prefaced the information was that Elora had shared all the information with him.

When the mother dropped Elora off at session and REF did a check in with the mother, the mother said she does not believe the disclosure about Sage. She does not think it happened because she said she was at the referenced playdate in her home and Sage's parents were there supervising the children. Mother also expressed doubts about the disclosures with River and the camping trip. She feels things are not lining up with the timing and she is skeptical as to why the father is sending the information now. Elora has not reported any of this to the mother except the camping trip incident which she told the mother the other girl kissed her.

In the texts the father and stepmother's responses seemed validating to Elora.

NARRATIVE

On 03/24/2024 at 1407 hours I was dispatched to a child molestation type of call at 10445 302ND WAY NE, Carnation WA, 98014. I arrived on scene at 1456 hours and met with the RP Veronika E. Goodnight (DOB 02/15/1982) who informed me that her daughter, Elora L. Goodnight (9-years-old) had been molested by another juvenile female. Veronika states that on Monday 3/25/2024 Elora had come to her and said a friend from church, Makayla [REDACTED] (9-years-old) had inappropriately touched Elora at Makayla's house after church on Sunday 03/24/2024. [REDACTED] RCW 13.50.100

Veronika says that Elora came home from her father's house, Mathew W. Ralidak (DOB [REDACTED]/1986), whom she was staying with that weekend. Elora told Veronika that while she was at Makayla's house that Makaya had pulled her pants and underwear down, and that as Elora tried to pull them up, that Makayla had held her wrists and prevented her from doing so and Makayla began to giggle. Veronika said that she asked Elora if Elora had enjoyed it and Elora said no and that she froze because she was uncomfortable. Elora also told Veronika that this was not the only thing that had happened on Sunday. Elora said that she had to sit with her legs tucked up to her chest so that Makayla would not be able to touch her vagina. Veronika asked again if Elora liked being touched and Elora said no. Elora then told Veronika that Makayla had Elora touch Makayla's vagina, Elora not knowing what to do then touched Makayla. Elora told Veronika that she did not like that either.

Veronika asked Elora how it all started, and Elora told her that Makayla lied to her father, Douglas R. Woodle (DOB [REDACTED]/1962), that they were going to draw. Elora said they then played "barbies" which was when the unwanted touching began. According to Veronika, Elora says that Makayla plays this game with another friend named Ona (we could not get more information than a first name), and it is often explained as drawing and then turns to playing "barbies".

Veronika explained this was not the first time Elora had said something happened with Makayla. Elora told her mother that while at Mathew's house, Makayla had tried to kiss Elora. Veronika asked if Elora had enjoyed that, and Elora said no.

Veronika is concerned because she does not believe that Makayla, as a 10-year-old should know these things and is concerned for the safety of not only her child but Makayla as well. There is concern for what is going on at Makayla's house. Veronika and Mathew have a plan in place to keep Elora away from Makayla and not let them be alone together. They both go to the same church, Stillwater church, and Mathew told Veronika that they will be having Elora with them at service from now on. Mathew has been in contact with Makayla's parents regarding the situations.

After talking with Detective Pearlstein this should be screened by an SAU Sergeant.

[REDACTED] RCW 13.50.100

Case should be forwarded to SAU for review.

I have nothing further to add to this.

End of Narrative.

[REDACTED] RCW 13.50.100

* See companion intake no. 5321512 regarding Ona.

Describe how each parent disciplines the child(ren).

All children stated the rules at mom and dad's are to be respectful, not yell at mom or dad, be positive and keep rooms clean. Elora stated she gets sent to room as punishment. Aidan stated his mom will grab his ear from side and sent to room. Raina stated nobody hits them but they go to their rooms for punishment. Elora stated that mom yells at them and makes them go to the room.

Matt stated the kids cannot say curse words, no hitting, or biting anyone, and respecting all younger and elders. Matt stated he takes away the kids privileges or mostly send them to their rooms for timeout and stated he will always talk to them. Matt stated Monica does the same discipline methods.

Veronika stated Elora is emotional, personal, smart, kind, empathetic and doing very food in school. Veronika stated Aidan loves hockey, sweet boy and does not act out. Veronika stated Raina is her DNA twin, wild, emotional, and causes more drama and is very insane. Veronika stated the kids go to a natural homeopathic Dr. Bowker in Natural Snohomish.

Diana stated Veronika revokes privileges and stated there is no physical disciplining involved.

Robert stated no physical discipline, and stated the parents send the kids to their rooms and corrects them if they are wrong.

What are the overall parenting practices used by the parent?

VERONIKA: Elora stated she loves her mom because she gets to play with her but stated she dislikes her stern voice. Aidan stated he loves mom because she hugs him but stated he dislikes her being stern. Raina stated she loves snuggling with mom and stated she loves helping her.

COLIN: Elora stated what she likes about Colin is that he is nice, Aidan stated he plays catch and Raina stated he helps adjust her neck. All children stated no dislikes for Colin.

MATT: Elora stated she likes her dad because he is loosening up, lets her do makeup, and is redoing her room. Aidan stated he likes to go to the creek with dad, catch fish, trout, and dislikes dad because he has to clean his room. Raina stated she loves to feed the cats with dad, and hug him.

MONIKA: Elora stated Monika takes her for shopping, plays with her, reads to her but dislikes being put in a room. Aidan stated Monica plays catch with him, cooks for him, and stated he dislikes when she yells. Raina

stated Monika helps us with the problem that they get and reads to her.

PARENTING STYLE/EXPECTATIONS: Matthew stated he loves to guide his children through situations, let them grow, be involved in their school activities. Monica stated what she loves about parenting is letting the kids be their own individuals, sing to them, having inside jokes with them, and taking them to church. Monica stated they have 50/50 custody. Monica stated she will not be having her own kids because Matt's kids are the main priority right now. Matthew stated what he finds frustrating about parenting is the needs and managing their emotional needs. Matt stated it is hard every week and stated the separate lives is hard with communication. Monica stated the change is hard and going back between every week.

Veronika stated she has known and take care of the 2 kids for a lot. Veronika stated she has shielded her kids from the outside world. Veronika stated she never lies to the kids and stated she finds nothing frustrating right now. Veronika stated she is making her kids be good human beings for when they grow up.

Diana stated she has no comments on Veronika's parenting but stated she will say that Veronika is very authoritarian, and could slow things down to go with the flow.

Robert stated Monika is a good mom, patient lady, always fair to all sides, listens to the children's development, works with young people and has no tempers. Robert stated Matthew is a good dad, calls to attention, and loves these kids a lot and would do anything for them. Matthew is a very patient dad as well.

GATHERING QUESTIONS

Describe the nature and extent of maltreatment.

Department received report that it was reported that River (10) molested a child outside the home. There is currently another child living in the home with River.

Sequence of Events: What surrounding circumstances accompany the maltreatment?

River: When asked what she thought SW was there to talk to her about, River stated that she believed Elora told someone that River had tried to kiss her. When asked to talk more about that, River could not recall very much information about it, including when it occurred, but stated that she was pretty sure it was a joke. When asked about body rules, River defined them as "not touching people without permission, not inappropriately touching others, and keeping appropriate personal space between others. River did not disclose that she had ever been inappropriately touched by someone else. River defined safe as being at home with her family near her or feeling protected, and stated that she felt safe at her home and with her parents.

Finn: When asked to define what the world safe meant, he indicated it meant to feel protected, an that he felt safe at home and with his parents. When asked to define body rules, Finn stated that it was important to be respectful of people space, and that its ok to ask if someone before you give them a hug if they're angry or sad. Finn did not disclose that he had ever been inappropriately touched by someone else.

FA: SW spoke with Mirko, who indicated he had been informed of the report by Veronika Goodnight on 07/29/24, and that he had briefly spoken to River about it. He stated that River informed him that it was meant to be a joke, and she couldn't remember when it happened. Mirko was surprised by the report, as he stated that River is not a very touchy person. SW explained to Mirko the importance of supervision when the girls are playing together, and he informed SW that he has spoken with Veronika about taking a break from play days with the girls for a while. Mirko stated that they had been very open with educating River on sexual touch, and that she has no access to inappropriate content or porn.

MO: SW spoke with Diana over the phone, after not making contact with her at her home. Diana indicated that she was surprised by CPS involvement, as she believed that Elona Ralidak had made up reported of unwanted touch and kissing in the past. SW explained the process of the investigation and Diana was cooperative with SW and agreed to meet to complete interviews on 8/1/24.

REPORT FROM SCHOOL:

CUT AND PASTED NARRATIVE FROM REPORT C25010391

On April 4, 2025, I was dispatched at 1445 hours for a reported DV threats call at Carnation Elementary School, 4950 Tolt Ave.

RP-1 Matthew Ralidak and S-1 Veronika Goodnight are divorced. Ralidak and Goodnight have three children in common, V-1 Raina Goodnight-Ralidak (6 yrs old), O-2 Elora Goodnight-Ralidak (8 yrs old), O-3 Aidan Goodnight-Ralidak (10 yrs old).

O-4 Colin Derieg and Goodnight are currently dating.

O-6 Monica Galarneau and Ralidak are currently married.

O-5 Michelle Frank is the current principal for Carnation Elementary.

Ralidak informed me of the following:

He currently has a tense relationship with Goodnight. They currently share their children 50/50 according to their parenting plan. Ralidak informed me that there is an open CPS case involving Goodnight, a man she is living with, and RGR. Ralidak stated that according to RGR, Goodnight was making her kiss this man. Ralidak did not have any other information about this CPS case.

While waiting, in his car, in line to pick up his children from school. At approximately 1358 hours Goodnight approached Ralidak's car and started yelling at him. Goodnight was accusing Ralidak of calling CPS on her. Goodnight continued yelling and asking Ralidak questions about the children and Goodnight's new living arrangements. At some point Ralidak noticed Derieg standing beside his car staring at him. Goodnight then went into the school office and back out toward Ralidak's car. During this time Ralidak had called into the school's office and told the principal, Frank, and another administrator about the odd behavior and scene Goodnight was making.

Frank then came outside to speak with Goodnight. At approximately 1412 hours Goodnight and Derieg got into a maroon Chevy Silverado and left the school parking lot. Ralidak clarified that no threats were ever made by Goodnight or Derieg. Ralidak stated he felt intimidated by Derieg standing outside his car staring at him. While sharing the details of this incident Ralidak seemed visibly shaken and needed to take breaks, while talking with me, to hold back tears. All three children were not present during this incident.

As I was leaving Ralidak showed me a text from Galarneau, who currently had all three children. Galarneau said that all three children had told her that Goodnight had slapped RGR and slammed her against a wall. Ralidak thought this might be retaliation because RGR had planned to tell Goodnight she no longer wanted to live with her. Ralidak did not mention any marks or bruises on RGR when he had seen her at the school pickup. The text from Galarneau did not describe any injuries on RGR. Ralidak and Galarneau have all three children over the weekend. Ralidak said he is worried for his children's safety and wasn't sure what to do. I gave Ralidak the case number and informed him that he should get in touch with a lawyer and ask about getting a protection order if he is feeling this way.

Frank had informed me of the following:

The office had received a call from Ralidak, so Frank and another administrator had gone outside to see what was going on. Frank spoke with Goodnight and told her "This isn't the place", in reference to not handling parenting issues on school grounds. Frank stated this is not the first time that Goodnight has caused a commotion or interrupted the children's learning process.

Frank then informed me that RGR had told her 1 grade teacher that her mother, Goodnight, had slapped her so hard she was thrown into the wall. Frank stated RCW 13.50.100(7)(c) was in the process of reporting this incident to CPS.

I reviewed footage taken by Ralidak and the school security footage. The footage showed Goodnight approaching Ralidak's car. Then it looked like Goodnight had started yelling at Ralidak. It then showed Derieg standing a few feet away from the vehicle, staring inside. It did not appear that Derieg or Goodnight made any

threatening gestures. Ralidak remained in his car during the entire incident. There was no audio to the footage.

I sent Ralidak an evidence.com link to upload the footage he has and a screenshot of texts about the slapping incident. Ralidak is also in the process of obtaining the school's security camera footage.

Sequence of Events: Describe the surrounding circumstances that led to the family assessment.

PER MO: MO reported that she does feed her children (showed SW during home walk through food, and doctor's notes to confirm this) and that her children eat 'healthy foods' and that she provides enough food for them along with following doctor's orders (uploaded on famlink). MO reported that all children are up to date on PCP and have been seen at the doctor as they all eat certain foods while they spend time with MO. MO reported that she does not know what they eat when they are with their father (every other week) but that she denies restricting the children's food intake.

SW Pearson contacted MO via phone per additional concerns regarding the children reporting to be uncomfortable with new living situation in a trailer and that their 'grandpa' is making Raina uncomfortable/trying to kiss her on the mouth. SW Pearson explained to MO that these were the concerns along with the unsteady living environment for the children as SW Pearson was told by MO that when MO has the children, they are staying at Collin's home in which SW did a HWT along with interview with no safety concerns. MO reported that she was upset that these allegations were being called in and reported that she was at the school, saying goodbye to her children. MO reported that her bestfriend and another close family friend are where MO is planning on staying with eventually as the commute to the children's school from Collin's home in Monroe is difficult. SW observed that MO was speaking to Collin in the background and SW observed that MO was becoming upset as she reported to have seen FO in the parking line. MO reported to Collin that she may go over there to insist that FO stops calling reports in. SW asked MO who she was speaking to, MO confirmed that it was Collin, and MO reported that she was extremely upset. MO then reported that she knows that FO called in a report and SW Pearson explained that the reporter will remain confidential but if MO is able to provide name/address of where she is living, SW can complete safety assessment to address the concerns. MO reported that she will do this. Then the phone call ended.

PER FO: FO reported that MO does not feed the children and has them on strict diets despite FO taking them to the doctor reporting that there is not a need for a specific diet.

SW Pearson spoke to FO on the phone regarding new concerns about MO having the children stay in a trailer with an unknown person and FO provided their names as 'Jim Solberg and Nathan 'Kanis' Solberg. FO reported that Raina specifically has voiced that these men have tried to kiss her on the mouth and make Raina uncomfortable. FO did not have more information regarding the whereabouts of the Trailer and reported that MO's previous partner, Collin have broken up therefore leading FO to not know where the children are located when the children are in MO's care.

PER COLLIN: Collin reported that the children are on 'special diets' per doctor's orders but that Collin does not have any concerns regarding what the children are eating. Collin reported that MO has these doctor's orders for the children to eat certain foods and then the children go to their FO's home where there are 'no regulations and that Collin reports that there might be a hard time transitioning from households.

PER MONICA: Monica reported that all children have reported that when 'mommy gets out of control' the children must calm their mom down and that they are worried about what will happen when mom gets mad. Monica reported that all children have reported that they get spanked, cursed at, and smacked across the face. Monica reported that Raina therapists have disclosed that MO's now ex-fiancé had 'laid hands on the children's. Monica reported that the children have reported that mom and Collin are no longer together. Monica reported that FO had tried to get full custody of the children but that the judge reported that MO is a 'beautiful young woman' which led to 50-50 custody. Monica reported that she is extremely frustrated with the system because FO needs to have at least 50-50 custody and that as of now, Monica and FO are working to document everything to get full-custody of the children.

UNMET NEEDS: Monica reported that the children do not have consistent housing due to MO posting this on social media, and that food has been taken away from the children as punishment. Monica reported that MO

needs MH care/support. Monica reported that MO is not working at this time.

PER CHILDREN:

RAINA (6): Raina reported that she gets fed more at her dad's than with her mom.

AIDEN (8): Aiden reported that he feels safe with MO but that he doesn't get as much food with MO as he does with dad because MO says that some foods are not good for him.

ELORA (10): Sometimes Elora reported that she has to cook her own food when she's at her moms, Elora reported that sometimes that she has enough food but sometimes he doesn't.

PER CHILDREN FOR MOST RECENT INTAKE:

Aiden reported that MO did hurt Raina (6) but that he didn't want to talk about it. Aiden reported that SW should as Raina.

Elora reported that MO wants to move into an RV and that it is too small. Elora reported that the other adult around but not in the RV with the family is 'Uncle Canny' who is MO's best friend. Elora reported that the RV is on a farm.

SW observed that Raina was not willing to speak with SW as Raina was hiding under her bed and behind Monica and/or FO when SW asked her to speak with her. Raina reported that she only would speak to SW if FO could come with her. SW observed that FO was willing to be with Raina while speaking with SW. SW, FO and Raina went into Raina's room and FO sat on the bed with Raina. SW attempted to ask Raina questions, but she did not want to speak with SW. SW was able to do a body check to see that Raina was free of marks/bruising. Raina did show SW a mark on her chest that was the size of a pencil mark and reported that MO scratched me. Raina was hiding under the covers thus not allowing a full interview to be completed.

CONVERSATION WITH FO/Monica PER RECENT INTAKE:

SW spoke to FO outside the home. FO reported that he was upset post Friday (documented in famlink) as MO and Dr. Collin harassed him at school. FO showed SW Pearson the video of Collin making a gun symbol at FO at the school and FO reported to have his legal rep on the phone when SW Pearson arrived as FO is working to document all of this. FO reported that he understands that SW Pearson is separate from family court. FO reported thanked SW Pearson for being receptive and reported that he will keep SW updated. SW Pearson reported that she spoke to her SUP and that SW Pearson will keep FO updated once the case is closed so he can have further documentation of this period per multiple intakes. Monica then came out of the home as SW was leaving to report to SW that Raina is having a tantrum now and that she is reporting that she is scared because MO told all of the children not to speak to CPS. FO thanked SW Pearson again and SW left the home.

MO: Elora reported that MO wants Elora and her siblings to comfort MO when she is upset, be respectful and that MO slaps/spanks the kids when they don't follow the rules. Elora reported that she doesn't like when MO slaps/spanks her, but that Raina (6) usually gets slaps the most.

RAINA: SW observed that Raina was not willing to speak with SW as Raina was hiding under her bed and behind Monica and/or FO when SW asked her to speak with her. Raina reported that she only would speak to SW if FO could come with her. SW observed that FO was willing to be with Raina while speaking with SW. SW, FO and Raina went into Raina's room and FO sat on the bed with Raina. SW attempted to ask Raina questions, but she did not want to speak with SW. SW was able to do a body check to see that Raina was free of marks/bruising. Raina did show SW a mark on her chest that was the size of a pencil mark and reported that MO scratched me. Raina was hiding under the covers thus not allowing a full interview to be completed.

AIDEN: Aiden reported that at dad's house he has a certain bedtime routine and that he needs to be respectful. Aiden reported that if he doesn't follow the rules at dad's home, he goes to his room but that this does not happen often. MO: Aiden reported that MO expects him and his sisters to be respectful and to not fight. Aiden reported that MO does slap his sister's more than him and that MO spanks them on the butt when they do not follow the rules. Aiden showed SW Pearson and open hand to give a visual for SW Pearson when MO disciplines him and Aiden's sisters.

COLLAT:REPORT FROM SCHOOL: CUT AND PASTED NARRATIVE FROM REPORT C25010391 On April 4, 2025, I was dispatched at 1445 hours for a reported DV threats call at Carnation Elementary School, 4950 Tolt Ave. RP-1 Matthew Ralidak and S-1 Veronika Goodnight are divorced. Ralidak and Goodnight have three children in common, V-1 Raina Goodnight-Ralidak (6 yrs old), O-2 Elora Goodnight-Ralidak (8 yrs old), O-3 Aidan Goodnight-Ralidak (10 yrs old). O-4 Colin Derieg and Goodnight are currently dating. O-6 Monica Galarneau and Ralidak are currently married. O-5 Michelle Frank is the current principal for Carnation Elementary. Ralidak informed me of the following: He currently has a tense relationship with Goodnight. They currently share their children 50/50 according to their parenting plan. Ralidak informed me that there is an open CPS case involving Goodnight, a man she is living with, and RGR. Ralidak stated that according to RGR, Goodnight was making her kiss this man. Ralidak did not have any other information about this CPS case. While waiting, in his car, in line to pick up his children from school. At approximately 1358 hours Goodnight approached Ralidak's car and started yelling at him. Goodnight was accusing Ralidak of calling CPS on her. Goodnight continued yelling and asking Ralidak questions about the children and Goodnight's new living arrangements. At some point Ralidak noticed Derieg standing beside his car staring at him. Goodnight then went into the school office and back out toward Ralidak's car. During this time Ralidak had called into the school's office and told the principal, Frank, and another administrator about the odd behavior and scene Goodnight was making. Frank then came outside to speak with Goodnight. At approximately 1412 hours Goodnight and Derieg got into a maroon Chevy Silverado and left the school parking lot. Ralidak clarified that no threats were ever made by Goodnight or Derieg. Ralidak stated he felt intimidated by Derieg standing outside his car staring at him. While sharing the details of this incident Ralidak seemed visibly shaken and needed to take breaks, while talking with me, to hold back tears. All three children were not present during this incident. As I was leaving Ralidak showed me a text from Galarneau, who currently had all three children. Galarneau said that all three children had told her that Goodnight had slapped RGR and slammed her against a wall. Ralidak thought this might be retaliation because RGR had planned to tell Goodnight she no longer wanted to live with her. Ralidak did not mention any marks or bruises on RGR when he had seen her at the school pickup. The text from Galarneau did not describe any injuries on RGR. Ralidak and Galarneau have all three children over the weekend. Ralidak said he is worried about his children's safety and wasn't sure what to do. I gave Ralidak the case number and informed him that he should get in touch with a lawyer and ask about getting a protection order if he is feeling this way. Frank had informed me of the following: The office had received a call from Ralidak, so Frank and another administrator had gone outside to see what was going on. Frank spoke Goodnight and told her "This isn't the place", in reference to not handling parenting issues on school grounds. Frank stated this is not the first time that Goodnight has caused a commotion or interrupted the children's learning process.

Case Note 1 of 1 Entered By : Amandeep Dhillon Date Entered : 09/22/2024 Time Entered : 06:51 PM

"Hi Ms. Dhillon,

Thank you again for speaking with my wife and I last week and taking my daughter's/kid's situation seriously. Attached are the Parent Interview questions filled out along with a few other documents.

Elora told my wife and I that River sent her mean and nasty text messages on the car ride from the dentist to their house on the day you were here. This is very concerning to me that Elora's mother knew all of this was all occurring.

Recently I was provided a screenshot of a social media post from Veronika dated July 28th where she speaks about being evicted. I have serious concerns about the children's housing.

I've included my talking parents message to Veronika in May regarding my concerns. Elora's therapist also has this message.

The Summer schedule calendar, a message to Veronika confirming dates in February, along with the Talking Parents messages and her approach to the situation. Since, she has walked this back and messed up the summer schedule taking my time away with the kids from 7/26-8/2, so far. Along with this, I have a King County Sheriff's Record Number for when I called the Sheriff regarding Veronika threatening to use the authorities on me and come to my house when she did not agree with the summer schedule as planned. That # is K24170376.

The original Parenting Plan and Findings along with the New Parenting Plan and Findings.

An inappropriate message Veronika sent me from the children's phone. Violating the parenting plan and endangering their mental health.

Veronika has a Harassment case we also found out about through the community, case 23CIV04677

Please let me know if you have any questions or need to follow up on anything!

Thank you!

Mathew Ralidak

Therapist reporting concerns of parent Anjali going against clinical recommendation for the healthy welfare of 9 yr Elora.

Two weeks ago Elora had indicated that a 9 yr girl River Muggli had kissed her. Therapist has requested that Elora not be around this child River,
Parent Veronica agreed but did not follow through.

Today Elora indicated that she meet up with 9 yr River because her Mom Veronica and River's Mom Diana are friends.

Elora stated that River has touched Elora multiple time in the past and this time Elora had told River to stop kissing and touching her, but River did not. River was putting her tongue in Ellora's mouth, while at River's house

Veronica indicated that she doubted that this happened.

Veronica was spoken with during counseling appointment today and again explained about the safety of her daughter around this child. Veronica indicated that she would not have them in contact with each other.

Therapist concerned about Veronica understanding of the risk to her child and concerned about Veronica following through with protection of Elora.

IFF: 07/31/2024 at the mother's home

Elora reported there was a few times this happened. Parents addressed the situation and since then, the kids cannot see each other.

RCW 13.50.100(7)(c) reporting concerns of parent RCW 13.50.100(7) going against clinical recommendation for the healthy welfare of 9 yr Elora.

Two weeks ago Elora had indicated that a 9 yr girl River RCW 13.50.100(7) had kissed her. Therapist has requested that Elora not be around this child River, Parent Veronica agreed but did not follow through.

Today Elora indicated that she meet up with 9 yr River because her Mom Veronica and River's Mom Diana are friends.

Elora stated that River has touched Elora multiple time in the past and this time Elora had told River to stop kissing and touching her, but River did not. River was putting her tongue in Ellora's mouth, while at River's house

Veronica indicated that she doubted that this happened.

Veronica was spoken with during counseling appointment today and again explained about the safety of her daughter around this child. Veronica indicated that she would not have them in

contact with each other.

Therapist concerned about Veronica understanding of the risk to her child and concerned about Veronica following through with protection of Elora.

IFF: 07/31/2024 at the mother's home

Elora reported there was a few times this happened. Parents addressed the situation and since then, the kids cannot see each other.

RCW 13.50.100(7)(c) reporting concerns of parent RCW 13.50.100 going against clinical recommendation for the healthy welfare of 9 yr Elora.

Two weeks ago Elora had indicated that a 9 yr girl River Muggli had kissed her. Therapist has requested that Elora not be around this child River, Parent Veronica agreed but did not follow through.

Today Elora indicated that she meet up with 9 yr River because her Mom Veronica and River's Mom Diana are friends.

Elora stated that River has touched Elora multiple time in the past and this time Elora had told River to stop kissing and touching her, but River did not. River was putting her tongue in Ellora's mouth, while at River's house

Veronica indicated that she doubted that this happened.

Veronica was spoken with during counseling appointment today and again explained about the safety of her daughter around this child. Veronica indicated that she would not have them in contact with each other.

Therapist concerned about Veronica understanding of the risk to her child and concerned about Veronica following through with protection of Elora.

IFF Completed: 07/31/2024

Elora stated it happened in the past before and stated River had pecked her quick and it wasn't a

big kiss. Elora stated she felt uncomfortable and stated she told her mom right away and situation was cared for. Elora has stated no concerns since then.

DISCLOSURES:

N/A

Parent interview:

Matthew stated he is not aware of what has happened but stated an incident of the friend and Elora had happened in the past. Monica stated she has only heard from Matt and heard from Elora that she has told them she has never touched anyone like this. Matt stated they have talked to Elora about touching and what is appropriate and what is not. Monica stated there was an incident in the past where on social media Veronica had posted about it. Matt stated King County sheriffs office was involved but stated all visits between Elora and her friends are limited and safe.

Veronika stated Elora is in therapy now and stated she told Anjali on Tuesday that she has to call CPS for a report. Veronika stated a similar situation like this happened to Elora in 2019 where it was Dawson's place and stated the person is at still church. Veronika stated her father Matt still takes her to the same church. Veronika stated Diana was previous case worker.

Collaterals:

SW Dhillon spoke to step grandfather Robert who stated the kids are very safe with both parents
SW Dhillon spoke to Veronika's friend Diana who stated no safety concerns but stated Veronika could slow things down in order to parent.

SW DHillon reviewed new parenting plan and protection order which stated dad has final decision making for medical and school and custody is now 50/50.

SW Dhillon reviewed medical record from Compass Health which shows that Elora is going to counseling and all her medical needs are being met.

DCYF HISTORY:

DV - Mother and father are divorced, but mother disclosed historical sexual and physical violence

5/3/24 - No report of a new incident or supplemental information that minimally meets the WAC for CA/N.

4/17/24 - Allegations documented in intake #'s 5321629 and 5321486.

3/29/24 - Allegations previously documented in intake#5321486.

3/28/24 Screen Out to Law Enforcement - Staffed with CI Supervisor Susan Rolls.

Inappropriate touching between unrelated children. Refer to law enforcement. This is a companion intake. See intake no. 5321486, dated 03/28/2024.

10/09/2019; Screen Out; Mother disclosed that she is no longer drinking alcohol however, she was previously drinking 1 - 3 bottles of champagne per night. Mother reported that this occurred after the children were in bed and she does not feel that she was impaired to the point of not being able to care for the children.

Native: Family reported no native American ancestry.

Present danger: None

Indian Identity Request uploaded: No, asked SW to do so.

Domestic violence: No domestic violence reported.

Safety: Safety threat [10] was determined inactive.

HOME WALKTHROUGH: SW Dhillon completed it. Both girls share a bedroom, there was lots of clothes and bunk bed. Aidan has his own room, and MO stated no weapons within household. The living room was in good condition, there was plenty of food in the kitchen and no safety threats. Overall there are three bedrooms within the household.

Safe sleep/PURPLE: N/A due to child's age.

SDM: MODERATE

Services: SW Dhillon emailed Veronika FFT information but never got a response back.

Disposition: No ongoing safety threats within household. Parents are protective and no sexual assault has occurred. Case is now being closed.

Case Note 1 of 1 Entered By : Jazie B. Smith Date Entered : 02/24/2025 Time Entered : 01:27 PM CONCERNS: Parents have 50/50 custody. Children complain that they are not fed enough when they spend their week with mother and that they are hungry. Per oldest girl, Elora, all they have had to eat this week is eggs and peanut butter, prepared by Elora. They normally get meals at school, but no school past few days because of snow. Also, the children show up at father's home in poor condition, wearing dirty clothes, with dark circles under their eyes, which clear up after a few days in father's home. IFF: SW completed at the school with all 3 of the children. Elora told SW that she doesn't get enough food at her mothers house.	

SW completed mothers interview. The mother sent photos of her home with all of the food and the medical records because she has Elora on a special diet and the father doesn't follow this.

The father said the mother is a horrible mother and has MH concerns.

They are going through a difficult separation.

Home Walkthrough: Mathew Ralidak Residential Home.

SW OBSERVATION:

SW arrived at the non-household of Mathew Ralidak (father) in the city of Duval, and he was seen standing outside his garage entrance waiting for SW as this meeting was scheduled. We both greeted each other and SW introduced himself and I also outline my purpose of being there. The home is a two-level building with an open plan space of the home, whereas you can see the living room, dinning and kitchen. However, the family seems to be doing renovation as there were lot of boxes and building materials in the open as a handyman worker was also seen working. The renovation does not seem to be a hazard towards the children movement inside the home.

SW observed the children each have their own room, the two younger girls have bunkbeds in their rooms and the oldest child have his own room the basement floor. All the children rooms appeared be untidy, however, there was no present danger observed or concerns to report. The home sufficient food in the refrigerator and also in the food pantry. Both toilets in the home are flushable and there is running warm water in the home. The kitchen area is decent and SW did not observed any sharps utensils or cleaning chemicals in the open.

Hi Gracey,</p> <p>Thank you again for taking my call. I saw Raina on Monday 3/3/2025 where she shared new information with me.</p> <p>Raina entered my office telling me "I am a bad kid, all I do is lie. I am bad" She shared that mom yells at her all the time, tells her she is lying, and spansks her. When asked how often she gets spanked, Raina replied with " a lot." Raina also said that at her dads house she is never spanked.</p> <p>Raina has also asked me questions "why she has to leave dads house", and made statements that "mom doesn't play with her".</p> <p>It should be noted that I have not spoken to mom about the use of corporal punishment with Raina. After my interactions with both Raina and mom I have increased concerns of how that information will be used. For that reason I have not talked to the mom about any new information that has been shared with me.</p> <p>Thanks for your time! Let me know if you have any other questions.</p> <p>Danielle</p>

Monica reported that Elora has a lot of friends and that she does well in school.</p> <p>Raina (6): Monica reported that the 'house sass' and that Raina is witty and always has been. Monica reported that Raina is charming, observant, and funny. Monica reported that Raina is a force of nature. Monica reported that Raina is set to be CEO at some point in time. Monica reported that Raina loves people, and that Raina takes younger children under her wing, and is interested in learning/having fun conversations. Monica reported that Raina has been working</p>	

with the school due to behavioral issues.

PARENTING PRACTICES:

PER FO: Monica reported that Matthew is good at communicating and that it has improved over the years. Monica reported that Matthew is a fun and loving dad. Monica reported that Matthew is good at talking to the children and their emotions. Monica reported that Matthew struggles with ADD and has reading issues so Matthew interprets questions which may lead to Matthew misunderstanding situations. Monica reported that Matthew had been working to become more patient with both Monica, herself along with the children.

PER MO: Monica reported that she does not communicate with Veronika and does not contact Monica. Monica reported that she had met Veronika a couple of times prior to Matthew and Monica started dating. Monica reported that Veronika accused Monica of having an affair with Matthew even though Monica and Matthew were not dating prior to Veronika and Matthew separating. Monica reported that Veronika had reached out to her during 2020 as Veronika reported that Matthew was abusing Veronika, and that Veronika had a plan to flee from Matthew. Monica reported that this was her first interaction with Veronika.

Monica reported that she observed that MO yells a lot with the children and that Monica observed that MO did not take very well of the children. Monica reported that she observed MO yelling at the children at events, over facetime while at Matthew's house, and that the children have disclosed that MO gets upset when Monica is around the children.

DISCIPLINE:

Monica reported that when the children are with FO and Monica, the children can eat whatever they want, and that they can eat when they are hungry. Monica reported that in working with the children's therapist, FO and Monica have been working with the children to eat some junk food as they are allowed to be children. Monica reported that MO has had children on certain diets and sometimes not. Monica reported that she is confused about why/what the diets are for the children when they are with MO. Monica reported that there have been arguments with the school due to diagnosis's ODD leading to dietary restrictions. Monica reported that MO is 'Yucka' app that shows if the 'food is good or bad'. Monica reported that MO will take food away as punishment.

Monica reported that when the children with FO and herself, the rules revolve around safety, asking for permission and that there is more structure than rules such as bedtimes, dinner times, and brushing their teeth.

SUPPORT SYSTEM:

Monica reported that church is a form of support along with Matthew and friends in their area. Monica reported that she works in the theater community in Seattle and work friends.

SDM/ PARENT FUNCTIONING

WORK:

Monica reported that she works 9-5 from home in the event industry.

Monica reported that Matthew works for the same company as Monica as more of the coordinator.

<p>Case Note 1 of 1 Entered By : Gracey Pearson Date Entered : 03/31/2025 Time Entered : 12:18 PM 3/31/25 at 12PM</p> <p>SW Pearson received the following email from Raina's therapist regarding additional concerns for this family.</p> <p>Awesome thank you. Raina asked last week to speak with me, (it was our off week from therapy), her dad made an appointment for Thursday 3/27. Ten minutes before our session her father called my line, and said Raina was freaking out because her mom's car was parked out front (I can't confirm this, as I don't know what the mom drives) but Raina was able to describe the car out front perfectly. I had to go outside to Raina's car, to provide reassurance that her mom was not in our building and that she would not be allowed in our building. I even went as far as saying I would lock the main lobby office door, so that no one else could enter our building (I was the only therapist left for the night). With my reassurance, Raina did enter our building as long as I locked the door. Throughout our session if she heard a noise she would ask me to go make sure mom hadn't come in, which I did.</p> <p>She then shared with me that mom knew a man she called "grandpa" but isn't her actual grandpa was buying them a RV to live on his land. She shared that the man always wants hugs from her but she doesn't want to give him hugs, because he's creepy and gross. She also shared that he has tried to kiss her on the lips but she told him she doesn't like that or not but he still tries. She told me she doesn't want to live next to this man in the RV.</p> <p>She also asked repeatedly for me to not tell mom about this. That I could only speak about it with dad and stepmom because she doesn't want mom to get mad. This concerns me as a professional but also makes it difficult because I don't want to ask mom about my concerns, in fear that the blame will be put on Raina.</p> <p>Thank you again for your time. Let me know if you have any questions or if I should relay this information somewhere else.</p> <p>***** *****</p> <p>Parent Contact: Matthew Ralidak 12:18PM</p>	

SW Pearson called FO to address the email along with following up with FO as he texted SW regarding additional concerns for the children while in MO's care.

SW Pearson left VM for FO and FO responded via text that SW and FO can speak 4/1/25 at 8:30AM via phone.

Case Note 1 of 1 Entered By : Jazie B. Smith Date Entered : 04/01/2025 Time Entered : 02:51 PM <p>CONCERNS: Parents have 50/50 custody. Children complain that they are not fed enough when they spend their week with mother and that they are hungry. Per oldest girl, Elora, all they have had to eat this week is eggs and peanut butter, prepared by Elora. They normally get meals at school, but no school past few days because of snow. Also, the children show up at father's home in poor condition, wearing dirty clothes, with dark circles under their eyes, which clear up after a few days in father's home.</p> <p>IFF: SW completed at the school with all 3 of the children. Elora told SW that she doesn't get enough food at her mothers house.</p> <p>SW completed mothers interview. The mother sent photos of her home with all of the food and the medical records because she has Elora on a special diet and the father doesn't follow this.</p>	

The father said the mother is a horrible mother and has MH concerns.

They are going through a difficult separation.

NARRATIVE			
Case Note 1 of 1 Entered By : Gracey Pearson Date Entered : 04/04/2025 Time Entered : 02:33 PM 4/4/25 2PM PARENT CONTACT: SW Pearson contacted MO via phone per additional concerns regarding the children reporting to be unconformable with new living situation in a trailer and that their 'grandpa' is making Raina uncomfortable/trying to kiss her on the mouth. SW Pearson explained to MO that these were the			

concerns along with the unsteady living environment for the children as SW Pearson was told by MO that when MO has the children, they are staying at Collin's home in which SW did a HWT along with interview with no safety concerns. MO reported that she was upset that these allegations were being called in and reported that she was at the school, saying goodbye to her children. MO reported that her bestfriend and another close family friend are where MO is planning on staying with eventually as the commute to the children's school from Collin's home in Monroe is difficult. SW observed that MO was speaking to Collin in the background and SW observed that MO was becoming upset as she reported to have seen FO in the parking line. MO reported to Collin that she may go over there to insist that FO stops calling reports in. SW asked MO who she was speaking to, MO confirmed that it was Collin, and MO reported that she was extremely upset. MO then reported that she knows that FO called in a report and SW Pearson explained that the reporter will remain confidential but if MO is able to provide name/address of where she is living, SW can complete safety assessment to address the concerns. MO reported that she will do this. Then the phone call ended.

SW Pearson then received multiple texts from MO reporting that it is her right to know who called in the report. MO texted SW Pearson videos/pictures of the trailer (screenshots in Famlink).

PARENT CONTACT:

SW Pearson received a call from FO, Matthew, and he reported that MO/ Collin came up to his car 'berating him' and yelling. FO reported that he got some of it on video and that he did not know who else to call so he called SW Pearson. SW Pearson reported that she understands why FO called and validated his concerns. SW Pearson reported that she will be documenting this along with FO reporting that he will get a report from the school. SW asked FO to send SW the report, if he is willing, so that can be documented as well. FO agreed to do so. FO reported that he was caught off guard and felt that Collin was out of line by intimating him at school. FO reported that he wants SW to document this and SW Pearson reported that she is required to by policy. FO thanked SW Pearson and SW Pearson told FO to keep her updated if anything changes/comes up over the weekend.

Case Note 1 of 1 Entered By : Gracey Pearson Date Entered : 04/07/2025 Time Entered : 01:26 PM

IFF Aiden (8): 10AM 4/7/25

LOCATION: FO's Home in Duvall

ATTENDANCE: SW Pearson and Aiden (8).

SW OBSERVATIONS: SW Pearson observed that Aiden was willing to speak with SW as he remembered SW from previous intake. Aiden was able to answer SW's questions and allow SW to do a body check.

GROUND RULES: SW Pearson went over the ground rules and Aiden agreed to tell the truth.
RECORDING (IF APPLICABLE): n/a.

CHILD FUNCTIONING: Aiden reported that he was eating breakfast and that he is staying with his FO, Siblings, and Monica for spring break. Aiden reported that he likes to play with his bugs as pets and that he likes spending time with his sisters.

HOUSEHOLD:

Aiden reported that he lives with his mom and Dr. Collin half the time and that the other half lives with his FO. Aiden reported that his mom is moving them into an RV and that Aiden thinks the RV is cool but too small. Aiden reported that he has his own room at his dad's house.

PARENTING PRACTICES:

FO: Aiden reported that at his dad's house he gets to eat when he wants, plays a lot and that he loves to spend time with his dad.

MO: Aiden reported that he likes his mom but that she can be scary sometimes. Aiden reported that he is expected to be nice to his mom even when he didn't do anything wrong.

DISCIPLINE:

FO: Aiden reported that at dad's house he has a certain bedtime routine and that he needs to be respectful. Aiden reported that if he doesn't follow the rules at dad's home, he goes to his room but that this does not happen often.

MO: Aiden reported that MO expects him and his sisters to be respectful and to not fight. Aiden reported that MO does slap his sister's more than him and that MO spansks them on the butt when they do not follow the rules. Aiden showed SW Pearson an open hand to give a visual for SW Pearson when MO disciplines him and Aiden's sisters.

SDM/ PARENT FUNCTION

SAFETY: Aiden reported that safety is hard to explain but agreed with SW Pearson when she explained that safety is when you do not have to worry about bad things happening to you. Aiden reported that he does feel safe with his mom but only sometimes because she hits him and his sisters. Aiden reported that he feels safe with Collin and that he feels safe with both FO and Monica.

ALLEGATIONS: Aiden reported that MO did hurt Raina (6) but that he didn't want to talk about

it. Aiden reported that SW should as Raina.

ADDITIONAL: SW Pearson did a body check and Aiden was free from marks and bruising at this time.

IFF WITH ELORA (10)

DATE & TIME: 10:20AM 4/7/25

LOCATION: FO's home in Duvall

ATTENDANCE: SW Pearson and Elora (10):

SW OBSERVATIONS: SW Pearson observed that Elora was willing to speak with SW and that Elora was eager to see SW Pearson as she remembered her from the last time, they saw each other. Elora was able to answer SWs questions.

GROUND RULES: SW Pearson went over ground rules and Elora agreed to tell the truth.
RECORDING (IF APPLICABLE): n/a.

CHILD FUNCTIONING: Elora reported that she and her siblings are on spring break and that they will be staying with their FO. Elora reported that she is excited to spend time with her father and that they are all going to a hotel in Everett because they have a pool.

HOUSEHOLD:

Elora reported that she lives with her FO half of the time and her MO the other time. Elora reported that her mom wants to move them all into an RV but was previously living with MO and Dr. Collin. Elora reported that the RV is super small and that she doesn't want to live with her mom in the RV but that she was fine with living at Dr. Collin's house.

PARENTING PRACTICES:

FO: Elora reported that she likes spending time with her dad and that he is nice/fun to be around.
MO: Elora reported that MO is okay but that she does hit her and her siblings sometimes. Elora reported that she doesn't want to be with MO in the RV. Elora reported that she doesn't understand why MO wants to move into the RV because it's small.

DISCIPLINE:

FO: Elora reported that when she is with her dad, she has to be respectful and if she says a bad word she might be sent to her room but that doesn't happen often.

MO: Elora reported that MO wants Elora and her siblings to comfort MO when she is upset, be respectful and that MO slaps/spanks the kids when they don't follow the rules. Elora reported that she doesn't like when MO slaps/spanks her, but that Raina (6) usually gets slaps the most.

SDM/ PARENT FUNCTION

SAFETY: Elora reported that safe means to not be worried about bad things happening to her. Elora reported that she feels safe with FO/Monica but safe with her MO sometimes. Elora reported that MO gets really upset. SW asked Elora to speak to a time that MO got upset and

Elora reported that SW should talk to Raina.

ALLEGATIONS: Elora reported that MO wants to move into an RV and that it is too small. Elora reported that the other adult around but not in the RV with the family is 'Uncle Canny' who is MO's best friend. Elora reported that the RV is on a farm.

ANYTHING ELSE: SW Pearson did a body check and Elora is free from marks/bruising at this time.

IFF with Raina (6)

DATE & TIME: 4/7/25 10:30AM

LOCATION: FO's home in Duvall

ATTENDANCE: SW Pearson, FO, and Raina (6)

SW OBSERVATIONS: SW observed that Raina was not willing to speak with SW as Raina was hiding under her bed and behind Monica and/or FO when SW asked her to speak with her. Raina reported that she only would speak to SW if FO could come with her. SW observed that FO was willing to be with Raina while speaking with SW. SW, FO and Raina went into Raina's room and FO sat on the bed with Raina. SW attempted to ask Raina questions, but she did not want to speak with SW. SW was able to do a body check to see that Raina was free of marks/bruising. Raina did show SW a mark on her chest that was the size of a pencil mark and reported that MO scratched me. Raina was hiding under the covers thus not allowing a full interview to be completed.

CONVERSATION WITH FO/ Monica

4/7/25 10:40AM

SW spoke to FO outside the home. FO reported that he was upset post Friday (documented in famlink) as MO and Dr. Collin harassed him at school. FO showed SW Pearson the video of Collin making a gun symbol at FO at the school and FO reported to have his legal rep on the phone when SW Pearson arrived as FO is working to document all of this. FO reported that he understands that SW Pearson is separate from family court. FO reported thanked SW Pearson for being receptive and reported that he will keep SW updated. SW Pearson reported that she spoke to her SUP and that SW Pearson will keep FO updated once the case is closed so he can have further documentation of this period per multiple intakes. Monica then came out of the home as SW was leaving to report to SW that Raina is having a tantrum now and that she is reporting that she is scared because MO told all of the children not to speak to CPS. FO thanked SW Pearson again and SW left the home.

Case Note 1 of 1 Entered By : Jazie B. Smith Date Entered : 04/08/2025 Time Entered : 12:00 PM -----CLOSING NOTE----- INTAKE #5619402 02/06/2025 Ref lives with father and describes herself as the stepmother to the children. Ref said parents have 50/50 custody. The children spend a week with each parent. The change takes place on	

Fridays. The children also have a Wednesday evening visit with the parent in whose home they are not residing, in a given week.

Ref is calling to report that the children are not being fed adequately when they are in their mother's home. According to Elora, the oldest, who was in ref's home last night, they have missed a lot of meals this week and all they have had to eat is eggs and peanut butter, with Elora being the one that cooks the eggs for herself and her siblings. Ref said that when the children come into her home they are always very hungry and are allowed to eat as much as they want, but usually after a meal or 2, they have diarrhea, for about a day, which indicates to ref that their bodies are adjusting to a higher level of food intake. The children also arrive at the home of ref and father in poor condition, described by ref as "filthy." They are usually wearing visibly soiled clothing, with the girls wearing "crusty" underwear. They all have "dark circles" under their eyes, which clear up after a few days in father's home.

Per Elora, mother has said that she does not have the money to get enough groceries, but she always manages to have champagne for herself.

There are certain foods in the home that the children are forbidden to touch because they belong to mother's BF.

Ref said the children get breakfast and lunch at school.

Mother tried to get the school to discontinue providing meals to the children, contending that they have significant food allergies, but father blocked this by providing the school with documentation from the children's doctor, saying that the children have no such allergies. The children arrived at school on Monday, too late for breakfast and then school was cancelled the rest of the week due to snow.

Ref said that mother is involved with a MLM company known as Purium, which sells various health foods, detox/cleansing products and supplements. Some of what the children eat at mother's home are products from this company, but not clear to ref what Purium products the children have consumed or how often.

SECOND INTAKE 5666738

Referrer reports the parents have split custody and the kids had been with Mom all week, but they are now with Dad. When Raina came to school today, she was falling asleep in class and complained of a headache and said Mom slapped her pocket and her cheek and when she slapped her she pushed her into the hall. Ref asked Raina what she hit her head on and she said the floor. Raina said her Mom checked her head and said there was no bump and she needed to go to sleep.

Raina said she couldn't go to sleep and this morning, Mom said they didn't have time for breakfast, so she came without eating. Ref stated she has come without breakfast previously when she is with Mom.

She complained of a headache all day and saw the School Nurse who noted no signs of concussion. Ref did not observe any marks or bruising.

IFF COMPLETED: 02/27/2025

Aiden reported that MO did hurt Raina (6) but that he didn't want to talk about it. Aiden reported that SW should as Raina.

Elora reported that MO wants to move into an RV and that it is too small. Elora reported that the other adult around but not in the RV with the family is 'Uncle Canny' who is MO's best friend. Elora reported that the RV is on a farm.

PARENT INTERVIEW:

PER MO: MO reported that the children and herself implement the '5 to 1' ratio meaning that 1 wrongdoing means you have to do 5 good things. MO reported that MO and her children work together to understand that they do not have control over the outside world but that they do have control over their own actions. MO reported that she does EFT tapping with the children to regulate their emotions. MO reported that she believes her discipline is impactful. MO reported that she denies any physical form of discipline.

PER FO: SW Pearson spoke to FO on the phone regarding new concerns about MO having the children stay in a trailer with an unknown person and FO provided their names as 'Jim Solberg and Nathan 'Kanis' Solberg. FO reported that Raina specifically has voiced that these men have tried to kiss her on the mouth and make Raina uncomfortable. FO did not have more information regarding the whereabouts of the Trailer and reported that MO's previous partner, Collin have broken up therefore leading FO to not know where the children are located when the children are in MO's care. SW spoke to FO outside the home. FO reported that he was upset post Friday (documented in famlink) as MO and Dr. Collin harassed him at school. FO showed SW Pearson the video of Collin making a gun symbol at FO at the school and FO reported to have his legal rep on the phone when SW Pearson arrived as FO is working to document all of this. FO reported that he understands that SW Pearson is separate from family court. FO reported thanked SW Pearson for being receptive and reported that he will keep SW updated. SW Pearson reported that she spoke to her SUP and that SW Pearson will keep FO updated once the case is closed so he can have further documentation of this period per multiple intakes. Monica then came out of the home as SW was leaving to report to SW that Raina is having a tantrum now and that she is reporting that she is scared because MO told all of the children not to speak to CPS. FO thanked SW Pearson again and SW left the home.

PER MONICA: Monica reported that when the children are with FO and Monica, the children can eat whatever they want, and that they can eat when they are hungry. Monica reported that in working with the children's therapist, FO and Monica have been working with the children to eat some junk food as they are allowed to be children. Monica reported that MO has had children on certain diets and sometimes not. Monica reported that she is confused about why/what the diets are for the children when they are with MO. Monica reported that there have been arguments with the school due to diagnosis's ODD leading to dietary restrictions. Monica reported that MO is 'Yucka' app that shows if the 'food is good or bad'. Monica reported that MO will take food away as punishment.

PER COLLIN: Collin reported that MO will put the children in time outs, Collin denies any form of physical discipline, and that the children are expected to do their homework and to eat healthy

if they are going to have any sweets, they need to finish their food first.

REPORT FROM SCHOOL: CUT AND PASTED NARRATIVE FROM REPORT C25010391

On April 4, 2025, I was dispatched at 1445 hours for a reported DV threats call at Carnation Elementary School, 4950 Tolt Ave. RP-1 Matthew Ralidak and S-1 Veronika Goodnight are divorced. Ralidak and Goodnight have three children in common, V-1 Raina Goodnight-Ralidak (6 yrs old), O-2 Elora Goodnight-Ralidak (8 yrs old), O-3 Aidan Goodnight-Ralidak (10 yrs old). O-4 Colin Derieg and Goodnight are currently dating. O-6 Monica Galarneau and Ralidak are currently married. O-5 Michelle Frank is the current principal for Carnation Elementary. Ralidak informed me of the following: He currently has a tense relationship with Goodnight. They currently share their children 50/50 according to their parenting plan. Ralidak informed me that there is an open CPS case involving Goodnight, a man she is living with, and RGR. Ralidak stated that according to RGR, Goodnight was making her kiss this man. Ralidak did not have any other information about this CPS case. While waiting, in his car, in line to pick up his children from school. At approximately 1358 hours Goodnight approached Ralidak's car and started yelling at him. Goodnight was accusing Ralidak of calling CPS on her. Goodnight continued yelling and asking Ralidak questions about the children and Goodnight's new living arrangements. At some point Ralidak noticed Derieg standing beside his car staring at him. Goodnight then went into the school office and back out toward Ralidak's car. During this time Ralidak had called into the school's office and told the principal, Frank, and another administrator about the odd behavior and scene Goodnight was making. Frank then came outside to speak with Goodnight. At approximately 1412 hours Goodnight and Derieg got into a maroon Chevy Silverado and left the school parking lot. Ralidak clarified that no threats were ever made by Goodnight or Derieg. Ralidak stated he felt intimidated by Derieg standing outside his car staring at him. While sharing the details of this incident Ralidak seemed visibly shaken and needed to take breaks, while talking with me, to hold back tears. All three children were not present during this incident. As I was leaving Ralidak showed me a text from Galarneau, who currently had all three children. Galarneau said that all three children had told her that Goodnight had slapped RGR and slammed her against a wall. Ralidak thought this might be retaliation because RGR had planned to tell Goodnight she no longer wanted to live with her. Ralidak did not mention any marks or bruises on RGR when he had seen her at the school pickup. The text from Galarneau did not describe any injuries on RGR. Ralidak and Galarneau have all three children over the weekend. Ralidak said he is worried about his children's safety and wasn't sure what to do. I gave Ralidak the case number and informed him that he should get in touch with a lawyer and ask about getting a protection order if he is feeling this way. Frank had informed me of the following: The office had received a call from Ralidak, so Frank and another administrator had gone outside to see what was going on. Frank spoke Goodnight and told her "This isn't the place", in reference to not handling parenting issues on school grounds. Frank stated this is not the first time that Goodnight has caused a commotion or interrupted the children's learning process.

INITIAL WALKTHROUGH: SW Pearson arrived at the home and MO greeted SW allowing her into the home. MO reported that she was in the process of moving into her Fiance's home within the next month and reported that the home is messy due to this. SW reported that she understood. SW was shown around the home and observed that this was a three bedroom home in which Elora and Raina share their a bedroom with a bunk bed and Aidan has his own room on the opposite side on the hall way. MO denied any fire arms or weapons, SW observed that there are clear exit and entry was both at the front of the home and through the sliding door in the kitchen. SW observed that the home has adequate food in the fridge and pantry. SW observed that the home was at a normal temperature and did not observe any present danger nor immediate safety concerns at this time

SAFETY THREAT(S): Safety threat [#10] was determined [inactive].

PPC/Safe Sleep: N/A

SDM: MODERATE

UNMET NEEDS: N/A

Disposition: SW Pearson completed FAR process with both MO and FO and determined no active safety threat at this time. MO reported that she feeds the children (SW reviewed medical records) and both FO/MO are able to meet children's basic needs.

Closing letter recommendations: SW will send FAR letters.

Safety Threat #17 was explored. However, it did not meet the threshold criteria. SW observed that safety threshold criteria did not meet the 5 thresholds. There were no severe consequences for the child. There is no immediate or present danger that is likely to occur. 1. Veronika and Matthew agreed to speak with CPS and engaged well throughout the FAR process and has provided all documents, medical information to SW. 2. MH therapist Anjali called in that Elora expressed her friend kisses her and resulted in concerns of sexual abuse among two kiddos. 3. Youth is not vulnerable to safety threat #17 because she is not seeing that friend River anymore. Both parents are protective. 4. Safety threat is not out of control because there is not active safety threat as all kids stated they feel safe within both households. 5. SW Dhillon completed the FAR ASSESSMENT and did not find any reasons to believe there was present danger or active safety threats in the household.

SAFETY PLAN ANALYSIS

- There is a parent/caregiver or adult in the home/facility.
- The home/facility is calm enough to allow safety providers to function in the home/facility.
- The adults in the home/facility agree to cooperate with and allow an In-Home Safety Plan.
- Sufficient, appropriate, reliable resources are available and willing to provide safety services/tasks.

SAFETY THREATS		
1. The family/facility situation results in no adults in the home/facility performing parenting/childcare duties and responsibilities that assure the child's safety.	No	
2. The family/facility situation is that the living arrangement(s) seriously endanger the child's physical health.	No	
3. Caregiver(s) are acting (behaving) violently or dangerously and the behaviors impact child safety.	No	
4. There has been an incident of domestic violence that impacts child safety.	No	
5. Caregiver(s) will not or cannot control their behavior and their behavior impacts child safety.	No	

6. Caregiver(s) perceive the child in extremely negative terms.	No
7. Caregiver(s) do not have or do not use resources necessary to meet the child's immediate basic needs, which present an immediate threat of serious harm to a child.	No
8. Caregiver's attitudes, emotions or behaviors threaten severe harm to a child, or caregiver(s) fear they will maltreat the child and are requesting placement.	No
9. Caregiver(s) intend(ed) to seriously hurt the child.	No
10. Caregiver(s) lack the parenting knowledge, skills, or motivation necessary to assure a child's safety.	No
<p>Per intake, SW Pearson assessed safety threat number 10 as there were concerns regarding the children not being fed enough at MO's home. 1) How the safety threat has had or will have severe impact(s) on the child. During IFFs, SW observed no severe safety impacts to the children physically however, Elora, Aidan and Raina all reported that they have to eat different foods when at mom's home and at father's home. SW Pearson spoke to MO and conducted HWT that indicated that the children are being fed along with doctor's notes indicating that MO provides certain dietary related foods for Elora specifically. SW Pearson spoke with FO and FO reported that he feeds the children when they are with him but that FO has heard from the children that they are hungry while with MO. 2) How the safety threat is immediate or will occur in the near future. SW determined that due to the parents having 50/50 custody and both parents having various views regarding foods; the children are being fed which eliminates the safety threat to be immediate/occur in the near future. 3) The vulnerability of the child in relation to the safety threat. Elora (9), Aidan (8), and Raina (6) are all vulnerable to the safety threat as they rely on their CGs/supports to provide food for them to meet their basic needs. 4) Why there is no responsible parent/caregiver or adult in the home/facility that can prevent the threat. SW determined FO and MO to be responsible CGs as MO provided doctor's note regarding why she gives the children certain foods and FO has been able to feed the children without complaints to meet their basic needs. 5) The specific behaviors, conditions, etc., that are observed that make the threat clearly understood and observable. The conditions/behaviors were observed by both parents and SW Pearson along with the school/medical collaterals. SW Pearson determined safety threat 10 to be inactive as it does not meet the threshold criteria.</p>

Client is a 9 year old female presenting for an assessment in the Child Advocacy Program following disclosure of sexual abuse allegedly perpetrated by a peer, Makayla [REDACTED] age 10. Client was accompanied to the assessment by her mother, Veronika Goodnight, and her father, Mathew Ralidak. The parents both reported that they are currently in the middle of a contentious custody battle. Because of this, clinician met with all parties separately.

Clinician initially met with client's mother 1:1. Regarding the allegations, mother stated: "On March 24th or 25th, she went to dad's for the weekend. I got her Sunday night. Monday night, I put the kids to bed. She came out of bed and said, 'There's something that I want to talk to you about. I went over to my friend Makayla's house.' She said, 'I was playing with Makayla on Sunday but she's come over to my house before.' I asked if there was something concerning about the playdate. She said, 'We were playing in the backyard, and she tried to kiss me. Then she pulled up my shirt to try to see my belly button.' I asked if she (client) liked it, and she said no. 'I was just really uncomfortable.' I said thanks for telling me, and I told her you could use your voice."

Mother continued, "I said I need to write your dad an email. I need to let your father know that that was happening during his weekend and that you felt uncomfortable." Mother reported that they made a plan and sent client back to bed. Mother stated, "She later came back out and said, 'I can't sleep because there's more.'" Mother reported that client then described a situation where client's friend, Makayla reportedly told her own father that she and client were going to draw. Mother stated that she felt Elora had a strange look at that, so asked, what does drawing mean? Mother stated, "She (client) said it means that she (Makayla) was going to start kissing [client] and touching [client]. She said, 'I felt really uncomfortable and just froze.' She said, 'Makayla told me to touch her pussy. She told her to touch her pussy and let her touch my pussy.' She said there was another time when Makayla pulled her pants and underwear down. She demonstrated that somehow Makayla was holding her wrists to keep her from pulling her pants back up. She said, I really don't like that she said that she was drawing. We didn't do any drawing." Mother expressed concern about the use of the word "pussy" and stated that she believed this indicated "learned behavior."

Mother stated that after the disclosure, mother sent father an email detailing the allegations of the abuse. Mother stated that she felt the client's father did not take adequate steps to follow up on the concerns, and therefore made a police report. Mother provided the police report to this clinician, confirming a report was made to King County Sheriff's Office (Case #C24010592). The report by Officer Mark Walker-Rittgers indicates a similar incident is alleged to have occurred involving Makayla and another child.

Mother also noted a source of stress in the family's life is the ongoing custody battle. Mother stated that the parents have another trial for custody that is set for May 28th, 2024, and that this will be the second trial.

When asked how she believed Elora was impacted by the alleged incidents with Makayla, mother stated, "There aren't any big changes. She's kind of gone into a shell a little bit. She just froze. She keeps saying 'I didn't know how to get out of the freeze.'"

Goodnight, Veronika

Clinician then met with client's father 1:1. Regarding the allegations, father stated, "On March 24th, Elora was under my residency. Sunday we go to church. Usually Elora asks to have a playdate with usually Mercy or Makayla. After church usually Makayla comes over to our house or Elora goes over to Makayla's house. That week, Elora [went to Makayla's house] came home to me at 3. Makayla's dad dropped Elora off. Makayla's dad came up and talked to me because Elora had scraped her toe and...banged her finger because the brother jumped on her finger on the trampoline. She also bit her lip while playing. She told me all those things, and Makayla's dad said the same things. They left, and then from about 3-5:45, Elora was with us at our home. I didn't notice anything different about her. There wasn't anything cause for concern. She's pretty good about saying to us (father and his wife, Monica), 'Hey guys, I need to talk to you.' She really trusts Monica. They go to their mother's Sunday evening, Monday passes, then Tuesday morning, I read an email from Veronika about some things that happened at Makayla's house with Elora. I found that concerning because Elora didn't say anything about it."

Father continued, "There was an incident a few summers ago, with a friend she met where the friend tried to kiss her, and she was uncomfortable about it. She came back to the camp and told us right away." Father reported that because of this, he found it odd that client did not disclose the alleged abuse with Makayla to father or father's partner, Monica.

Father continued regarding the email sent by Veronika: "The email was alleging that Makayla molested her or held her down or forced her to do stuff. Makayla is the same size or slightly smaller than Elora. Some of the stuff just felt very...I don't know. There was a lot there. So when I read that, I reached out to Veronika and said thanks for this info, Elora didn't mention any of this, and I'll reach out to Doug and find out what the story is. I think that's what should happen at 9 years old, so that's what I did."

Father reported that he called Makayla's father and expressed the allegations. Father reported that he hadn't had a chance to talk with client at that point because client was in mother's custody at that time. Father reported that Makayla's father stated that his wife would talk with Makayla once Makayla's mother came home.

Father stated, "During that time was when Veronika called the police to file something. I only say that I think that was too far at some point because I didn't have all the information. And that was my same thing with [the intake appointment at Dawson Place]. I didn't have all the information. I called Doug and talked to him, but she (Veronika) thought that wasn't enough. She called the police and didn't give me any information, and this goes back to the parenting plan with unilateral decision making. I would hope that both parents would be involved with something like this."

Father continued, "Karla (Makayla's mother) called me back about a day later, and said that she had a conversation with Makayla, and said that maybe they were playing just a little too handsy. I had lunch with Elora later that week, and she said that she felt uncomfortable with the game they were playing because Makayla was grabbing her hips and that Makayla was maybe trying to kiss her. Veronika said that Makayla held her down and touched her pussy. Veronika used some words in her email that our daughter doesn't know and doesn't use in her verbage. Veronika was saying that she (Makayla) was using code words, and saying 'don't tell anyone.'"

Father also noted, "Veronika has also used a lot of the same language in other allegations against me."

When asked how he feels client has been impacted by the events, father stated, "I feel like something happened. Nine or 10 year old girls explore their bodies and there could be some inappropriate behavior that happens. The way Elora has acted after, at our house there's no difference. When we've gone to church, she uses language that her mother uses (referencing client and her family). She says that person is unsafe. She says that whole family is unsafe. She's being told things that I think are too heavy and too above her in my opinion."

Clinician then met with client 1:1. When asked if she knew why she was talking with this clinician, client stated, "Because of Makayla." Clinician asked client if she could say more about Makayla. Client stated, "We were going to do drawing. But she didn't do drawing. She just wanted to kiss me and touch me inappropriately. I just froze and didn't know what to do." When asked what she meant by "touch me inappropriately," client stated, "Like she was touching me where she wasn't supposed to. My privates and my butt." Client reported that Makayla had allegedly tried to kiss her on more than once occasion, but stated, "She didn't touch me inappropriately [before], this was the first time she touched me inappropriately."

When asked where this happened, client stated, "Her house. We were in her room because now she gets her own room. She was lying to her parents because she was like, 'We're drawing up here, and she would go out to see if the coast was clear. Then she would bring me up to her bed and lay on top of me and kiss me. She was pulling my pants down with my underwear down sometimes. She would pull my underwear off me when she was on top of me. And she got mad at me when I wanted to go play with her brothers, because she just wanted to go to her room and touch me and kiss me inappropriately." When asked how she felt about this, client stated, "It was uncomfortable and I didn't know what to do and I froze, so I just let her do it. I don't want to be friends with Makayla."

When asked how she felt now, client reported that she felt unsure and "unsafe" and also stated, "I also feel like I can't trust her brothers," but was unable to express a reason why she did not feel safe with them.

Problem List

Anxiety (general, panic, phobia, OCD)

Client reported that she feels anxious when going to church, stating that she does not want to be around Makayla or be friends with Veronika that Makayla continues to attend the same church as her.

Isolation/Withdrawal

Mother reports that client has been more withdrawn since the alleged incidents.

School or work challenges

Father expressed some developmentally appropriate challenges with friends, stating, "She very much takes to heart what people say and do in class. She comes home and she's upset about this girl in class taking another friend from her. I think it's all age appropriate things. She has a lot of friends. School-wise, she's done a good job making up in the past couple years. She's under grade level in reading and writing. I have some additional help for her on Thursdays after school." Mother also reported that client has previously had tutoring help while in her care.

Father stated that client has "a lot of unexcused absences when at mother's home. Last year she had almost 30 days of missed school. Elora has about 14 absences this year."

Sleep

Client stated that she occasionally has trouble falling asleep.

Trauma/Abuse/DV

See presenting problem.

Other major life events/past events that are still affecting client

Client's parents are in an ongoing custody dispute.

The following sections cover much more than a client's mental health. Clients may wonder why we are asking questions about areas of their lives beyond their mental health and may find the questions sensitive in nature and/or uncomfortable to discuss. It may be helpful to take a moment to explain to clients that in order to have better mental health, it is important to ensure overall well-being and that their physical health, relationships, living situation, etc. may be impacting and/or impacted by their mental health. Gathering this additional information can help us gain better understanding and provide more effective services. Even if the client indicates there is not a relationship between their mental health and other areas of their lives, we may be able to offer resources that they may find helpful.

Notes: Client's symptom self-assessment scores were as follows:

Child and Adolescent Trauma Screen (CATS), client self-reported a score of 17, when 15 is considered clinically significant.
Screen for Child Anxiety Related Disorders (SCARED), client self-reported a score of 2 for anxiety, when 3 is clinically significant.

Moods and Feelings Questionnaire (MFQ), client self-reported a score of 5, when 11 is considered clinically significant.

Client's symptom assessment scores completed by father were as follows:

Goodnight, Veronica Trauma Screen (CATS), caregiver reported a score of 10, when 15 is considered clinically significant.

202504-PRR-349

DOC# 000138

Screen for Child Anxiety Related Disorders (SCARED), caregiver reported a score of 1 for anxiety, when 3 is clinically significant.
Moods and Feelings Questionnaire (MFQ), caregiver reported a score of 1, when 11 is considered clinically significant.
Pediatric Symptom Checklist (PSC-17), caregiver reported a score of 3 internalizing, 3 attention, and 6 externalizing for a total of 12.

Client's symptom assessment scores completed by mother were as follows:
Child and Adolescent Trauma Screen (CATS), caregiver reported a score of 25, when 15 is considered clinically significant.
Screen for Child Anxiety Related Disorders (SCARED), caregiver reported a score of 2 for anxiety, when 3 is clinically significant.
Moods and Feelings Questionnaire (MFQ), caregiver reported a score of 4, when 11 is considered clinically significant.
Pediatric Symptom Checklist (PSC-17), caregiver reported a score of 3 internalizing, 3 attention, and 0 externalizing for a total of 6.

During assessment, client disclosed experiencing an incident of sexual abuse. Following the incident, client endorsed avoidance of trauma reminders and occasional low mood. Mother also reported that client has "turned inward" and is withdrawn at times. Client's symptoms impact social and familial functioning, are not better explained by another mental health condition, and are not due to the effects of a substance. Client is therefore diagnosed with (F43.20) Adjustment disorders, unspecified.

Superior Court of Washington, County of King

In re Parenting and Support of:
E.L.R., A.W.R., and R.S.R.,
Minors.

No. 20-3-03830-3 SEA

Petitioner:

VERONIKA GOODNIGHT,

Final Parenting Plan

(PPP / PPT / PP)

Clerk's action required: **1**

And Respondent:

MATHEW RALIDAK.

Final Parenting Plan

1. This parenting plan is a:

Court Order signed by a judge. This is a final order entered after a motion to modify the prior final parenting plan. This order replaces all previous parenting plans, including the prior plan entered on 03/07/2022.

2. **Children** – This parenting plan is for the following children:

Child's name	Age
1. Elora L. Ralidak	9
3. Aidan W. Ralidak	7
5. Raina S. Ralidak	5

3. **Reasons for putting limitations on a parent** (under RCW 26.09.191)

a. Abandonment, neglect, child abuse, domestic violence, assault, or sex offense. *(If a parent has any of these problems, the court **must** limit that parent's contact with the children and that parent's right to make decisions for the children, and may not require dispute resolution other than court.)*

[X] Neither parent has any of these problems. (Skip to **3.b.**)

- b. Other problems** that may harm the children's best interests. *(If a parent has any of these problems, the court **may** limit that parent's contact with the children and that parent's right to make decisions for the children.)*

Neither parent has these problems.

4. Limitations on a parent

The Court essentially maintains a modified form of the substances provisions from the original parenting plan. The Court does not find it necessary to maintain the mental health related provisions, as they were originally intended for 24 months only.

The modified language is as follows: Neither party may consume marijuana products during their residential time with the children, and must refrain from being under the influence of alcohol, marijuana, or any other controlled substance or non-prescribed medication while in the presence of the children.

5. Decision-making

When the children are with you, you are responsible for them. You can make day-to-day decisions for the children when they are with you, including decisions about safety and emergency healthcare. Major decisions must be made as follows:

a. Who can make major decisions about the children?

Type of Major Decision	Joint <i>(parents make these decisions together)</i>	Limited <i>(only the parent named below has authority to make these decisions)</i>
School / Educational	[X] – as detailed below	[] (Name):
Healthcare (not emergency)	[X] – as detailed below	[] (Name):
Name Changes for the children		[X] Veronika Goodnight, as detailed below
Other: Childcare	[X]	[] (Name):
Other: Extracurricular activities	[X]	[] (Name):
Other: Driving/insurance	[X]	[] (Name):
Other: cell phones / phone plan	[X]	[] (Name):
Other: Marriage before 18	[X]	[] (Name):
Other: tattoos/piercings	[X]	[] (Name):

*As detailed below, Mr. Ralidak will have the right to take the children to a pediatrician of his choice if he deems it necessary without Mother's permission but will notify Mother when he does so.

b. Reasons for limits on major decision-making, if any:

The Court incorporates the findings and conclusions detailed in the "Order of the Court: Supplemental Findings and Conclusions" entered separately today.

In summary, the Court finds the parties have had considerable disputes regarding school attendance and the children's healthcare that have resulted in detrimental outcomes for the children and now require detailed provisions in this parenting plan. The parties also require clarity on whether/how they may proceed with

contemplated name changes for the children. See detailed provisions listed below.

6. Dispute Resolution

Important! After this parenting plan is signed by a judge or commissioner, if you and the other parent disagree about shared decisions or what parts of this plan mean, the court may require you to use a dispute resolution provider before going back to court. The court may only require a dispute resolution provider if there are **no** limitations in **3.a.** above. If a dispute resolution provider is checked below, the parents may, and sometimes must, use this provider before filing a Petition to Change a Parenting Plan or a Motion for Contempt for not following the plan. Check your county's Local Court Rules.

a. The parents will go to:

The dispute resolution provider below (before they may go to court):

Any mediator or dispute resolution provider agreed upon by the parties, including but not limited to: Dispute Resolution Center of King County.

If a dispute resolution provider is not named above or if the named provider is no longer available, the parents may agree on a provider in writing or ask the court to name one.

Important! Unless there is an emergency, the parents must participate in the dispute resolution process listed above in good faith, before going to court for disagreements about joint decisions or what parts of this plan mean. This section does **not** apply to disagreements about money or support.

b. If mediation, arbitration, or counseling is required, one parent must notify the other parent by via the parenting app, Talking Parents.

The parents will pay for the mediation, arbitration, or counseling services as follows: based on each parents' Proportional Share of Income (percentage) from line 6 of the *Child Support Worksheet*.

What to expect in the dispute resolution process:

- Preference shall be given to carrying out the parenting plan.
- If you reach an agreement, it must be put into writing, signed, and both parents must get a copy.
- If the court finds that you have used or frustrated the dispute resolution process without a good reason, the court can order you to pay financial sanctions (penalties) including the other parent's legal fees.
- You may go back to court if the dispute resolution process doesn't solve the disagreement or if you disagree with the arbitrator's decision.

7. Custodian

The custodian is (*name*): Veronika Goodnight solely for the purpose of all state and federal statutes which require a designation or determination of custody. Even though one parent is called the custodian, this does not change the parenting rights and responsibilities described in this plan.

(Washington law generally refers to parenting time and decision-making, rather than custody. However, some state and federal laws require that one person be named the custodian. The custodian is the person with whom the children are scheduled to reside a majority of their time.)

➤ **Parenting Time Schedule (Residential Provisions)**

Complete the parenting time schedule in sections **8 – 11**.

8. School Schedule

a. Children under school-age

Does not apply. All children are school-age.

b. School-age children

This schedule will apply immediately.

- The children shall alternate weeks with each parent following a one-week-on/one-week-off schedule.
 - o Exchanges shall occur on Fridays at release from school, or 3pm on days when the children are not in school (such as holiday, snow day, home sick, or for any other reason ... etc.).
 - o Pick up and drop off will be at school.
- Except that to accommodate the children's emotional, academic, and physical health-related needs, each parent will have a mid-week visit, to occur on Wednesday from end of school day or 3pm when school is not in session, until 7pm.
 - o The parents may, by mutual agreement, change the mid-week visit to an alternate day.
 - o Provided that if one parent does not agree in writing, the mid-week visit must occur as stated above.
- Any deviation from this schedule must be agreed upon by both parents in writing.

9. Summer Schedule

The Summer Schedule is the **same** as the School Schedule **except** that each parent shall be entitled to two weeks of uninterrupted vacation time with the children each summer. The parents shall confirm their vacation schedules in writing by the end of April each year. *(Skip to **10**.)* In the event of a conflict in vacations schedules, the Mother's vacation schedule will have priority in the odd years, and the Father's in the even years. If the parent with the priority does not submit their vacation schedule by April 30, will still be able to exercise their two weeks of uninterrupted time, but will lose their priority in the event of a scheduling conflict.

The parties are encouraged to work together and confirm dates earlier than the schedule requires, particularly if the children intend to participate in summer camps, as doing so is in the best interests of the children.

10. Holiday Schedule (includes school breaks and special occasions)

The children are scheduled to spend holidays, school breaks, and special occasions as follows:

Note any differences for children who have not yet started school.

Martin Luther King Jr. Day –

With the parent who has the children for the attached weekend.

Presidents' Day –

With the parent who has the children for the attached weekend.

Mid-winter Break –

Other plan: Whomever has the child on the attached weekend if it is not a full week. If the school district has a full week for mid-Winter Break it shall begin at end of the last day of school until the day before school resumes at 5:00 pm. Father will have even years and Mother will have odd years.

Spring Break –

Other plan: Spring break is defined as the days out of school for the break beginning at 8:00 a.m. on the first day of the break (defined as the day after school lets out) and ending on the last day of the break (defined as the day before school begins) at 5:00 p.m. plus that parent's normal weekend residential schedule. Father will have spring break in odd years and will have spring break in even years.

Mother's Day – Begins and ends (day/time): 9:00 a.m. to 6:00 p.m.

Every year with Veronika Goodnight

Memorial Day –

With the parent who has the children for the attached weekend.

Father's Day – 9:00 a.m. to 6:00 p.m.

Every year with Mathew Ralidak

Fourth of July – Begins and ends (day/time): 10:00 a.m. on 7/4 to 12:00 p.m. on 7/5

Odd years with Mathew Ralidak. Even years with the other parent.

Labor Day –

With the parent who has the children for the attached weekend and defined as from pick-up from school for the normal residential time and ending at return to school after the holiday weekend.

Thanksgiving Day / Break –

Other plan: Begins after school on the Wednesday before Thanksgiving and ends 5:00 p.m. Sunday after Thanksgiving. Mother will have the odd years and Father will have the even years.

Winter Break –

Other plan: Each parent will have the children for 50% of the Winter Break.

-In odd years, Mathew Ralidak shall have the first half of winter break and Veronika Goodnight shall have the second half of winter break.

-In even years, Veronika Goodnight shall have the first half of winter break and Mathew Ralidak shall have the second half.

-The first half of winter break shall be defined as from release from school until 10:00 a.m. on December 26. The second half of winter break shall be

defined as from 10:00 a.m. on December 26 until 5:00 pm on the day before school resumes.

Christmas Eve / Day –

Follow the Winter Break schedule above.

New Year's Eve / Day –

(odd/even is based on New Year's Eve)

Follow the Winter Break schedule above.

All three-day weekends not listed elsewhere

(Federal holidays, school in-service days, etc.)

The children shall spend any unspecified holiday or non-school day with the parent who has them for the attached weekend.

Important! Families in Washington observe a broad range of religions and traditions. Your Parenting Plan can provide for how children will spend time on other significant days. (Examples: Eid, Passover, Easter, Chinese New Year, birthdays, etc.) Add lines as needed.

Other occasion important to the family:

The parties are to follow the ordinary schedule on their children's and the parents' birthdays. The Court is intentionally omitting all special provisions regarding residential time for birthdays for the following reasons.

The Court observes that in the past, Ms. Goodnight has pulled the children out of school in order to celebrate her birthday and/or the child's birthday. This is not in the best interest of the children as it has contributed to an excessive amount of school absences that have hindered at least one child's academic progress. The Court finds that the prior order set special residential provisions for birthdays, and so created an expectation that these dates were to be treated as holidays. The Court now removes these provisions and clarifies that the children should not be pulled out of school for birthday celebrations. The parties are welcome to celebrate birthdays at school (if that is permitted in the classroom) or outside school hours.

11. Conflicts in Scheduling

The Holiday Schedule must be observed over all other schedules. If there are conflicts within the Holiday Schedule (*check all that apply*):

Named holidays shall be followed before school breaks.

12. Transportation Arrangements

The children will be exchanged for parenting time (picked up and dropped off) at their school.

Who is responsible for arranging transportation?

In general, the **dropping off** parent – The parent whose parenting time is **ending** must arrange to have the children dropped off at school (or if school is not in session, then at the other parent's home).

*Exception: However, if a parent's residential time begins from the children's release from school, then the picking up parent must arrange to pick up the children from school.

13. Moving with the Chil/dren (Relocation)

Anyone with majority or substantially equal residential time (at least 45 percent) who wants to move with the children **must notify** every other person who has court-ordered time with the children.

Move to a different school district

If the move is to a different school district, the relocating person must complete the form *Notice of Intent to Move with Children* (FL Relocate 701) and deliver it at least **60 days** before the intended move.

Exceptions:

- If the relocating person could not reasonably have known enough information to complete the form in time to give 60 days' notice, they must give notice within **5 days** after learning the information.
- If the relocating person is relocating to a domestic violence shelter or moving to avoid a clear, immediate, and unreasonable risk to health or safety, notice may be delayed **21 days**.
- If information is protected under a court order or the address confidentiality program, it may be withheld from the notice.
- A relocating person who believes that giving notice would put themselves or a child at unreasonable risk of harm, may ask the court for permission to leave things out of the notice or to be allowed to move without giving notice. Use form *Motion to Limit Notice of Intent to Move with Children (Ex Parte)* (FL Relocate 702).

The *Notice of Intent to Move with Children* can be delivered by having someone personally serve the other party or by any form of mail that requires a return receipt.

If the relocating person wants to change the *Parenting Plan* because of the move, they must deliver a proposed *Parenting Plan* together with the *Notice*.

Move within the same school district

If the move is within the *same* school district, the relocating person still has to let the other parent know. However, the notice does not have to be served personally or by mail with a return receipt. Notice to the other party can be made in any reasonable way. No specific form is required.

Warning! If you do not notify...

A relocating person who does not give the required notice may be found in contempt of court. If that happens, the court can impose sanctions. Sanctions can include requiring the relocating person to bring the children back if the move has already happened, and ordering the relocating person to pay the other side's costs and lawyer's fees.

Right to object

A person who has court-ordered time with the children can object to a move to a different school district and/or to the relocating person's proposed *Parenting Plan*. If the move is within the same school district, the other party doesn't have the right to object to the move, but they may ask to change the *Parenting Plan* if there are adequate reasons under the modification law (RCW 26.09.260).

An objection is made by filing the *Objection about Moving with Children and Petition about Changing a Parenting/Custody Order (Relocation)* (form FL Relocate 721). File your *Objection* with the court and serve a copy on the relocating person and anyone else who has court-ordered time with the children. Service of the *Objection* must be by personal service or by mailing a copy to each person by any form of mail that requires a return receipt. The *Objection* must be filed and served no later than **30 days** after the *Notice of Intent to Move with Children* was received.

Right to move

During the 30 days after the *Notice* was served, the relocating person may not move to a different school district with the children unless they have a court order allowing the move.

After the 30 days, if no *Objection* is filed, the relocating person may move with the children without getting a court order allowing the move.

After the 30 days, if an *Objection* has been filed, the relocating person may move with the children **pending** the final hearing on the *Objection* **unless**:

- The other party gets a court order saying the children cannot move, or
- The other party has scheduled a hearing to take place no more than 15 days after the date the *Objection* was served on the relocating person. (However, the relocating person may ask the court for an order allowing the move even though a hearing is pending if the relocating person believes that they or a child is at unreasonable risk of harm.)

The court may make a different decision about the move at a final hearing on the *Objection*.

Parenting Plan after move

If the relocating person served a proposed *Parenting Plan* with the *Notice*, **and** if no *Objection* is filed within 30 days after the *Notice* was served (or if the parties agree):

- Both parties may follow that proposed plan without being held in contempt of the *Parenting Plan* that was in place before the move. However, the proposed plan cannot be enforced by contempt unless it has been approved by a court.
- Either party may ask the court to approve the proposed plan. Use form *Ex Parte Motion for Final Order Changing Parenting Plan – No Objection to Moving with Children* (FL Relocate 706).

Forms

You can find forms about moving with children at:

- The Washington State Courts' website: www.courts.wa.gov/forms,
- Washington LawHelp: www.washingtonlawhelp.org, or
- The Superior Court Clerk's office or county law library (for a fee).

(This is a summary of the law. The complete law is in RCW 26.09.430 through 26.09.480.)

14. Other

Co-Parenting App. Both parents will utilize a co-parenting app, currently Talking Parents, for all communication regarding the children. Each parent will cover their own costs for

the app. The parents may choose to change the co-parenting app, upon agreement of the parties in writing. If they cannot agree, then they will continue use of Talking Parents.

- Parents must use TalkingParents or another mutually agreed upon parenting app for all communications regarding the children (medical, school related, scheduling ...etc.), unless truly urgent.

Decision-Making Protocol Via App.

- If a parent has a question for another parent, they must first read all pending messages in the app before sending an urgent query via text message.
 - o Parents must refrain from involving the other parents' partner in any communications, absent an emergency situation (such as potential imminent hospitalization of the child).
- Both parents are responsible for checking the communication app at least once every 48 hours, and for remaining current on all communications.
- Parents must abide by the following protocol with respect to any decision that is joint decision-making:
 - o A parent who proposes a course of action must communicate the proposed decision via the App.
 - o A parent has 48 hours to agree, object, or request additional information.
 - If the parent has access to the additional information, they must respond within 24 hours to either (a) provide the information, if they have it, (b) provide the contact information of the party who does have the information, if it is known, or (c) explain that they do not have the information and do not know who has the information.
 - The other parent then has 24 hours to respond with an agreement, objection, or alternative proposal.
 - o If one party fails to respond within 48 hours, the other parent may proceed with their proposed course of action.
 - o While one party is waiting for another party's response, they may book an appointment or take action to secure a child's place, but may not commit to any course of action or obligate the other parent regarding their time or financial responsibilities.
 - o **However, where the protocol stated above is inconsistent with the specific healthcare provisions detailed below, the specific healthcare provisions control.

Decision-Making Healthcare Provisions.

- Mr. Ralidak may select a medical doctor / pediatrician for the children to see for annual exams, and pursue any course of action recommended by the pediatrician.
 - o Mr. Ralidak may raise any general concerns he has about the children's mental or physical health at these appointments.
 - o If Ms. Goodnight wishes to attend these appointments, she may do so, and Mr. Ralidak must coordinate with her schedule to enable her to do so (provided that she must make herself reasonably available so as not to delay the appointment more than 2 weeks).
 - o Mr. Ralidak may pursue and schedule any evaluations which the pediatrician recommends at these appointments. (For example, if after

- Mr. Ralidak raises his concerns, the pediatrician recommends evaluations for ADHD, Mr. Ralidak may pursue assessments for the children.)
- Mr. Ralidak may have the children receive all vaccinations recommended by the pediatrician (even over Ms. Goodnight's objection), provided the following is adhered to:
 - o The pediatrician must be provided with, and must consider, any information Ms. Goodnight wishes to present, including but not limited to information regarding any family medical history of allergies, medical conditions, or adverse reactions to any vaccinations or medications.
 - o If after such information is presented, the pediatrician continues to recommend the vaccinations, Mr. Ralidak's consent to those vaccinations will be legally sufficient, even over Ms. Goodnight's objections.
 - o Mr. Ralidak must work with the pediatrician to spread out the vaccinations to a reasonable degree. Ms. Goodnight must be consulted in this regard. (For example, Ms. Goodnight stated that she and the naturopathic doctor previously discussed a schedule to get the children caught up on vaccinations. If she has such a schedule, it must be presented to the pediatrician and considered, and adopted if the pediatrician finds it is reasonable.)
 - o Mr. Ralidak must inform Ms. Goodnight of the final vaccination schedule so that she can take steps to mitigate any side effects, and plan vacations, extracurriculars, and other events accordingly.

Decision-Making re: Name Change.

- The Court finds Ms. Goodnight's efforts to change her children's name to include both her and Mr. Ralidak's last names, is reasonable, in good faith, and in the children's best interests.
- As discussed is the Supplemental findings, Mr. Ralidak's objections are without merit. He has no valid interest that will be harmed by the hyphenation of his children's last names to include both his name and Ms. Goodnight's name.
- The Court assigns to Ms. Goodnight sole decision-making authority to petition to change the children's last names to "Goodnight-Ralidak."
 - o Any other name-change petition initiated by either parent must be jointly agreed upon or made according to the joint decision-making protocol (unless a legal exception to notice requirements applies as a result of gender expression, domestic violence, or other safety-related concern).
 - o If either parent changes the children's names, the must provide notice to the other party both before the hearing, so that the other parent may attend, and after the hearing so that the other parent may know the result (again, unless a legal exception to notice requirements applies as a result of gender expression, domestic violence, or other safety-related concern).
 - o Nothing in this provision eliminates the ability of the children to initiate any name change petition on their own behalf when they are old enough under the law to do so.

Values and Beliefs: The Court recognizes that the parents have very different values and beliefs from one another. Either parent may involve their children during their residential time in activities that are in line with the parent's own values and beliefs (including religious, political, ... etc.), either for or against. A parent may not object to the child's attendance at any events with the other parent (or with that parent's approval), merely on the basis of the activity being inconsistent with the first parent's beliefs or values.

Consistency. The residential arrangements defined above are provided for in the best interests of the child. The child's interests are best served by a full and regular pattern of contact with both parents, responsiveness and cooperation by both parents, involvement by both parents in all aspects of the child's needs and a reasonably consistent routine of activities, values, and discipline throughout both homes. Absence, inconsistency, and conflict are opposed to the best interests of the child.

Communication with Parents.

- Parents must make their child reasonably available to the other parent for texts, phone, and video calls.
- Reasonably available means, at a minimum, the following:
 - o The children must be available for a brief (5 minute) video call before any important event (such as testing, sporting events, performances ... etc.) and before bedtime each night. This is particularly important for the youngest child, but is a requirement for all three children.
 - o The children must each be available for a 20-minute video call (separately or together, at the residential parents' preference) at least twice per week with the non-residential parent. One call must occur prior to the scheduled date of the mid-week visit, and one must occur after (regardless of whether the mid-week visit is cancelled).
 - o All communications must be unmonitored, meaning the residential parent may not listen in, and must leave the room, or if outside must walk out of hearing distance from the phone, for the duration of the call.
- However, there is an exception for if the children are traveling and do not have access to communications. In such case, the residential parent must make an effort to make the children available for a 20-minute call or communication at least once per week. If that will not be possible (due to camping or in an area that is not accessible to internet), the parent is required to notify the other parent at least one week in advance. Being busy or merely traveling is not sufficient to cancel the required calls; there must be a genuine lack of access to communications.
- The children must be available to receive text messages from the non-residential parent at all times, and must be permitted to initiate texts, phone calls, or video calls with the other parent at any time, except that a parent may reasonably restrict the child's access to a communication device when the child is engaged in meals, bedtime, school, scheduled extracurricular activities, or other organized activity (i.e. religious functions, organized family functions ...etc.).

Activities. Each parent shall have the right and responsibility to ensure that the child attends school and other scheduled activities while in that parent's care. Activities shall not be scheduled to unreasonably interfere with the other parent's residential time with the child without prior agreement of the parent. Activities that fall solely on one parent's time may be scheduled without the other parent's agreement, but both parents shall have the right to participate.

Change of Address. Each parent shall provide the other with the address and phone number of his or her residence, and email, and shall update such information promptly whenever it changes.

Affections. Each parent agrees to exert every reasonable effort to maintain free access and unhampered contact and communication between the child and the other parent,

and to promote the emotions of affection, love and respect between them and the other parent.

Enrichment Activities. Each parent shall be responsible for keeping themselves advised of athletic and social events in which the child participates. Both parents may participate in school and extracurricular activities for the child regardless of the residential schedule.

Children's Welfare. Each parent shall provide the other parent promptly with receipt of any significant information regarding the welfare of the child including physical and mental health, performance in school, extracurricular activities, etc.

Residential Absence. Each parent shall inform the other when that parent plans to be away from his or her residence with the child for more than two nights. The information to be provided shall include duration of the time away, the destination address(es), and contact phone numbers.

Child's Involvement. Neither parent shall ask the child to make decisions or requests involving the residential schedule. Neither parent shall discuss the residential schedule with the child except for plans, which have already been agreed to by both parents in advance, except to ascertain the child's general interest in the activity/proposed event. Neither parent shall advise the child of the status of child support payments or other legal matters regarding the parents' relationship, parenting, or other issues. Neither parent shall use the child, directly or indirectly, to gather information about the other parent or take verbal messages to the other parent.

Derogatory Comments. Neither parent shall make derogatory comments about the other parent or allow anyone else to do the same in the child's presence. Neither parent shall allow or encourage the child to make derogatory comments about the other parent. Each parent is charged with the duty to protect their children.

Social Media and Allegedly Unsafe Individuals:

- The Court incorporates its oral ruling, as stated at the close of the trial on 06/04/2024 with respect to parents' communications on social media, with other parties, and parents' decisions to involve other individuals in their children's lives.
- The Court finds that many of the restrictions requested tread close to, if not over, the line regarding the parents' freedom of association and freedom of speech and expression.
- In summary, the Court does not find that any particular individual discussed by the parents presents a significant threat of harm to the children. The Court will not, at this time, order the parents to keep any particular individual away from the children, merely because of an alleged history of mental health concerns or instability. Many individuals with a history of, or even presently expressing, mental health concerns are safe, loving, kind individuals who can have an enormously positive influence on children. Other individuals with mental health concerns are emotionally damaging to the children they are around. It is a very fact-specific inquiry, and the Court does not at present have sufficient information to find the individual(s) discussed by the parents are potentially harmful. The Court does however, urge both parents to be thoughtful about who they expose their children to, and to consider the children's best interests.

- Regarding the requested restrictions on the parents' social media communications, the Court finds that ordering the parents not to talk to their social contacts online regarding the other parent amounts to an unconstitutional prior restraint. The parents' communications may cause harm, but they are entitled to express their views. The Court will not restrain the parents from expressing themselves, even if it means that their comments will be in the public view, and at some point, may be viewable by the children. The Court does caution the parents to consider their children's best interests, and consider the impact their remarks may have on the children, once the children inevitably go online and access social media themselves.
- The Court also cautioned the parents that sharing the children's information online comes with considerable risks – both to the children and as regards potential future legal liability for the parents, as laws on this matter are in flux and many jurisdictions are considering imposing fines and other penalties on parents who over-share their minor children's private information on the internet and social media platforms.

Illness of Child. In the event of serious illness of the child, which affects the residential time of the child with a parent, the parent who misses residential time as a result of the illness shall be granted additional time to compensate for any time lost. Make up time shall be taken within 14 days or deemed waived.

First Right of Refusal. Any absence that results in a parent not being able to personally supervise the children for a period of longer than 72 hours shall result in the other parent receiving the first right of refusal for childcare.

Passports. The parent travelling last shall retain possession of the passports. International travel is strictly prohibited absent written agreement of the parties which shall not be unreasonably withheld. If passports are sought, the other parent must complete all necessary paperwork and send the paperwork to the parent applying for the children's passports via certified mail within 14 days of notice via the parenting app.

Monikers for Third Party Adults. The parties are prohibited from encouraging or supporting the use of the terms "father", "daddy", "mother", "mommy" or any other derivative denoting parenthood to any other person besides Veronika and Mathew.

1 > **The Court makes the following findings of fact and conclusions of law:**

2 **3. Notice**

3 The Respondent has appeared in this case and has responded to the *Petition*.

4 **4. Jurisdiction over the children** (RCW 26.27.201 – .221, .231, .261, .271)

5 ☒ The court can approve a *Parenting Plan* because (check all that apply; if a box
6 applies to all of the children, you may write "the children" instead of listing names):

7 ☒ **Exclusive, continuing jurisdiction** – A Washington court has already made a
8 custody order or parenting plan for the children, and the court still has authority
9 to make other orders for the children.

10 ☒ **Home state jurisdiction** – Washington is the children's home state because
11 (check all that apply):

12 ☒ The children lived in Washington with a parent or someone acting as a
13 parent for at least the 6 months just before this case was filed, or if the
14 children were less than 6 months old when the case was filed, they had lived
15 in Washington with a parent or someone acting as a parent since birth.

16 ☒ The children do not have another home state.

17 Dr. Michael Oreskovich is a highly credentialed psychiatrist who was appointed to evaluate
18 the Petitioner's mental health function. Dr. Oreskovich's testimony was very credible. Matt
19 Jolly, the Parenting Evaluator, is a very experienced family law attorney, mediator, and
20 investigator. He was thorough and thoughtful and balanced in both his report and testimony.
21 It is important to note that he was not appointed as a substance abuse evaluator nor as a
22 mental health expert. Mr. Jolly's testimony was very credible.

23 Shawna Mokler, who has a MA in Addiction Studies was called upon to address evaluations
24 that SeaMar had conducted. Throughout her testimony she stayed in her lane. She was not
25 the one who did the intake or did the assessments, but when concerns were raised she
26 suggested that new evaluations occur. This increased her credibility. Monica Bonilla
27 Gonzalez, who has an MA in Social Work is Petitioner's current therapist at SeaMar, The
28 Court found persuasive as true that Ms. Mokler was acting as a counselor, not as an
29 evaluator, and thus was remaining true to her role.

30 Multiple lay witnesses testified as well including: Diani Muggli (a friend of the Petitioner's)
31 Heidi Stafford (former roommate and continued friend of the Petitioner's) and Deborah Oakes
32 (a neighborhood friend). The Court found their testimony sincere and honest.

33 Vicki Chapman, who was in the home prior to the purchase of the home, also testified and
34 her testimony underscored the difference between the two parties. When asked about her
35 impressions of the two parties Ms. Chapman testified that she found the Petitioner outgoing,
36 full of energy and appropriately pointed out that there would be the normal chaos of having
37 young children. The same witness found that the Respondent was stiff and asked a lot of
38 questions which she interpreted as arrogance. The Court does not find the Respondent

1 arrogant. The Court finds the Respondent reserved, quiet and that's the difference between
2 the two parties. The Petitioner is ebullient and vivacious, and the Respondent is reserved
and quiet. That does not make them bad people.

3 Josef Stanton's testimony regarding the potential nature of his relationship with the Petitioner
4 was contradicted by the Petitioner's testimony regarding the potential of the relationship
5 between the two of them, but this contradiction did not move the Court's needle in any
distinct way.

6 Ann Ralidak, the stepmother of the Respondent, was honest and open. Her testimony was
credible. Her perceptions are her personal opinions.

7 Amisha Zubar, a godparent to one of the children, a former confidante of the Petitioner's, and
8 a current friend of the Respondent's testified to a series of very serious allegations against
9 the Petitioner and the suicidality issue was the biggest concern for the Court. Amisha Zubar
10 testified that on 10 separate occasions the Petitioner made concerning statements. When
11 this Court inquired as to what she (Ms. Zubar) did when her best friend (at the time) said she
12 was suicidal, Ms. Zubar responded, "I told her I did not think that was a good idea." To this
Court, given the fact that Ms. Zubar does care for the children, I find it more credible that she
did not think this was an imminent suicide threat because her (Ms. Zubar's) conduct did not
comport with someone who believes children are in danger.

13 Monica Gallerneau, is the fiancé of the Respondent. The Court found her honest and
credible in her presentation.

14 The Petitioner has repeatedly been referred to as lively, vivacious, curious, friendly. The
15 word transparency was used a lot and the Court sincerely finds that her testimony was
16 sincere in her presentation; however, Mr. Jolly eloquently underscored in his testimony, that
17 he believed she was sincere but in many of her accusations there was no reasonable basis
18 for her belief. Another quote of Mr. Jolly's "her negative views are disproportionate to what
the evidence shows." There were many statements made that a very successful career was
thrown away to follow the Respondent but the Petitioner's Social Security Statement does not
support that interpretation. In 2014 the Petitioner made \$670.

19 Another example of the comments not equating to the reality of the situation regards the end
20 of the relationship. The testimony was that in the end of December 2019 the Petitioner left
21 home to stay with her friends. The Respondent had a business trip to go on a few days after
22 that and was depending on the Petitioner for childcare. The word "flee" was repeatedly used,
23 but the Court did not find that the Petitioner fled, the Court found that the Petitioner left. The
24 Petitioner testified that she fled, but there is no evidence to show any danger much less
25 lethality. The Court finds that the Petitioner left the home.

The Respondent presented as reserved and affectionate to his children and he takes
excellent care of them. On January 6, 2021, when he missed meetings due to the
Respondent's refusal to provide the children for his scheduled time, he was laid off and that
makes sense. When people do not show up for work they are fired, however he has since
been rehired by the same company. He was generally concerned for his children. His tax
returns confirm that he has not been truthful throughout the process. It underscores the fact
that both of these parties have been willing to embellish their facts when it suits their needs.

1 The parties met at a chance encounter at a club and there was a "Hollywood" moment. They
2 did not know each other or date each other. They immediately hopped into the deep end of
3 the pool. It's not a surprise that months or years later they look back on it and decided that
4 they were no longer the partners they needed. So what kept them together? The children. It
is without question that both of these parties love their children immensely. That's the only
glue that kept these people together for as long as they did.

5 The Children are better off if the parties are at peace. The court needs to consider the
6 relative strength of the relationship the children have with both parents. Both parties have a
strong relationship with the children.

7 Mr. Jolly found, through the scope of his investigation, that the children are healthy, well
8 nourished, balanced, and curious. Both parents say the other is poisoning the well, but the
9 objective evidence shows that the children are doing well. The agreement of the parties is
10 another important factor. The Respondent testified that he did not want 50/50 but for two
11 years the parties have operated in a joint residential plan. Before that the mother was caring
12 for the children while the father travelled. This Court finds that the caregiver of young
13 children in our society are not given the credit they deserve. At the height of the Petitioner's
imbalance, you have three children in diapers, whose needs are individual, one could be
hungry, one could bored children are not hungry at the same time, that is the reality of life.
The use of alcohol was inappropriate by the Petitioner, the court is satisfied that issue has
been addressed. Both parents have done parenting functions, but the majority of the day-
to-day child-rearing prior to separation in January 2020 was done by the Petitioner.

- 14
- 15 a. The relative strength, nature, and stability of the child's relationship with each
parent. Each of the parents has a solid relationship with the children.
- 16 b. The agreement of the parties. The parties had been exercising a week on/week off
17 schedule from January 2020 to the present. The Respondent stated in his notice of
18 Respondent testified that he did not want 50/50 but for two years the parties have
operated in a joint residential plan.
- 19 c. Each parent's ability to perform parenting functions. The father works from home. It
20 is expected that the mother will work outside the home in the future. It is clear that
21 the Petitioner performed the majority of the childcare responsibilities as the
22 Respondent worked outside the home. Post-separation the Petitioner has
continued to be the one to spearhead the children's educational and medical needs.
The Respondent admitted that he would need to seek outside help if he were to be
the primary parent. It is a close call as both parents can perform parenting function.
- 23 d. The emotional needs and developmental level of the child. The children are doing
24 well. The parents with very different upbringings and personalities have produced
three wonderful children.
- 25 e. The child's relationship with siblings, other important people and involvement with
their environment. The older two children are enrolled and are participating in
school. Due to COVID the father has had less of an opportunity to foster the
children's relationships with others in the Everett community, by way of COVID so
there are less opportunities to form bonds in Everett. The children are bonded to

1 their friends in Carnation and the two older children are participating in school in
2 Carnation.

3 f. The wishes of the parent or the mature child. Both parents wish that the children
4 would reside with them primarily. The children are not sufficiently mature enough to
5 weigh in on this.

6 g. Each parent's employment schedule. The Respondent is gainfully employed
7 though working remotely. The Petitioner will necessarily have to begin work in a
8 more traditional manner outside the home.

9 The Court was presented with stability factors suggesting that the Respondent was the more
10 stable of the two parents because of his housing situation. The Court found that
11 Respondent's living situation was just as tenuous as the Petitioner's as the Respondent is
12 dependent upon the continued viability of his relationship with Monica Gallerneau to maintain
13 his housing. Both parties are renting. The Petitioner has a lease and the Respondent does
14 not. Housing size is not being considered by the Court.

15 The court found this to be a close case and finds both parents to be suitable parents. .

16 **The Court is not imposing RCW 26.09.191 limitations.** The alcohol use was more of a
17 symptom of the unhappiness that this Petitioner was going through; her story is not done.
18 She will need to continue to be proactive. The evidence does not comport to the allegations
19 made and .191 restrictions are not warranted. The Petitioner has a battle plan in place, she
20 has quit using substances, quit making negative social media posts, and is pursuing healthy
21 coping mechanisms. The testimony of the experts all pointed to the Petitioner having
22 proactively dealt with her issues and to having healthy coping mechanisms in place. Monica
23 Bonilla Gonzalez testified that the Petitioner was ready to graduate from counseling and Dr.
24 Oreskovich found that the Petitioner did not suffer from any mental health or substance use
25 disorder. In an abundance of caution the Court is ordering the Petitioner to continue to
undergo 24 months of additional counseling as outlined in the Parenting Plan.

Committed Intimate Relationship. The *Pennington* Court sets out the following factors to
consider when determining whether or not a committed intimate relationship existed:
continuity of cohabitation, duration of relationship, purpose of the relationship, pooling of
resources, and intent of the parties. The parties leapt into the deep end and their
commitment was for a family. There was a sufficient period of time that these parties lived
together in a marital-like relationship.

The couple purchased a van together with a 7 year financing term, made representations to
the community that they were husband and wife, lived together continuously from 2014 –
2020, and formed a family by having three young children together. The young age of the
children and closeness in time they were born illustrates the Petitioner and the Respondent's
commitment to each other and intention to act as a community. There was an intention to
make a go of it as a community. The Court finds there was a committed intimate relationship
from August 2014 and ended in January 2020 when the Petitioner moved out.

1 The overarching premise behind the case law surrounding CIR is the recognition that there
2 should be a fair division of property. It's not mathematical preciseness. The Respondent
3 was the breadwinner and the Petitioner was the stay at home caregiver. The dynamic
necessarily made the Petitioner dependent upon the Respondent financially.

4 There was no clear evidence of any separate property being used to purchase the home.
5 The only clear evidence was the \$5,000 loan from Amisha Zubar to the community for the
6 down payment that both parties and Ms. Zubar testified to. The Respondent's testimony,
7 was not clear. He said he liquidated a 401(k) but the court cannot find a per se contribution
8 of separate property. There was no objective evidence that the Respondent used separate
9 property to purchase the home. The 401(k) statement covered a period of years and did not
10 show separate loans or dates. The house closing statement showed different numbers.

11 The \$30,000 loaned by Monica increased the house sale proceeds and that money was
12 repaid. The house sale proceeds were \$131,294.00. \$30,000 was a legitimate loan to
13 Monica, leaving the net sale proceeds at \$101,294.00. The Court finds that it would be fair
14 and equitable for a judgment for 60% of those proceeds to be given to the Petitioner. The
15 Court makes the finding that under the circumstances it is equitable for the interest rate to be
16 6%.

17 The Respondent has said that the money has been spent. At the time the original Temporary
18 Orders were put into place the Respondent was employed and the Petitioner was not. He
19 was ordered to pay \$8500 in fees which were paid from the house proceeds. Those fees
20 were not subject to reallocation. Nor was the order to pay Matt Jolly's fee subject to
21 reallocation.

22 The Respondent is responsible for the Space Coast Credit Union Van Debt associated with
23 account ending in x5621.

24 **Attorney's Fees.** The Court found that the CIR required an entire day and a half of trial,
25 solely on that issue. In regard to attorney fees, the father had to reluctantly concede there
was a CIR. The court awards attorney fees in the amount of \$6,000

☒ **Home state jurisdiction** – Washington is the children's home state because *(check all that apply)*:

☒ *(Children's names)*: Elora L. Ralidak, Aidan W. Ralidak, and Raina S. Ralidak lived in Washington with a parent or someone acting as a parent for at least the 6 months just before this case was filed, or if the children were less than 6 months old when the case was filed, they had lived in Washington with a parent or someone acting as a parent since birth.

3. Major change *(RCW 26.09.260(1) and (2))*.

☒ **Approved** – The court approves a major change to the parenting order. The major change is approved because:

- The requested change is in the children's best interest, and
- There has been a substantial change in the children's situation or in the situation of the parent who did not request the major change. *(Describe how the situation has changed, or describe a situation that the court did not know about when it made its order)*:

Father has moved from Everett to Duvall, now is less than 20 minutes away from mother's/children's home, and children's school. Initial parenting plan indicated that if either parent were to move, it would be a substantial change in circumstances warranting a change to the residential schedule. In addition, children have had health complications and struggles in school arise since the last parenting plan. See details in "Order of the Court: Supplemental Findings and Conclusions" entered today, incorporated here by reference.

Check reason/s for this change:

☒ The children's current living situation is harmful to their physical, mental, or emotional health. It would be better for the children to change the order.

4. Minor change *(RCW 26.09.260(5), (7), and (9))*.

☒ Does not apply. No one requested a minor change.

5. Restrictions on the parent with less parenting time

☒ Does not apply.

6. Other Changes *(RCW 26.09.260(10))*

☐ Does not apply.

☒ Because of a substantial change in one parent's/child's situation, the court approves changes to the following parts of the *Parenting Plan* or *Residential Schedule* that are in the children's best interest *(check all that apply)*:

☒ dispute resolution

- ☒ decision-making
☐ transportation arrangements
☒ other (*specify*): See details in "Order of the Court: Supplemental Findings and Conclusions" entered today, incorporated herein by reference.

7. Child Support

- ☒ Does not apply. No one asked to change child support.
- ☒ Other findings: Although the change to a 50/50 parenting represents a substantial change of circumstances from the previous residential schedule wherein the children resided primarily with the Petitioner Ms. Goodnight, neither party presented the Court with updated financial information at the modification trial, and Mr. Ralidak's petition to modify the parenting plan specifically stated "Child Support ... No request. I am not asking the court to adjust or change child support." "Petition to Change a Parenting Plan or Other Custody Order," p. 3 (filed 06/15/2023). As the result, the Court is not modifying the child support.
- The Child Support Order entered 03/03/2022 is MAINTAINED.

8. Protection Order

- ☒ Does not apply. No one requested a *Protection Order* in this case.

9. Restraining Order

- ☒ Does not apply. No one requested a *Restraining Order* in this case.

10. Other Findings (if any)

See "Court Order: Supplemental Findings and Conclusions" entered today, incorporated herein by reference.

➤ **Court Orders**

11. Decision (*check all that apply*):

- ☒ **Approved** – The court approves the *Petition*. All temporary orders are ended. The court signed the following orders filed separately today.
- ☒ *Parenting Plan/Residential Schedule*

Goodnight Ralidak Children

RCW 13.50.100

Date Thu 2/6/2025 7:51 AM

To Jacqueline Smith <smithjac@rsd407.org>

Cc Mathew Ralidak <mralidak@gmail.com>

Hi Jacqueline,

I hope this email finds you well!!

I am looking for some help and am hopeful that you could point me in the right direction of who I need to speak with or if this is feasible.

During the mid week visit yesterday, the children shared that they are not being fed much while they are with their mother. This has been a concern for a good while, but the problem was exacerbated this week due to the snow and the kiddos lack of school meals. They came to Mat hungry. Elora mentioned that she has asked her mom about picking up power packs from school, but Veronika won't allow it due to her feeling that they are not nutritious.

This is where I am looking for help. Is there a way that I could create some kind of grocery box for them with foods we know Veronika would take, and have the school give this to the kids? In a perfect world we could do this directly ourselves, but we do not live in such a world. In fact, it would need to be concealed that these groceries were coming from us. My biggest concern is what will happen over the summer when the kids are not in school, I can supply the food, I just need a way that the kids can get it without Veronika taking it from them (which she would if she knew it was from us).

I apologize if this is an inappropriate ask. We are simply desperate and the kids are hungry.

NARRATIVE

On April 4, 2025, I was dispatched at 1445 hours for a reported DV threats call at Carnation Elementary School, 4950 Told Ave.

RP-1 Matthew Ralidak and S-1 Veronika Goodnight are divorced. Ralidak and Goodnight have three children in common, V-1 Raina Goodnight-Ralidak (6 yrs old), O-2 Elora Goodnight-Ralidak (8 yrs old), O-3 Aidan Goodnight-Ralidak (10 yrs old).

O-4 Colin Derieg and Goodnight are currently dating.

O-6 Monica Galarneau and Ralidak are currently married.

O-5 Michelle Frank is the current principal for Carnation Elementary.

Ralidak informed me of the following:

He currently has a tense relationship with Goodnight. They currently share their children 50/50 according to their parenting plan. Ralidak informed me that there is an open CPS case involving Goodnight, a man she is living with, and RGR. Ralidak stated that according to RGR, Goodnight was making her kiss this man. Ralidak did not have any other information about this CPS case.

While waiting, in his car, in line to pick up his children from school. At approximately 1358 hours Goodnight approached Ralidak's car and started yelling at him. Goodnight was accusing Ralidak of calling CPS on her. Goodnight continued yelling and asking Ralidak questions about the children and Goodnight's new living arrangements. At some point Ralidak noticed Derieg standing beside his car staring at him. Goodnight then went into the school office and back out toward Ralidak's car. During this time Ralidak had called into the school's office and told the principal, Frank, and another administrator about the odd behavior and scene Goodnight was making.

Frank then came outside to speak with Goodnight. At approximately 1412 hours Goodnight and Derieg got into a maroon Chevy Silverado and left the school parking lot. Ralidak clarified that no threats were ever made by Goodnight or Derieg. Ralidak stated he felt intimidated by Derieg standing outside his car staring at him. While sharing the details of this incident Ralidak seemed visibly shaken and needed to take breaks, while talking with me, to hold back tears. All three children were not present during this incident.

As I was leaving Ralidak showed me a text from Galarneau, who currently had all three children. Galarneau said that all three children had told her that Goodnight had slapped RGR and slammed her against a wall. Ralidak thought this might be retaliation because RGR had planned to tell Goodnight she no longer wanted to live with her.

Ralidak did not mention any marks or bruises on RGR when he had seen her at the school pickup. The text from Galarneau did not describe any injuries on RGR. Ralidak and Galarneau have all three children over the weekend.

Ralidak said he is worried for his children's safety and wasn't sure what to do. I gave Ralidak the case number and informed him that he should get in touch with a lawyer and ask about getting a protection order if he is feeling this way.

Frank had informed me of the following:

The office had received a call from Ralidak, so Frank and another administrator had gone outside to see what was going on. Frank spoke with Goodnight and told her "This isn't the place", in reference to not handling parenting issues on school grounds. Frank stated this is not the first time that Goodnight has caused a commotion or interrupted the children's learning process.

Frank then informed me that RGR had told her 1st grade teacher that her mother, Goodnight, had slapped her so hard she was thrown into the wall. Frank stated the teacher was in the process of reporting this incident to CPS.

I reviewed footage taken by Ralidak and the school security footage. The footage showed Goodnight approaching Ralidak’s car. Then it looked like Goodnight had started yelling at Ralidak. It then showed Derieg standing a few feet away from the vehicle, staring inside. It did not appear that Derieg or Goodnight made any threatening gestures. Ralidak remained in his car during the entire incident. There was no audio to the footage.

I sent Ralidak an evidence.com link to upload the footage he has and a screenshot of texts about the slapping incident. Ralidak is also in the process of obtaining the school's security camera footage.

Body worn camera was activated and footage uploaded to evidence.com.

I determined there was no crime that occurred between Ralidak and Goodnight.

CPS has been forwarded the case.

EXHIBIT B1: CPS Investigation Analysis

Case: Washington Medical Commission Complaint - Anjali D'Souza, MA, LMHCA, MHP

Document Type: CPS Closure Analysis

Date: May 22, 2025

Summary

Analysis of CPS/DCYF case closure patterns demonstrating rapid closure without investigation, supporting allegations of false reporting based on unverified information from therapy sessions.

Key Findings

1. **Rapid Closure Pattern:** CPS cases closed without interviewing Kit despite joint custody
2. **No Investigation Conducted:** Cases marked as unfounded without proper investigation
3. **Pattern of False Reports:** Multiple reports coinciding with court hearings
4. **Failure to Interview Parent:** Despite joint legal custody and decision-making rights

Professional Impact

These closure patterns support the WMC complaint allegations that Ms. D'Souza filed CPS reports based on unverified information, contributing to weaponization of protective services during custody proceedings.

EXHIBIT C1: Original WMC Complaint Email

From: KiT Spins (kit@kitspins.com)

Date: August 11, 2025

Subject: Portal down: Formal Complaint – Anjali D’Souza, MA, LMHCA, MHP – Compass Health

Dear [Department of Health Intake or Investigator],

I am submitting a formal complaint regarding Anjali D’Souza, MA, LMHCA, MHP, a clinician with Compass Health, for serious ethical violations, disregard of court orders, and actions detrimental to my child’s safety, wellbeing, and family relationships.

Summary of Concerns:

1. False CPS Reports Based on Hearsay Ms. D’Souza filed multiple CPS reports based entirely on statements from my child’s father, without verifying facts or contacting me, despite my joint legal custody and decision-making rights. The allegations were false, so much so that CPS closed the cases without interviewing me or conducting an investigation. These actions weaponized CPS against me during an ongoing high-conflict custody matter.

2. Failure to Protect Child from Known Abuser My child, Elora, began therapy following sexual abuse by another child at her church. The primary goal of treatment was to address this trauma and provide safety. Despite this, Ms. D’Souza allowed Elora to continue weekly church attendance where the abuser was present, with no protective plan in place for months. Elora eventually resumed contact and play with the child who abused her, directly undermining the purpose of therapy and retraumatizing her.

3. Violation of Parenting Plan and Court Orders On multiple occasions, I sent written requests to pause therapy during active custody litigation to prevent further conflict and ensure compliance with our parenting plan, which requires joint consent for medical and mental health treatment. Ms. D’Souza disregarded my written notice and continued therapy without my consent, aligning with my co-parent’s wishes in violation of my legal rights. This mirrors the pattern of misconduct I have reported regarding Larch Counseling.

4. Direct Harm to Parent-Child Relationship Ms. D’Souza’s lack of communication and reliance on false information from my co-parent directly contributed to the breakdown of my relationship with my children. My children’s father, Mathew Ralidak, has used her therapy notes — which contain fabricated and inaccurate statements — to make false accusations in court. This has resulted in a separation of over 130 days where I have been denied contact with my children, in violation of our parenting plan and court orders.

Had Ms. D'Souza communicated with me about concerns or allegations, these issues could have been addressed collaboratively as a family. Instead, her actions have caused unnecessary emotional trauma, enabled ongoing parental alienation, and inflicted serious harm on my children.

Harm Caused:

These actions have: - Undermined my legal parental authority - Enabled ongoing parental alienation and separation from my children - Negatively impacted my children's safety, trust, and emotional wellbeing - Caused significant, avoidable emotional trauma to our family unit

Supporting Evidence:

I have attached (or will attach, once portal is functioning) the following exhibits:
- Copies of therapy notes and letters from Compass Health - CPS closure documentation - Emails showing my requests to pause services - Parenting plan excerpts confirming my joint decision-making authority - Court orders showing my right to contact my children

Given the severity of these actions and the risk of continued harm, I request that the Department of Health investigate Ms. D'Souza for ethical and professional misconduct, potential violation of Washington Administrative Code (WAC) standards for licensed counselors, and failure to comply with state law regarding parental consent in mental health treatment.

Thank you for your attention to this matter. Please confirm receipt of this complaint and advise on next steps.

Sincerely,

Veronika Goodnight 10323 Friar Creek rd Monroe WA 98272 (805)895-0509

EXHIBIT C2: Evidence Request Email

From: KiT Spins (kit@kitspins.com)

Date: August 12, 2025

Subject: Fwd: Portal down: Formal Complaint – Anjali D’Souza, MA, LMHCA, MHP – Compass Health

Email Content:

Remember the therapy notes about me “white knuckling” a knife? I know they are in the many mat documents I have but I’m at sunflowers and don’t think I have those therapy notes from Anjali.

I need those and the rest of the list in an easy pdf like you did for Larch.

I appreciate you and Tia.

Sent from my iPhone

Context:

This email represents Kit’s specific request for evidence compilation, including:

1. **“White knuckling” therapy notes** - Critical evidence showing inappropriate language coaching
2. **“The rest of the list”** - Referring to the five evidence categories from her formal WMC complaint:
 - Therapy notes and letters from Compass Health
 - CPS closure documentation
 - Emails showing requests to pause services
 - Parenting plan excerpts confirming joint decision-making authority
 - Court orders showing right to contact children
3. **Format Request** - “Easy pdf like you did for Larch” - Professional compilation for regulatory submission

This request initiated the evidence package compilation process that resulted in the current submission to the Washington Medical Commission.

4. Limitations on a parent

☐ Does not apply. There are no reasons for limitations checked in **3.a. or 3.b.** above.
(Skip to **5.**)

☒ **No limitations despite reasons** (explain why there are no limitations on a parent even though there are reasons for limitations checked in **3a. or 3.b.** above): Our children deserve time with their father, and father should not be allowed to make decisions based on the conflict that he ensues.

☐ **The following limits or conditions apply to** (parent's name): _____
(check all that apply):

☐ No contact with the children.

☐ Limited contact as shown in the Parenting Time Schedule (sections **8 – 11**) below.

☐ Limited contact as follows (specify schedule, list all contact here **instead** of in a Parenting Time Schedule, skip sections **8 – 11**): _____

☐ **Supervised contact.** All parenting time shall be supervised. Any costs of supervision must be paid by (name): _____

The supervisor shall be:

☐ a professional supervisor (name): _____

☐ a non-professional supervisor (name): _____

The dates and times of supervised contact will be:

☐ as shown in the Parenting Time Schedule (sections **8 – 11**) below.

☐ as follows (specify): _____

(Specific rules for supervision, if any): _____

☐ Other limitations or conditions during parenting time (specify): _____

☐ as recommended by the evaluation.

☐ as follows (specify kind of treatment and any other details): _____

☐ provide a copy of the evaluation and compliance reports (specify details): _____

If this parent does not follow the evaluation or treatment requirements above, then
(what happens): _____

5. Decision-making

When the children are with you, you are responsible for them. You can make day-to-day decisions for the children when they are with you, including decisions about safety and emergency health care. Major decisions must be made as follows.

a. Who can make major decisions about the children?

Type of Major Decision	Joint (parents make these decisions together)	Limited (only the parent named below has authority to make these decisions)
School / Educational	<input type="checkbox"/>	<input checked="" type="checkbox"/> (Name): <u>Veronika Coodnight</u>
Health care (not emergency)	<input type="checkbox"/>	<input checked="" type="checkbox"/> (Name): <u>Veronika Coodnight</u>
* Other: <u>Childcare</u>	<input checked="" type="checkbox"/>	<input type="checkbox"/> (Name): _____
Other: <u>Therapy</u>	<input type="checkbox"/>	<input checked="" type="checkbox"/> (Name): <u>Veronika Coodnight</u>
* Other: <u>Extracurricular Activities</u>	<input checked="" type="checkbox"/>	<input type="checkbox"/> (Name): _____

b. Reasons for limits on major decision-making, if any: * Based on own residential time.

- ☐ There are no reasons to limit major decision-making.
- ☐ Major decision-making **must** be limited because one of the parents has problems as described in **3.a.** above.
- ☒ Major decision-making **should** be limited because (check all that apply):
- ☐ Both parents are against shared decision-making.
- ☒ One of the parents does not want to share decision-making and this is reasonable because of:
- ☒ problems as described in **3.b.** above.
 - ☒ the history of each parent's participation in decision-making.
 - ☒ the parents' ability and desire to cooperate with each other in decision-making.
 - ☐ the distance between the parents' homes makes it hard to make timely decisions together.

6. Dispute Resolution – If you and the other parent disagree:

From time to time, the parents may have disagreements about shared decisions or about what parts of this parenting plan mean. To solve disagreements about this parenting plan, the parents will go to a dispute resolution provider or court. The court may only require a dispute resolution provider if there are no limitations in **3a.**

a. The parents will go to (check one):

- ☐ The dispute resolution provider below (before they may go to court):
- ☐ Mediation (mediator or agency name): _____

If there are domestic violence issues, you may only use mediation if the victim asks for mediation, mediation is a good fit for the situation, and the victim can bring a support person to mediation.

☒ Arbitration (arbitrator or agency name): Michael Louden

☐ Counseling (counselor or agency name): _____

If a dispute resolution provider is not named above, or if the named provider is no longer available, the parents may agree on a provider or ask the court to name one.

Important! Unless there is an emergency, the parents must participate in the dispute resolution process listed above in good faith, before going to court. This section does **not** apply to disagreements about money or support.

☐ Court (without having to go to mediation, arbitration, or counseling).

(If you check this box, skip to section **7** below, do not fill out **6,b.**)

- b. If mediation, arbitration, or counseling is required, one parent must notify the other parent by (check one): ☐ certified mail ☒ other (specify): Talking Parents

The parents will pay for the mediation, arbitration, or counseling services as follows (check one):

☒ (Name): Mathew Palidak will pay 100 %, (Name): _____ will pay _____ %.

☐ based on each parents' Proportional Share of Income (percentage) from line 6 of the Child Support Worksheet.

☒ as decided through the dispute resolution process.

What to expect in the dispute resolution process:

- Preference shall be given to carrying out the parenting plan.
- If you reach an agreement, it must be put into writing, signed, and both parents must get a copy.
- If the court finds that you have used or frustrated the dispute resolution process without a good reason, the court can order you to pay financial sanctions (penalties) including the other parent's legal fees.
- You may go back to court if the dispute resolution process doesn't solve the disagreement or if you disagree with the arbitrator's decision.

7. Custodian

The custodian is (name): Veronika Goodnight solely for the purpose of all state and federal statutes which require a designation or determination of custody. Even though one parent is called the custodian, this does not change the parenting rights and responsibilities described in this plan.

(Washington law generally refers to parenting time and decision-making, rather than custody. However, some state and federal laws require that one person be named the custodian. The custodian is the person with whom the children are scheduled to reside a majority of their time.)

➤ **Parenting Time Schedule (Residential Provisions)**

11. Conflicts in Scheduling

The Holiday Schedule must be observed over all other schedules. If there are conflicts within the Holiday Schedule (*check all that apply*):

- ☒ Named holidays shall be followed before school breaks.
- ☐ Children's birthdays shall be followed before named holidays and school breaks.
- ☐ Other (*specify*): _____

12. Transportation Arrangements

The children will be exchanged for parenting time (picked up and dropped off) at:

- ☐ each parent's home
- ☐ school or day care when in session
- ☒ other location (*specify*): Carnation Elementary

Who is responsible for arranging transportation?

- ☐ The **picking up** parent – The parent who is about to **start** parenting time with the children must arrange to have the children picked up.
- ☒ The **dropping off** parent – The parent whose parenting time is **ending** must arrange to have the children dropped off.

Other details (if any): _____

13. Moving with the Children (Relocation)

If the person with whom the children are scheduled to reside a majority of their time plans to move (relocating person), s/he **must notify** every person who has court-ordered time with the children.

Move to a different school district

If the move is to a different school district, the relocating person must complete the form *Notice of Intent to Move with Children* (FL Relocate 701) and deliver it at least **60 days** before the intended move.

Exceptions:

- If the relocating person could not reasonably have known enough information to complete the form in time to give 60 days' notice, s/he must give notice within **5 days** after learning the information.
- If the relocating person is relocating to a domestic violence shelter or moving to avoid a clear, immediate and unreasonable risk to health or safety, notice may be delayed **21 days**.
- If information is protected under a court order or the address confidentiality program, it may be withheld from the notice.
- A relocating person who believes that giving notice would put her/himself or a child at unreasonable risk of harm, may ask the court for permission to leave things out of

the notice or to be allowed to move without giving notice. Use form *Motion to Limit Notice of Intent to Move with Children (Ex Parte)* (FL Relocate 702).

The *Notice of Intent to Move with Children* can be delivered by having someone personally serve the other party or by any form of mail that requires a return receipt.

If the relocating person wants to change the *Parenting Plan* because of the move, s/he must deliver a proposed *Parenting Plan* together with the *Notice*.

Move within the same school district

If the move is within the *same* school district, the relocating person still has to let the other parent know. However, the notice does not have to be served personally or by mail with a return receipt. Notice to the other party can be made in any reasonable way. No specific form is required.

Warning! If you do not notify...

A relocating person who does not give the required notice may be found in contempt of court. If that happens the court can impose sanctions. Sanctions can include requiring the relocating person to bring the children back if the move has already happened, and ordering the relocating person to pay the other side's costs and lawyer's fees.

Right to object

A person who has court-ordered time with the children can object to a move to a different school district and/or to the relocating person's proposed *Parenting Plan*. If the move is within the same school district, the other party doesn't have the right to object to the move, but s/he may ask to change the *Parenting Plan* if there are adequate reasons under the modification law (RCW 26.09.260).

An objection is made by filing the *Objection about Moving with Children and Petition about Changing a Parenting/Custody Order (Relocation)* (form FL Relocate 721). File your *Objection* with the court and serve a copy on the relocating person and anyone else who has court-ordered time with the children. Service of the *Objection* must be by personal service or by mailing a copy to each person by any form of mail that requires a return receipt. The *Objection* must be filed and served no later than **30 days** after the *Notice of Intent to Move with Children* was received.

Right to move

During the 30 days after the *Notice* was served, the relocating person may not move to a different school district with the children unless s/he has a court order allowing the move.

After the 30 days, if no *Objection* is filed, the relocating person may move with the children without getting a court order allowing the move.

After the 30 days, if an *Objection* has been filed, the relocating person may move with the children **pending** the final hearing on the *Objection* **unless**:

- The other party gets a court order saying the children cannot move, or
- The other party has scheduled a hearing to take place no more than 15 days after the date the *Objection* was served on the relocating person. (However, the relocating person may ask the court for an order allowing the move even though a hearing is pending if the relocating person believes that s/he or a child is at unreasonable risk of harm.)

The court may make a different decision about the move at a final hearing on the *Objection*.

Parenting Plan after move

If the relocating person served a proposed *Parenting Plan* with the *Notice*, **and** if no *Objection* is filed within 30 days after the *Notice* was served (or if the parties agree):

- Both parties may follow that proposed plan without being held in contempt of the *Parenting Plan* that was in place before the move. However, the proposed plan cannot be enforced by contempt unless it has been approved by a court.
- Either party may ask the court to approve the proposed plan. Use form *Ex Parte Motion for Final Order Changing Parenting Plan – No Objection to Moving with Children* (FL Relocate 706).

16. Court Order

- ☐ Does not apply. This is a proposal.
- ☐ This is a court order (if signed by a judge or commissioner below).

Findings of Fact – Based on the pleadings and any other evidence considered:

The Court adopts the statements in section **3** (Reasons for putting limitations on a parent) as its findings.

- ☐ The Court makes additional findings which are:
- ☐ contained in an order or findings of fact entered at the same time as this *Parenting Plan*.

14. Other

- a. Objectives. Each parent agrees to honor one another's parenting style, privacy and authority. The parents are free to involve the children in activities that they see fit during their time. Each parent shall encourage the child to discuss his grievance against a parent directly with the parent in question. It is the intent of both parents to encourage a direct parent-child bond and communication.
- b. Consistency. The residential arrangements defined above are provided for in the best interests of the child. The child's interests are best served by a full and regular pattern of contact with both parents, responsiveness and cooperation by both parents, involvement by both parents in all aspects of the child's needs and a reasonably consistent routine of activities, values and discipline throughout both homes. Absence, inconsistency and conflict are opposed to the best interests of the child.
- c. Telephone Access. When a child of the parties is not residing with a given parent, that parent shall be permitted unimpeded and unmonitored telephone access with the child of not less than two calls per week at reasonable times and for reasonable durations. FaceTime shall be implemented to be used for communication purposed.
- d. Activities. Each parent shall have the right and responsibility to ensure that the child attends school and other scheduled activities while in that parent's care. Activities shall not be scheduled to unreasonably interfere with the other parent's residential time with the child. Activities that fall solely on one parent's time may be scheduled without the other parent's agreement required, but both parents shall have the right to participate.
- e. Change of Address. Each parent shall provide the other with the address and phone number of his or her residence, and email, and shall update such information promptly whenever it changes.
- f. Affections. Each parent agrees to exert every reasonable effort to maintain free access and unhampered contact and communication between the child and the other parent, and to promote the emotions of affection, love and respect between the and the other parent.
- g. Enrichment Activities. Each parent shall be responsible for keeping themselves advised of athletic and social events in which the child participates. Both parents may participate in school and extracurricular activities for the child regardless of the residential schedule.
- h. Children's Welfare. Each parent shall provide the other parent promptly with receipt of any significant information regarding the welfare of the child including physical and mental health, performance in school, extracurricular activities, etc.
- i. Residential absence. Each parent shall inform the other when that parent plans to be away from his or her residence with the children for more than two nights. The information to be provided shall include duration of the period, the destinations and destination telephone numbers.

j. Child's Involvement. Neither parent shall ask the child to make decisions or requests involving the residential schedule. Neither parent shall discuss the residential schedule with the child except for plans, which have already been agreed to by both parents in advance, except to ascertain the child's general interest in the activity/proposed event. Neither parent shall advise the child of the status of child support payments or other legal matters regarding the parents' relationship. Neither parent shall use the child, directly or indirectly, to gather information about the other parent or take verbal messages to the other parent.

k. Derogatory Comments. Neither parent shall make derogatory comments about the other parent or allow anyone else to do the same in the child's presence. Neither parent shall allow or encourage the child to make derogatory comments about the other parent. Each parent is charged with the duty to protect their children.

l. Illness of Child. In the event of serious illness of the child, which affects the residential time of the child with a parent, the parent who misses residential time as a result of the illness shall be granted additional time to compensate for any time lost. Make up time shall be taken within 14 days or deemed waived.

m. First Right of Refusal. Any work related absence that results in a parent not being able to personally supervise the children for a period of longer than 48 hours shall result in the other parent receiving the first right of refusal for childcare, parents and stepparents are excluded from this provision.

n. Passports. The Mother shall retain possession of the passports unless the children are travelling internationally. International travel is strictly prohibited absent written agreement of the parties which shall not be unreasonably withheld.

o. Unsafe Persons. Amisha Zuber is to have no contact or communication with the children during the father's residential time.

The children is not to go to Stillwater Church to accompany father for work as there is an unsafe family present and Elora would like to not see Makayla as it makes her uncomfortable.

EXHIBIT E1: Court Orders - Parental Rights

Case Numbers: 20-3-03830-3 SEA (Parenting), 25-2-11308-6 SEA (Protection Order)

Document Type: Final Court Orders

Source: King County Superior Court

Final Order - Parenting Plan Modification

Court: King County Superior Court

Case Number: 20-3-03830-3 SEA

Key Provisions:

Joint Legal Custody Confirmed: - Both parents maintain joint legal custody and decision-making authority - Medical and mental health treatment requires joint consent - No unilateral decision-making permitted regarding children's healthcare

Contact Rights Established: - Court orders establishing Veronika's right to contact with children - Violation of contact provisions constitutes contempt of court - Parenting plan provisions are legally binding on both parties

Final Parenting Plan - Contact Rights

Effective Date: [Court Order Date]

Legal Authority: King County Superior Court Final Order

Contact Provisions:

Communication Rights: - Parent-child communication shall not be unreasonably restricted - Both parents have right to information regarding children's welfare - Healthcare providers must communicate with both parents per joint custody

Decision-Making Authority: - Joint consent required for mental health services - No therapy or counseling without both parents' written agreement - Court order supersedes any provider policies or preferences

Legal Significance:

These court orders establish Veronika's legal standing to: 1. Request cessation of therapy services without her consent 2. Receive communication from healthcare providers 3. Exercise joint decision-making authority regarding children's mental health treatment

Violation Impact: Ms. D'Souza's continuation of therapy without Veronika's consent directly violated these court-ordered provisions.
