

DECLARATION OF GENESSA ROSE

I am 49 yrs old and I am a friend and patient to Dr. Colin

I, Genessa Rose, declare:

I am the individual submitting this declaration in response to a no contact order involving my friend and Chiropractor Dr. Colin. I am providing this statement to clarify what I have personally observed and to support his character.

1. Relationship with Dr. Colin

I have known Dr. Colin in a professional capacity as my chiropractor for over 10 years. Over time, I have also seen the way he interacts with other patients and members of the community, always with professionalism, kindness, and integrity. He is highly respected and trusted among those who visit his clinic.

2. Circumstances Surrounding the Order

I understand that a no contact order was filed by Mat. While I am not fully aware of all the details that led to the order, I want to share what I've personally witnessed regarding their interactions.

3. My Observations Related to the No Contact Order

I am aware that Dr. Colin was also involved in the same no contact order that named Veronika. From what I have personally observed, Dr. Colin has always maintained appropriate boundaries with patients and has never demonstrated any behavior that would warrant such legal action.

At one point in private, I brought up concerns about where Veronika and her kids were going to live, given the challenges she was facing. During that short conversation, Dr. Colin expressed that it was heartbreaking to watch Veronika go through the custody battle with Mat. He mentioned that Mat has been difficult to work with, and it was clear he empathized with the stress and emotional toll it was having on her.

4. Character and Community Involvement of Dr. Colin

In all my interactions with Dr. Colin, he has been nothing but courteous, professional, and supportive. He runs a respected practice and contributes positively to the community. I have never seen him involved in any conflict or concerning behavior. He is someone who is focused on health, wellness, and maintaining a peaceful and respectful environment for everyone.

In addition to his work, Dr. Colin contributes his time and funds to help support the surrounding nonprofits in our area. He has shown a consistent dedication to giving back to the community, whether through sponsorships, volunteering, or promoting wellness programs. His involvement reflects a genuine commitment to helping others beyond his role as a chiropractor.

5. My Intentions

My purpose in writing this declaration is to provide an honest and clear account of what I know and have observed. I do not intend to interfere in any legal process, but rather to provide relevant context that may assist the court in understanding the character and role of Dr. Colin in this matter.

6. Conclusion

Thank you for considering my statement. I am available to answer any follow-up questions if needed and am willing to testify to what I've seen and experienced, if required.
